Industrial Visit 2021-22

Industrial visits are an integral part of Engineering and acknowledgement of technology upgrades. The purpose of industrial visits for students is to provide technical knowledge with the technological development in the industry and to understand the gap between theoretical and practical knowledge that could be passed in future. This experience can help students to provide information regarding the functioning of various industries and associated problems and limitations.

On 06th June 2022, the Department of Information Technology had organized an industrial visit for 54 B.Tech, who were accompanied by three of the faculty members of the department. The visit was to the Amaravathi Software Solutions Pvt Ltd was incorporated as a private Limited Company with an objective of offering advanced technological solutions in the fields of Information Technology. The technical head of the Amaravathi Software Solutions has guided us with the recent technologies like Cloud Services & Models etc..., He also guided us to select the areas like Web Development, Mobile Application Development and Software testing etc., and its important in the current software market. Finally, he gave a brief explanation of their company and works they do and allow the students to visit their workplace.

Industrial Visit 2021-22

Industrial visits are an integral part of Engineering and acknowledgement of technology upgrades. The purpose of industrial visits for students is to provide technical knowledge with the technological development in the industry and to understand the gap between theoretical and practical knowledge that could be passed in future. This experience can help students to provide information regarding the functioning of various industries and associated problems and limitations.

On 10th May 2022, the Department of Computer Science Engineering had organized an industrial visit for 62 Students of third year B.Tech, who were accompanied by three of the faculty members of the department. The visit was to the Amaravathi Software Solutions Pvt Ltd Rajahmundry was incorporated as a private Limited Company with an objective of offering advanced technological solutions in the fields of Information Technology. The technical head of the Amaravathi Software Solutions has guided us with the recent technologies like E-Commerce Software Solutions, Mobile Commerce, Website Design and Development, Web database Applications, Web hosting. He also guided us to select the areas like Web Development, Mobile Application Development and Software testing etc., and its important in the current software market. He also guided on PHP technology which is their working technology. Finally, it was an informative, interesting and a successful visit.
