## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

Mechanical engineering is an evergreen discipline that involved in the application of basic science and mathematical principles to design, analyze, manufacture, and maintenance of mechanical systems. Mechanical engineers work across a huge variety of industries. Mechanical engineers are in the design, manufacture and maintenance of things ranging from a small safety pin to a giant ship. It is one of the oldest branches of engineering, it is also one that continues to change and grow with the advancements in technology making it a vibrant and exciting career path even to this day. The total number of engineers employed in the U.S. in 2015 was roughly 1.6 million. Of these 17.28% were mechanical engineers, the largest discipline by size. The department is equipped with academically sound and experienced faculty specialized in various areas of mechanical engineering. The department is provided with state of the art laboratories and software. In addition to the regular curriculum we conduct programs like add-on training programs on drafting, solid modelling, etc., Industrial visits, Seminars, Hands-on workshops on latest technologies to enhance the skills of the students to meet the demands of the industry. We also train the students from the campus placements perspective, which brings out their best and enrich them

## About the Program

New ways of living and working will emerge as soon as fear subsides. So need to discuss ways to rebuild our lives, our institutions and our society. Essential services in relation to healthcare, energy and natural resources, water, and emergency services will continue to be in demand, although the business models for these industries may change, old businesses will change and new businesses will emerge. already seeing a shift in services adopting as a response to this pandemic. Need to be vigilant and cautious about the further impact of the spread of the virus, and resilient to create new ways of living and working.

### PROGRAM REPORT

Program Name : Emerging Trends in Business Management  
Date of activity : 19.04.2021  
Venue : Class Room  
Organized by : Dept of Mechanical Engineering  
Resource Person : Mrs.S Bharathi, Assistant Professor,  
Rajamahendri Institute of Engineering College  
Number of Participants : 60

#### Description of the Program

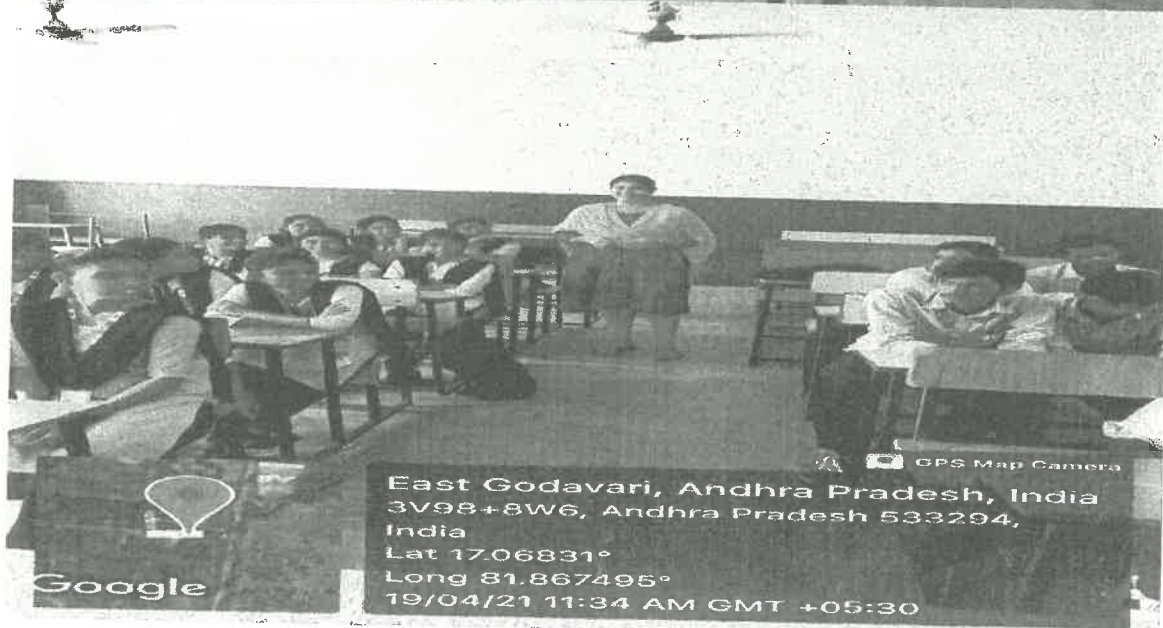

This seminar is useful for All the B.Tech students. The resource person Mrs.S.Bharathi, Assistant Professor, Rajamahendri Institute of Engineering College. She is good at motivating students regarding entrepreneur development and giving a brief insight. He has delivered, in a very enthusiastic way. This is a very excellent topic and all the participants' had given good feedback.

A seminar on Emerging Trends in Business Management would focus on exploring the latest developments and trends in the field of business management. The seminar could cover a range of topics related to business management, including new technologies, changing customer preferences, evolving regulatory environments, and innovative business models.

  
Principal  
GIET ENGINEERING COLLEGE  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

The seminar could include presentations and panel discussions by experts from academia, industry, and government, as well as business leaders and entrepreneurs.

## Outcomes of the Program:

1. A better understanding of the latest trends and developments in business management, and how they are shaping the business landscape.
2. Greater awareness of the specific challenges and opportunities posed by emerging trends in business management, and recommendations for how businesses can adapt and thrive in the face of these changes.
3. Identification of the key skills and competencies that business leaders and managers will need to succeed in a rapidly changing environment.
4. Opportunities for networking and collaboration among business leaders, managers, policymakers, investors, and other stakeholders interested in staying abreast of the latest trends and developments in business management.
5. Increased awareness and understanding of the importance of continuous learning and professional development in the field of business management, and a commitment to staying up-to-date on emerging trends and best practices.

The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

The Department of Electrical and Electronics Engineering was started in the year 2009. It is offering undergraduate graduate program in B.Tech. in Electronics and Communications Engineering. It has well qualified, experienced and dedicated faculty and committed supporting staff.

The Department provides all resources like laboratories, library, and classrooms to students for improving their knowledge and skills. The laboratories of the department are well equipped with sophisticated equipment and instruments to fully satisfy the training needs of the students as well as the research and consultancy needs of the department.

The Department provides complete support to the overall development of the students for challenging career ahead. The department offers seminars, workshops, conferences and expert lectures on the recent advances and educational technologies related to departmental practices on a regular basis.

The Department has produced a good number of graduates well settled in various types of industries and research organizations. The department is also receiving very good support from its alumni in all aspects.

## About the Program

Ethical considerations in research are a set of principles that guide your research designs and practices. Scientists and researchers must always adhere to a certain code of conduct when collecting data from people.

The goals of human research often include understanding real-life phenomena, studying effective treatments, investigating behaviors, and improving lives in other ways. What you decide to research and how you conduct that research involve key ethical considerations.

This seminar mainly focuses on research ethics in human research, but ethical considerations are also important in animal research.

### PROGRAM REPORT

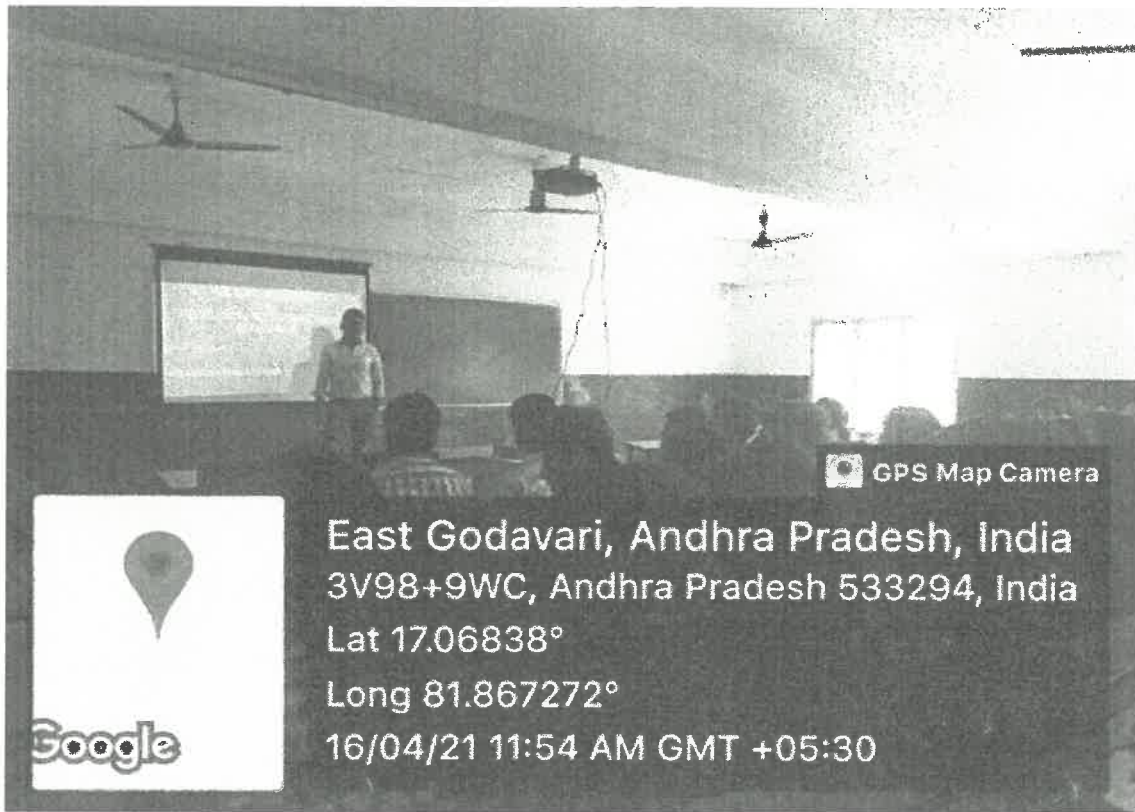

Program Name : Research Methodology & Ethics  
Date of activity : 16.04.2021  
Venue : Seminar Hall, C.V .Raman Block  
Organized by : Department of Electrical and Electronics Engineering  
Resource Person : Mr. B. Srinivasa Rao, Assistant  
Professor, ISTS, Rajamahendravaram  
Number of Participants : 81

#### Description of the Program:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled "Research Methodology & Ethics" on 16.04.2021. Mr. B. Srinivasa Rao, Assistant Professor, ISTS, Rajamahendravaram, acted as a resource person for this seminar. Students have learnt in detail about literature review, research problems and research methodology.

A program on research methodology and ethics is designed to help researchers and scholars understand the principles of research design, data collection, and data analysis, as well as the ethical considerations that arise in the course of research. The program typically covers topics such as research design, sampling methods, data collection techniques, statistical analysis, and ethical considerations in research.

Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

### **Outcomes of the Program:**

1. **Increased understanding of research methodology:** Participants will gain a deeper understanding of research design and methodology, including the principles of hypothesis testing, sampling methods, and statistical analysis.
2. **Improved ability to design research studies:** Participants will learn how to design effective research studies, including selecting appropriate research questions, developing hypotheses, and selecting appropriate research methods.
3. **Better ability to collect and analyze data:** Participants will learn how to collect and analyze data using appropriate research methods and statistical analysis techniques.

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533294

4. **Improved ability to apply ethical principles in research:** Participants will gain insights into the ethical principles that underlie research, including informed consent, confidentiality, and protection of vulnerable populations.
5. **Better ability to write research reports:** Participants will learn how to write effective research reports, including presenting findings, interpreting results, and making recommendations.

## GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)  
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET  
Campus, Rajamahendravaram, AP.

Principal  
GIET ENGINEERING COLLEGE  
NH-16, Chaitanya Knowledge City  
RAJAHMUNDRY-533 296.

## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

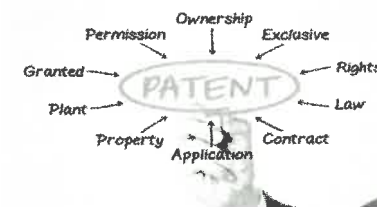

The Department of Electrical and Electronics Engineering was started in the year 2009. It is offering undergraduate graduate program in B.Tech. in Electronics and Communications Engineering. It has well qualified, experienced and dedicated faculty and committed supporting staff.

The Department provides all resources like laboratories, library, and classrooms to students for improving their knowledge and skills. The laboratories of the department are well equipped with sophisticated equipment and instruments to fully satisfy the training needs of the students as well as the research and consultancy needs of the department.

The Department provides complete support to the overall development of the students for challenging career ahead. The department offers seminars, workshops, conferences and expert lectures on the recent advances and educational technologies related to departmental practices on a regular basis.

The Department has produced a good number of graduates well settled in various types of industries and research organizations. The department is also receiving very good support from its alumni in all aspects.

## About the Program

Patent is the most valuable intellectual property right. A Patent protection essentially provides the right to safeguard an invention for a prescribed period of time. The only requisite for a Patent Application is that the new invention must showcase *novelty* of the invention, as well as its usefulness. Today, start-ups are making dynamic and novel advances in different streams i.e. mechanical, bio-technology, medical, genetics, computer, food etc. The recent 'Start-up India Action Plan 2016' by the Government of India emphasizes on enhancing IPR awareness and facilitating registration of patents, trademark and designs by start-up companies.

### PROGRAM REPORT

Program Name : ROLE OF PATENTS IN STARTUP  
Date of activity : 10.04.21  
Venue : Seminar Hall, GIET ENGINEERING COLLEGE.  
Organized by : EEE  
Resource Person : Mrs. B.SUSHMITHA, Assistant Professor,  
Sri Devi Engineering College for Women,  
Contact number: 8464064230  
Number of Participants : 60

#### Description of the Program:

The resource person has good knowledge at Intellectual property rights and financial marketing analysis. This seminar is very useful for budding entrepreneurs and for new startup companies. She explored about A patent is a right to use an invention. Patents are the most costly and time-consuming form of acquired IP, they provide an unparalleled protection. When a startup patents its inventions, its value rises, and financial perspectives expand. Moreover, investors are more likely to acquire a startup which possesses well-protected IPRs.

A seminar on the role of patents in startup is a program designed to educate entrepreneurs and startup owners about the importance of patents in the growth and success of their business. The seminar is usually conducted by experts in the field of patent law, intellectual property, and entrepreneurship.

During the seminar, participants will learn about the different types of patents, how to apply for a patent, and the benefits of having a patent. They will

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City  
RAJAHMUNDRY-533

also gain insights into how to protect their inventions and innovations from competitors, how to use patents to attract investors, and how to monetize their patents.

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

## Outcomes of the Program:

1. **Increased understanding of the importance of patents in startup:** Participants will gain a deeper understanding of the role of patents in startup and how they can use patents to protect their intellectual property.
2. **Improved ability to apply for patents:** Entrepreneurs and startup owners will learn the necessary skills and knowledge needed to apply for patents successfully.
3. **Increased ability to attract investors:** By having patents in place, startups can attract investors who are interested in funding businesses with unique and innovative ideas.
4. **Better protection from competitors:** Patents provide legal protection for inventions and innovations, ensuring that competitors cannot copy or steal a startup's ideas.
5. **Increased monetization opportunities:** Startups can monetize their patents by licensing them to other companies or by selling them outright, providing additional revenue streams for the business.

Overall, a seminar on the role of patents in startup is a valuable program for entrepreneurs and startup owners looking to protect their intellectual property and grow their business.

## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

The Department of Electrical and Electronics Engineering was started in the year 2009. It is offering undergraduate graduate program in B.Tech. in Electronics and Communications Engineering. It has well qualified, experienced and dedicated faculty and committed supporting staff.

The Department provides all resources like laboratories, library, and classrooms to students for improving their knowledge and skills. The laboratories of the department are well equipped with sophisticated equipment and instruments to fully satisfy the training needs of the students as well as the research and consultancy needs of the department.

The Department provides complete support to the overall development of the students for challenging career ahead. The department offers seminars, workshops, conferences and expert lectures on the recent advances and educational technologies related to departmental practices on a regular basis.

The Department has produced a good number of graduates well settled in various types of industries and research organizations. The department is also receiving very good support from its alumni in all aspects.

## About the Program

Define entrepreneurship and innovation: Begin by defining what entrepreneurship and innovation are and why they are important for businesses and society as a whole. Emphasize that entrepreneurship involves identifying a problem and coming up with a solution to address it, while innovation involves finding new ways to improve existing products, services, or processes provide resources and support: Offer resources and support for attendees who are interested in pursuing entrepreneurship, such as incubators, accelerators, and networking opportunities.

### PROGRAM REPORT

Program Name : Entrepreneurship and Innovation  
Date of activity : 25.03.2021  
Venue : Class Room  
Organized by : Dept of EEE  
Resource Person : K V VENKATA RAMANA, Assistant Professor,  
International School of Technology and Sciences  
Number of Participants : 50

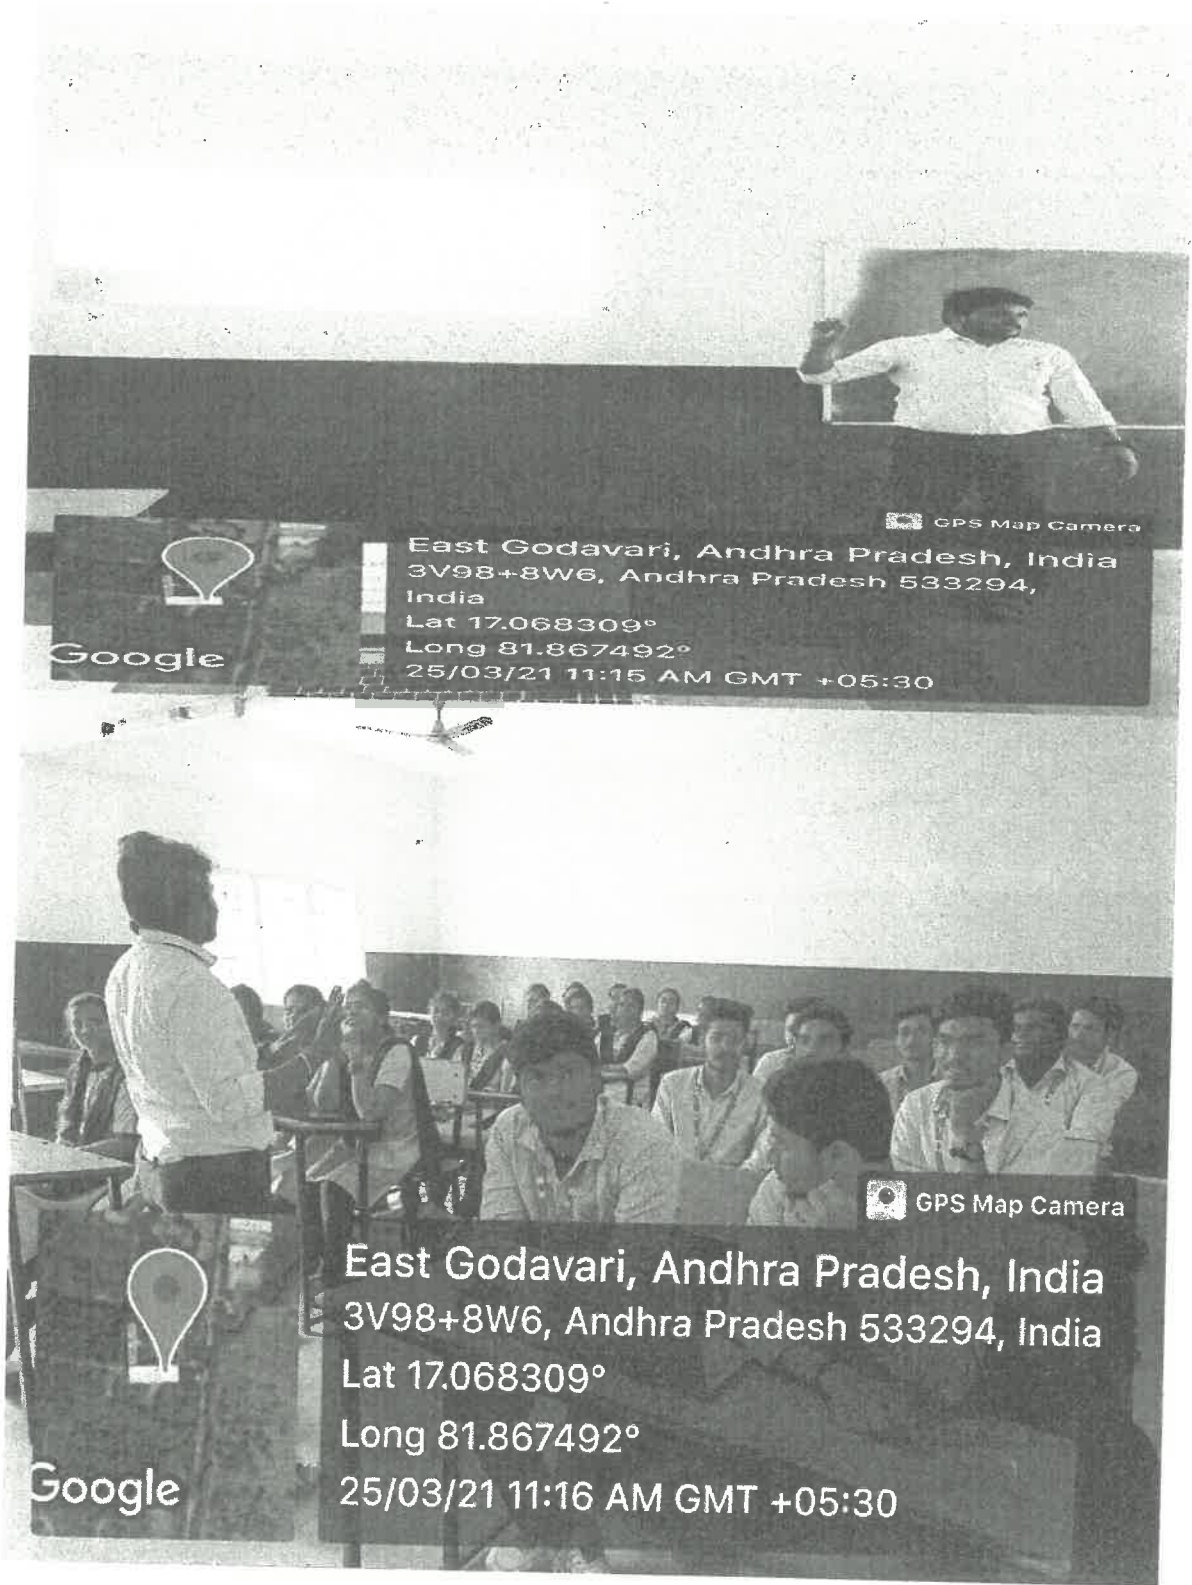

#### Description of the Program:

This Seminar is useful for All the B.Tech students. The resource person Mr.K V VENKATA RAMANA, Assistant Professor, International School of Technology and Sciences. He is good at motivating students regarding entrepreneur development and giving a brief insight. He has delivered in a very enthusiastic way. This is a very excellent topic and all the participants had given good feedback.

A seminar on Entrepreneurship and Innovation would focus on exploring the relationship between entrepreneurship and innovation, and how they can be leveraged to drive economic growth and social change. The seminar could cover a range of topics related to entrepreneurship and innovation, including the role of government policies and funding, the importance of collaboration and networks, and the challenges and opportunities faced by entrepreneurs and innovators.

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

The seminar could include presentations and panel discussions by experts from academia, industry, and government, as well as entrepreneurs and innovators themselves.

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

### **Outcomes of the Program:**

1. A better understanding of the relationship between entrepreneurship and innovation, and how they can be used together to drive economic growth and social change.
2. Greater awareness of the specific policies and initiatives that can help to foster entrepreneurship and innovation, including funding and support for startups and small businesses.
3. Identification of the key challenges and barriers that entrepreneurs and innovators face in accessing the resources they need to succeed, and recommendations for how to address these challenges.
4. Opportunities for networking and collaboration among entrepreneurs, innovators, policymakers, investors, and other stakeholders interested in promoting entrepreneurship and innovation.
5. Increased awareness and understanding of the role that entrepreneurship and innovation can play in driving economic growth, creating jobs, and solving social and environmental challenges.

## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

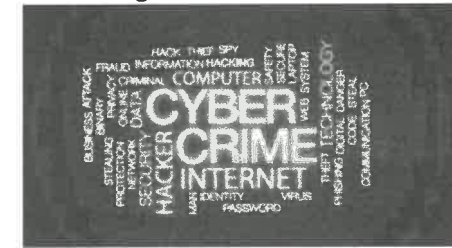

## About the Department

Mechanical engineering is an evergreen discipline that involved in the application of basic science and mathematical principles to design, analyze, manufacture, and maintenance of mechanical systems. Mechanical engineers work across a huge variety of industries. Mechanical engineers are in the design, manufacture and maintenance of things ranging from a small safety pin to a giant ship. It is one of the oldest branches of engineering, it is also one that continues to change and grow with the advancements in technology making it a vibrant and exciting career path even to this day. The total number of engineers employed in the U.S. in 2015 was roughly 1.6 million. Of these 17.28% were mechanical engineers, the largest discipline by size.

The department is equipped with academically sound and experienced faculty specialized in various areas of mechanical engineering. The department is provided with state of are laboratories and software.

## About the Program

New technologies create new criminal opportunities but few new types of crime. What distinguishes cybercrime from traditional criminal activity? Obviously, one difference is the use of the digital computer, but technology alone is insufficient for any distinction that might exist between different realms of criminal activity. Criminals do not need a computer to commit fraud, traffic in child pornography and intellectual property, steal an identity, or violate someone's privacy. All those activities existed before the "cyber" prefix became ubiquitous. Cybercrime, especially involving the Internet, represents an extension of existing criminal behaviour alongside some novel illegal activities. Most cybercrime is an attack on information about individuals, corporations, or governments.

### PROGRAM REPORT

Program Name : INTERNATIONAL ASPECTS OF COMPUTER AND ONLINE CRIME  
Date of activity : 08.03.2021  
Venue : Seminar Hall, GIET ENGINEERING COLLEGE.  
Organized by : MECHANICAL ENGINEERING DEPARTMENT  
Resource Person : MR. S. A. VARAPRASAD,  
Associate Professor,  
Department: ECE,  
B.V.C College of Engineering, BVCR,  
Contact number: +91 9000273578  
Number of Participants : 58

#### Description of the Program:

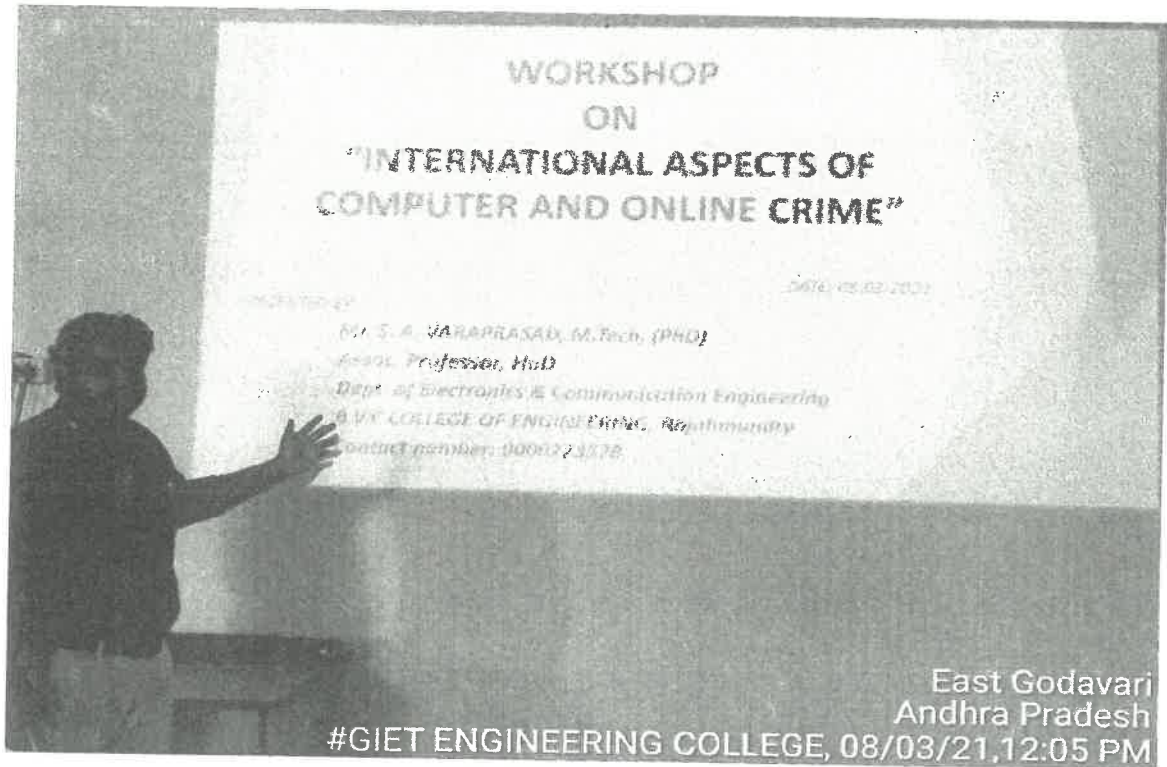

The resource person has good knowledge of Intellectual property rights and financial marketing analysis. This workshop is very useful for budding entrepreneurs and for new startup companies. He explored what computer crime is and how it affects society. Security can only be compromised when the system is easy to access for hackers. Cybercrime is criminal activity that either targets or uses a computer, a computer network or a networked device. Most cybercrime is committed by cybercriminals or hackers who want to make money. However, occasionally cybercrime aims to damage computers or networks for reasons other than profit. It refers to illegal internet-mediated activities that often take place on global electronic networks. Cybercrime is "international" or "transnational" – there are 'no cyber-borders between countries'. International cybercrimes often challenge the effectiveness of domestic and international law, and law enforcement.

## Outcomes of the Program:

1. **Increased understanding of international cybercrime:** Participants will gain a deeper understanding of the different types of cybercrime and the ways in which cybercrime is conducted across national borders.
2. **Better ability to protect against cybercrime:** Participants will learn how to protect themselves and their businesses against cybercrime, including best practices for password security, encryption, and other security measures.
3. **Improved ability to respond to cybercrime:** Participants will learn how to respond to cybercrime, including how to report incidents to law enforcement and how to work with international authorities to investigate and prosecute cybercriminals.
4. **Better understanding of international cybercrime laws:** Participants will gain insights into the complex legal landscape of international cybercrime, including the different laws and regulations that apply in different countries.
5. **Improved ability to comply with international cybercrime laws:** With a better understanding of international cybercrime laws, participants will be better equipped to comply with regulations and avoid legal penalties for cybercrime.

It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

The Civil Engineering department at GIET Engineering College is committed to providing a high-quality education that prepares students for successful careers in the civil engineering field. The department has a team of experienced and dedicated faculty members who use innovative teaching methods to help students gain a thorough understanding of the subject matter.

The department has state-of-the-art facilities, including well-equipped labs and a modern computer center that provides students with hands-on experience using the latest software tools. The curriculum covers a wide range of topics, including structural analysis and design, construction materials and technology, transportation engineering, environmental engineering, and geotechnical engineering.

Students are encouraged to participate in research projects and industry internships to gain practical experience and develop their skills. The department also organizes seminars, workshops, and guest lectures to keep students up-to-date with the latest developments in the field. Graduates from the Civil Engineering department at GIET Engineering College have a wide range of career opportunities, including working in the construction industry, government agencies, consulting firms, and research organizations.

## About the Program

**Define your target audience:** Before presenting your start-up idea, it is essential to understand who your target audience is. As it is a student bazaar, your target audience would be students. Therefore, ensure that your idea is relevant and appealing to them.

**Keep it simple:** While presenting your start-up idea, it is crucial to keep it simple and straightforward. Avoid using technical jargon that the students may not be familiar with.

**Describe your solution:** After explaining the problem, describe your solution to the problem. Explain how your start-up idea solves the problem and how it is different from other solutions.

**Use visual aids:** Visual aids such as charts, graphs, and images can help you explain your start-up idea better. Use them wherever possible to make your presentation more engaging.

### PROGRAM REPORT

Program Name : Start Up Idea Presentation And Students Baza  
Date of activity : 24.02.2021  
Venue : Class Room  
Organized by : Dept of Civil Engineering  
Resource Person : J.Bala Ambedkar, Assistant Professor, Kakinada  
Institute of Engineering and Technology- Kakinada,  
East Godavari  
Number of Participants : 60

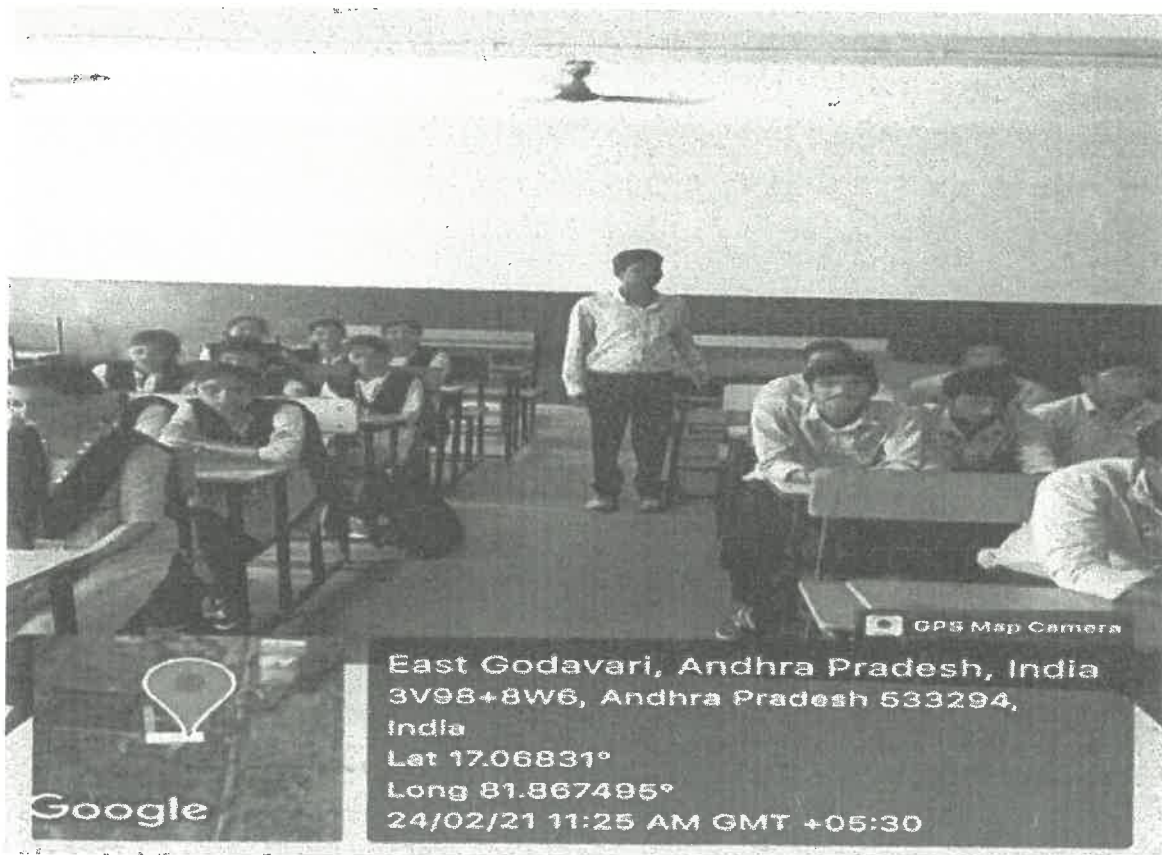

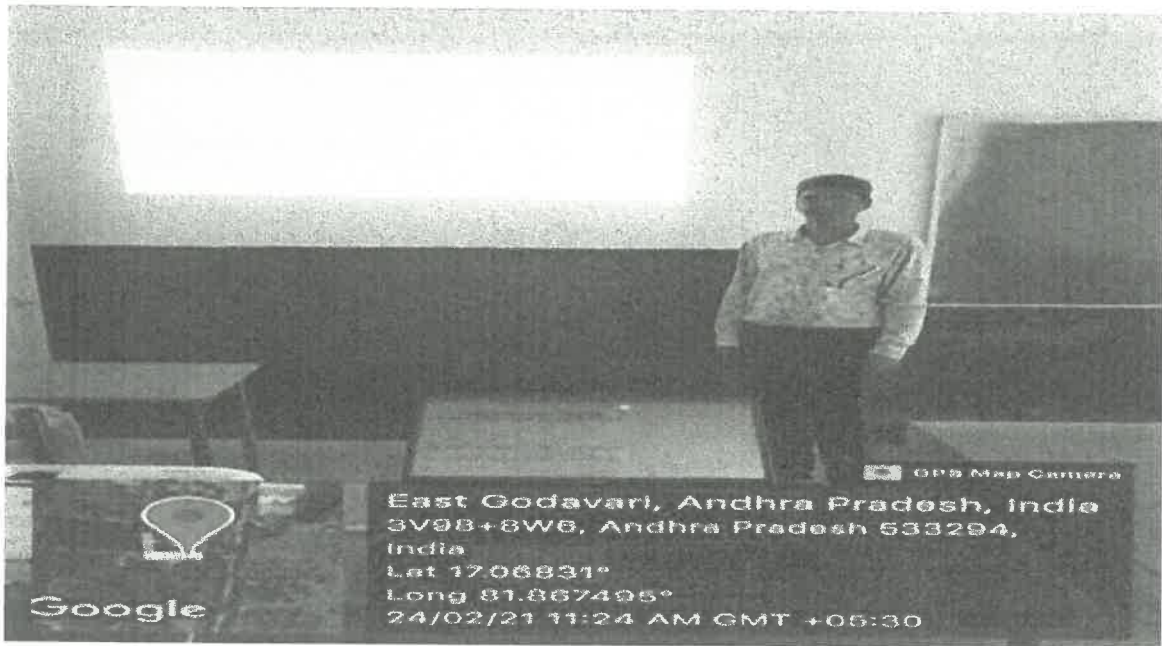

#### Description of the Program:

This seminar is useful for All the B.Tech students. The resource person Mr.J.Bala Ambedkar, Assistant Professor, Kakinada Institute of Engineering and Technology- Kakinada, East Godavari from last 8 years he is working in educational institutions, he is good at motivating students regarding entrepreneur development and giving a brief insight. He has delivered, in a very enthusiastic way .This is a very excellent topic and all the participants' had given good feedback.

A seminar on Start-Up Idea Presentation and Student Bazaar would focus on providing a platform for students to showcase their entrepreneurial ideas and products. The seminar could include a competition for start-up ideas, as well as a marketplace where students can sell their products and services to attendees.

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296,

The seminar could include presentations and pitches by student entrepreneurs, as well as feedback and mentoring from industry experts and investors.

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

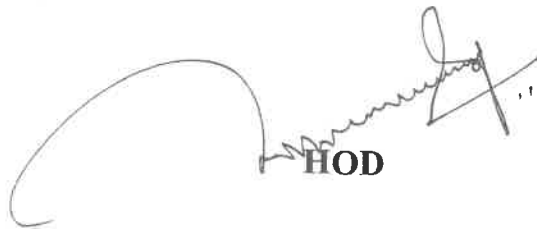

## Outcomes of the Program:

1. A platform for students to showcase their entrepreneurial ideas and products, and receive feedback and mentoring from industry experts and investors.
2. Opportunities for students to network with other aspiring entrepreneurs, as well as potential customers and partners.
3. Identification of the most promising start-up ideas and products, and recommendations for how to further develop and commercialize them.
4. A marketplace for students to sell their products and services, generating revenue and building valuable business experience.
5. Increased awareness and interest among students in entrepreneurship, and a greater appreciation for the skills and competencies needed to succeed as an entrepreneur.

Overall, the seminar would provide a valuable opportunity for students to test their entrepreneurial ideas and products in a supportive and constructive environment, while also gaining exposure to industry experts, investors, and potential customers.

## GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)  
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET  
Campus, Rajamahendravaram, AP.

Principal  
GIET ENGINEERING COLLEGE  
NH-16, Chaitanya Knowledge City  
RAJAHMUNDRAM, AP.

## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

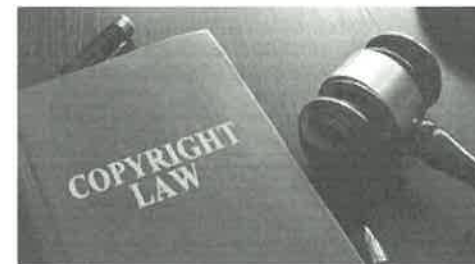

## About the Department

Department of COMPUTER SCIENCE AND ENGINEERING started in the year of 2005. It is offering graduate program B.Tech. Department has well qualified and dedicated faculty members.

Department has produced good number of graduates well settled in industry and some are also involved in research activities.

The Department with its group of employees has coordinated numerous effective events on the campus. We give additional inputs to the students to meet the corporate requirements and assumptions. The preparation that we give and the schedule we have intended for preparing separated from college educational plan fills the hole between the University and the Industry. It is refreshed consistently to stay aware of the developing growing demands and the changing trends of the software industry and research centers. It assists students with improving their abilities and leave the campus with a feeling of complete satisfaction.

## About the Program

Copyright (or author's right) is a legal term used to describe the rights that creators have over their literary and artistic works. Works covered by copyright range from books, music, paintings, sculpture, and films, to computer programs, databases, advertisements, maps, and technical drawings. Copyright law aims to balance the interests of those who create content, with the public interest in having the widest possible access to that content. WIPO administers several international treaties in the area of copyright and related rights.

### PROGRAM REPORT

Program Name : INTERNATIONAL COPYRIGHT LAW  
Date of activity : 05.02.2021  
Venue : Seminar Hall, GIET ENGINEERING COLLEGE.  
Organized by : COMPUTER SCIENCE ENGINEERING  
Resource Person : DR. M. VIJAY KUMAR,  
Associate Professor,  
Department: MBA,  
KKR & KSR Institute of Technology & Sciences,  
Guntur, Contact number: 8978474999.  
Number of Participants : 56

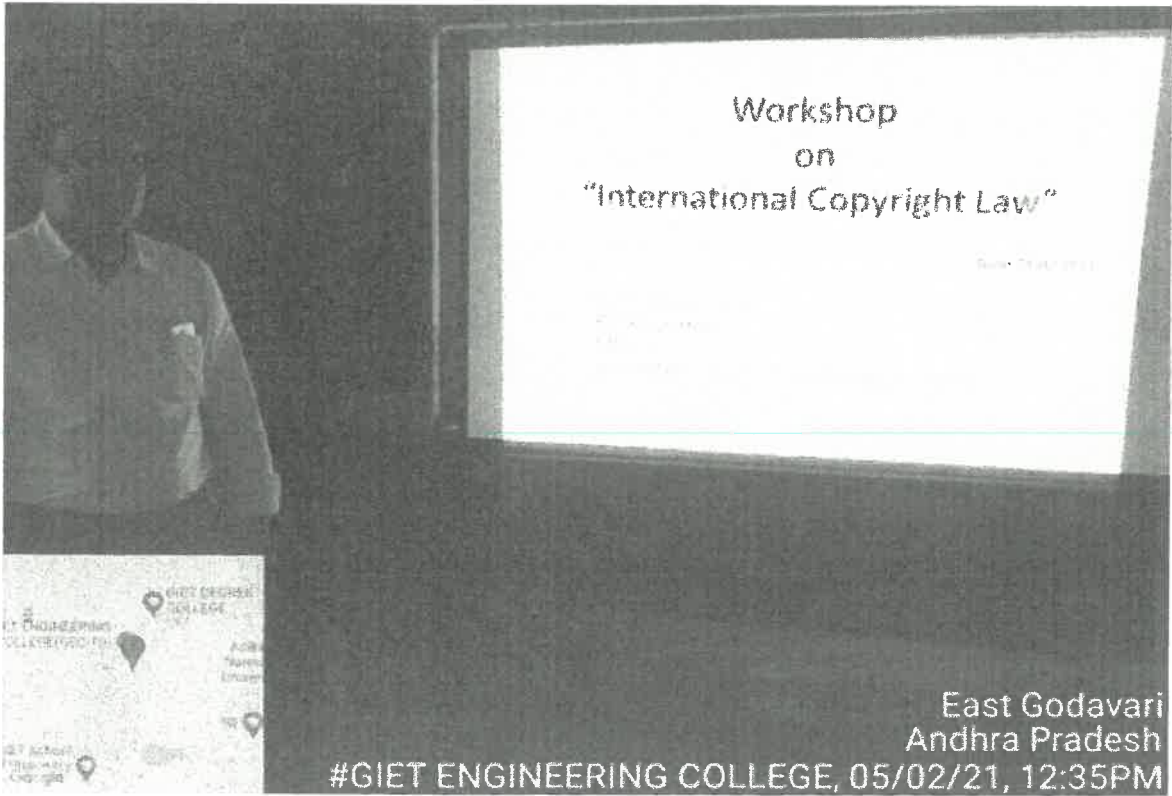

#### Description of the Program:

The resource person has good knowledge at Intellectual property rights and financial marketing analysis. This Seminar is very useful for budding entrepreneurs and for new startup companies. He explored about importance of patents, copyrights and how to establish the projects. Many copyright issues that appear to be national copyright issues are in fact international copyright issues. Understanding your own country's copyright laws is most important, but understanding how copyright treaties and international copyright law works is also essential when publishing content or using content online. It allows creators and content owners around the world and citizens of many countries to enjoy copyright protection in countries other than their own.

RAJAHMUNDRY-533 296.

### **Outcomes of the Program:**

1. **Increased understanding of international copyright law:** Participants will gain a deeper understanding of the complexities of international copyright law and how it differs from copyright law in their home country.
2. **Better ability to protect creative works:** Participants will learn how to protect their creative works in the global context and how to navigate the different copyright laws that apply in different countries.
3. **Improved ability to navigate copyright law in a global marketplace:** With the growth of the digital marketplace, it has become increasingly important for businesses to understand how international copyright law applies to their products and services. Participants will learn how to navigate these legal issues to protect their intellectual property and avoid infringement.
4. **Improved ability to license and monetize creative works:** Participants will learn how to license their creative works to others in different countries, and how to monetize their intellectual property in the global marketplace.
5. **Better understanding of copyright infringement:** Participants will learn about copyright infringement in the global context and how to take legal action against those who infringe on their intellectual property rights.

## GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)  
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET  
Campus, Rajamahendravaram, AP.

Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAMAHENDRAVARAM, AP.

## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

Mechanical engineering is an evergreen discipline that involved in the application of basic science and mathematical principles to design, analyze, manufacture, and maintenance of mechanical systems. Mechanical engineers work across a huge variety of industries. Mechanical engineers are in the design, manufacture and maintenance of things ranging from a small safety pin to a giant ship. It is one of the oldest branches of engineering, it is also one that continues to change and grow with the advancements in technology making it a vibrant and exciting career path even to this day. The total number of engineers employed in the U.S. in 2015 was roughly 1.6 million. Of these 17.28% were mechanical engineers, the largest discipline by size. The department is equipped with academically sound and experienced faculty specialized in various areas of mechanical engineering. The department is provided with state of the art laboratories and software. In addition to the regular curriculum we conduct programs like add-on training programs on drafting, solid modelling, etc., Industrial visits, Seminars, Hands-on workshops on latest technologies to enhance the skills of the students to meet the demands of the industry.

## About the Program

When writing your paper you should keep the journal you are targeting in mind, to make sure the style, structure and audience are all a good fit. This helps the editor to see how your work matches with the aims and scope of the journal, and make it more likely to be accepted for publication. (Make sure you've read the aims and scope for your target journal before you start writing, it will tell you what types of article are accepted.)

This seminar will help you learn the above mentioned similar tips to write up your research

### PROGRAM REPORT

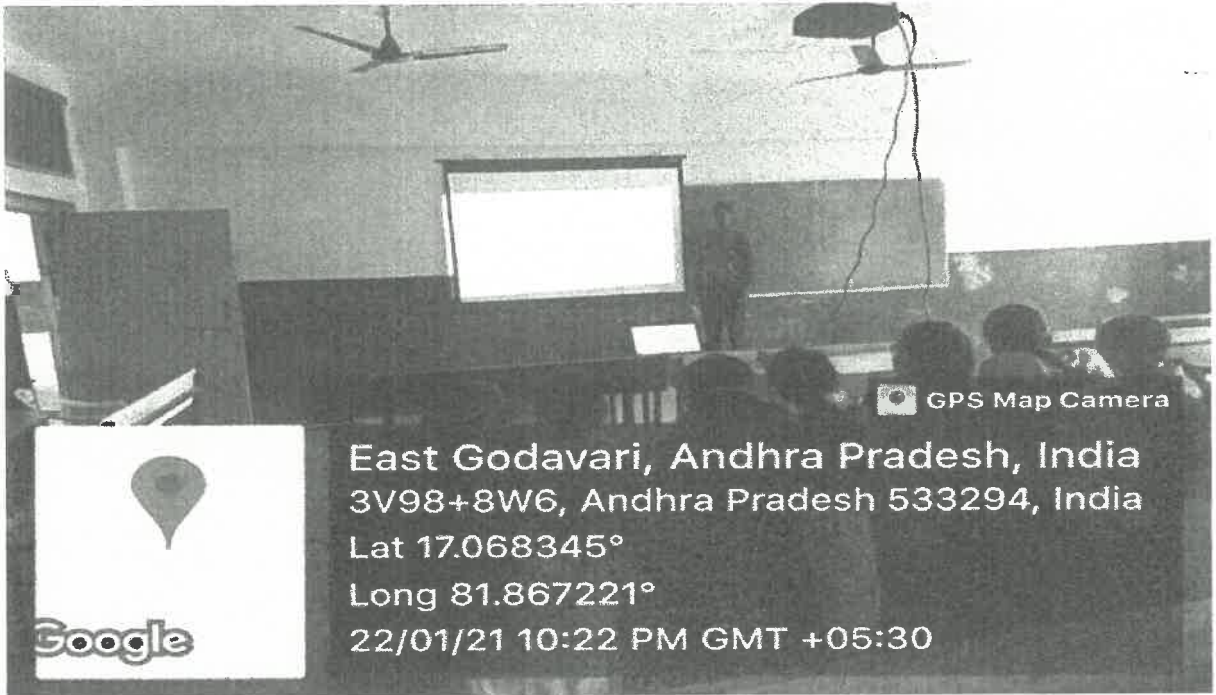

Program Name : How to Publish a Paper and improve your Research  
Date of activity : 22.01.2021  
Venue : Class Room, C.V .Raman Block  
Organized by : Department of Mechanical Engineering  
Resource Person : Mr.J. Bala Ambethkar, Assistant Professor,  
Kakinada Institute of Engineering and  
Technology, Kakinada  
Number of Participants : 87

### Description of the Program:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled “How to Publish a paper and improve your Research” on 22.01.2021. Mr. J.Bala Ambethkar, Assistant Professor, Kakinada Institute of Engineering and Technology, Kakinada, acted as a resource person for this seminar. Students have learnt in detail about publishing paper and the importance of research.

How to publish a paper and improve your research is designed to help researchers and scholars understand the process of academic publishing and develop the skills needed to write and publish high-quality research papers. The program typically covers topics such as selecting a topic, conducting research, writing the paper, submitting to journals, and responding to reviewer comments.

### **Outcomes of the Program:**

1. **Increased understanding of academic publishing:** Participants will gain a deeper understanding of the academic publishing process, including how to select a journal, submit a paper, and respond to reviewer comments.
2. **Improved ability to write high-quality research papers:** Participants will learn how to conduct effective research, organize their ideas, and write clearly and concisely to produce high-quality research papers.
3. **Better understanding of academic writing conventions:** Participants will gain insights into the conventions of academic writing, including citation styles, formatting, and writing for specific audiences.
4. **Improved ability to navigate the peer review process:** Participants will learn how to respond effectively to reviewer comments, revise their papers, and resubmit to journals.
5. **Better positioning for academic success:** By developing the skills needed to publish high-quality research papers, participants will be better positioned for academic success, including opportunities for tenure, promotion, and funding.

## About the Program

Cyber security is the practice of protecting systems, networks, and programs from digital attacks. These cyberattacks are usually aimed at accessing, changing, or destroying sensitive information; extorting money from users; or interrupting normal business processes. Implementing effective cybersecurity measures is particularly challenging today because there are more devices than people, and attackers are becoming more innovative. Users must understand and comply with basic data security principles like choosing strong passwords, being wary of attachments in email, and backing up data.

### PROGRAM REPORT

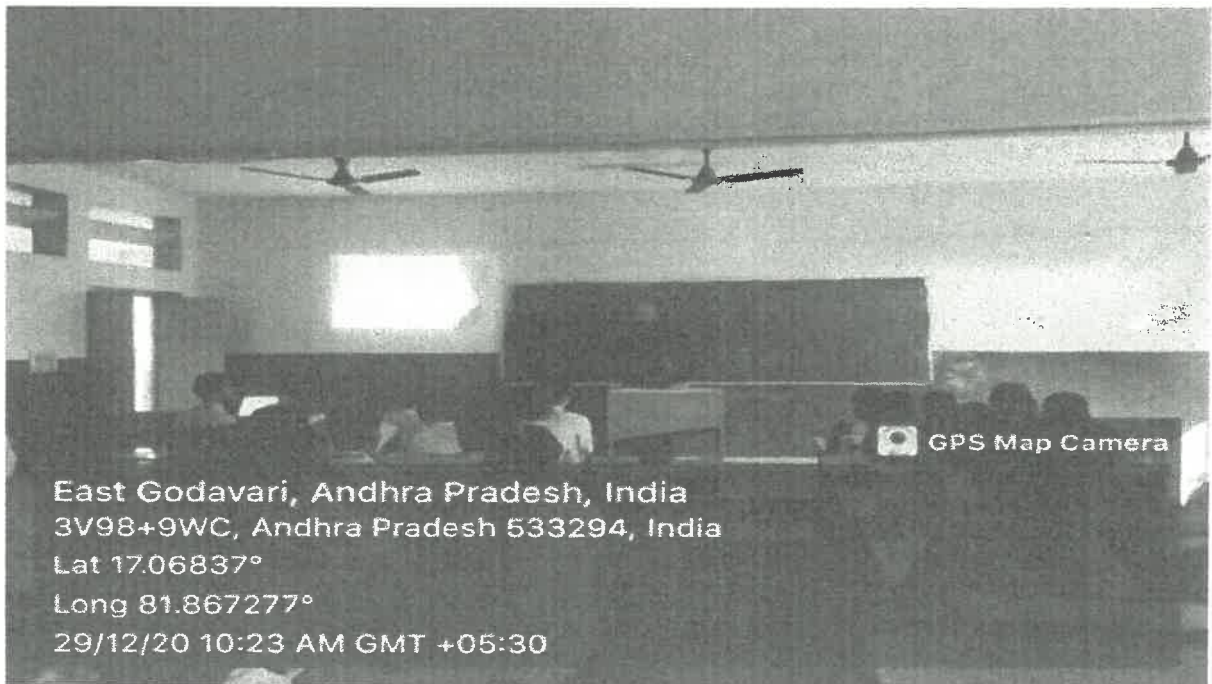

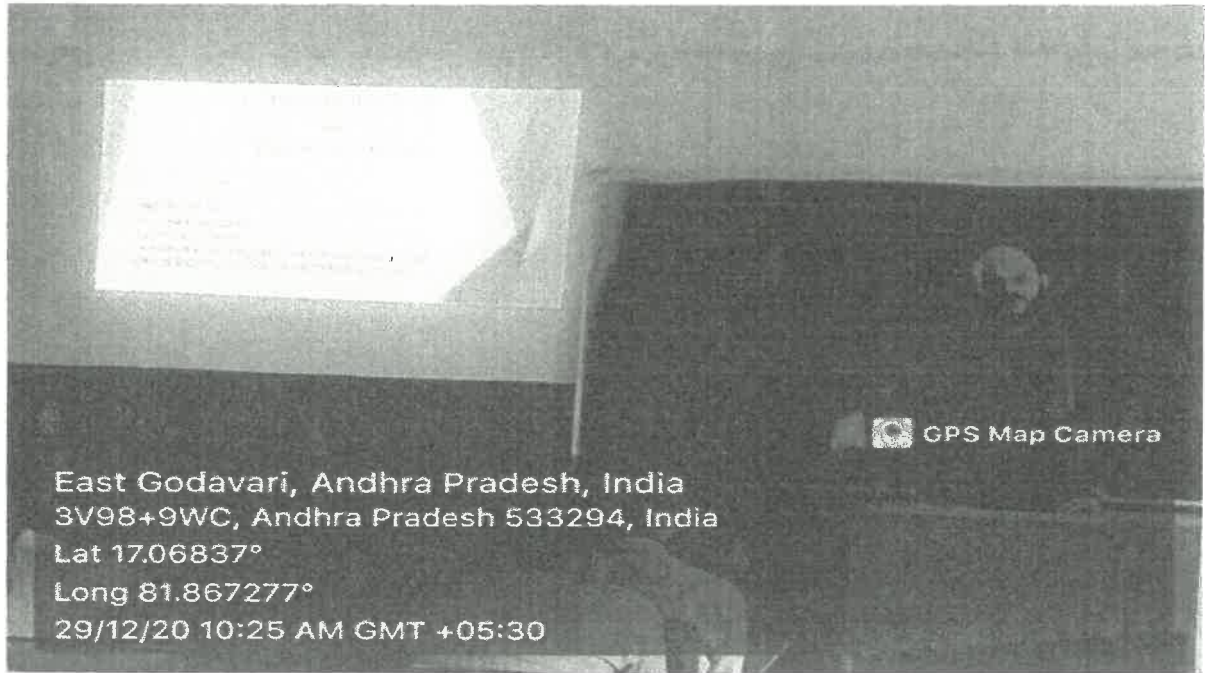

Program Name : Cyber Security  
Date of activity : 29.12.2020  
Venue : Seminar Hall, C.V .Raman Block  
Organized by : Department of Computer Science and  
Engineering  
Resource Person : Dr. Deepak Nedunuri, Associate Professor,  
SIR.C.R.REDDYCOLLEGE OF ENGINEERING,  
Eluru  
Number of Participants : 81

#### Description of the Program:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled "Cyber Security" on 29.12.2020. Dr.Deepak Nedunuri, Associate Professor, Department of Computer Science and Engineering, SIR C R REDDY COLLEGE OF ENGINEERING, Eluru, acted as a resource person for this seminar. Students have learnt in detail about needs of cyber security and its importance.

A program on cyber security is designed to provide individuals and businesses with the knowledge and skills needed to protect against cyber threats and attacks. The program typically covers topics such as network security, data protection, cybercrime, and incident response.

Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAMPET

### **Outcomes of the Program:**

1. **Increased understanding of cyber security:** Participants will gain a deeper understanding of the different types of cyber threats and the ways in which cyber attacks are conducted.
2. **Better ability to protect against cyber threats:** Participants will learn how to protect themselves and their businesses against cyber threats, including best practices for password security, encryption, and other security measures.
3. **Improved ability to respond to cyber incidents:** Participants will learn how to respond to cyber incidents, including how to report incidents to law enforcement and how to work with IT professionals to investigate and mitigate cyber attacks.
4. **Better understanding of cyber security laws and regulations:** Participants will gain insights into the complex legal landscape of cyber security, including the different laws and regulations that apply in different countries.
5. **Improved ability to comply with cyber security laws and regulations:** With a better understanding of cyber security laws and regulations, participants will be better equipped to comply with regulations and avoid legal penalties for cyber security breaches.

### About the Program

An ecosystem is self-defined by boundaries, where the species within live together in autarky. The boundaries could be physically or not, but are associated with entry and exit barriers. Economic impacts refer to the anticipated increase in locational capital wealth and prosperity and how entrepreneurial ecosystems generate and create value. Economic impacts and successes also support the development of national and regional reputation of entrepreneurial ecosystems that, in turn contribute to attracting financial and human capital and other resources into the ecosystem.

### PROGRAM REPORT

Program Name	: Discussions on Relationship between Elements of Entrepreneurship Ecosystem and Economic Performance
Date of activity	: 28.12.2020
Venue	: Class Room
Organized by	: Dept of CSE
Resource Person	: Mr.B.Srinivasa Rao , Assistant Professor, International School Of Technology And Sciences For Women
Number of Participants	: 55

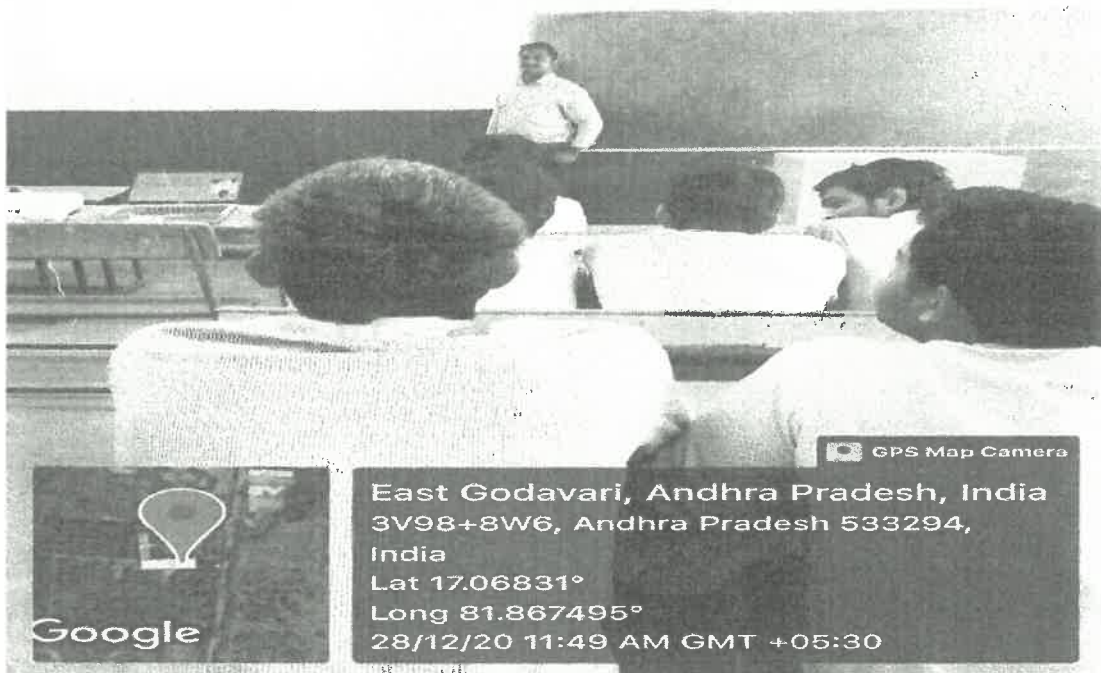

#### Description of the Program:

This workshop is useful for all the B-Tech students. The resource person Assistant Professor, International School Of Technology And Sciences For Women. He is good at motivating students regarding entrepreneur development and giving a brief insight. He has delivered in a very enthusiastic way this is a very excellent topic and all the participants had given good feedback.

A seminar on Discussions on the relationship between Elements of Entrepreneurship Ecosystem and Economic Performance would focus on exploring the various components that make up a thriving entrepreneurship ecosystem, and how they contribute to economic growth and performance. The seminar could cover a range of topics related to entrepreneurship, including the role of government policies, funding and investment, education and training, and access to mentorship and resources.

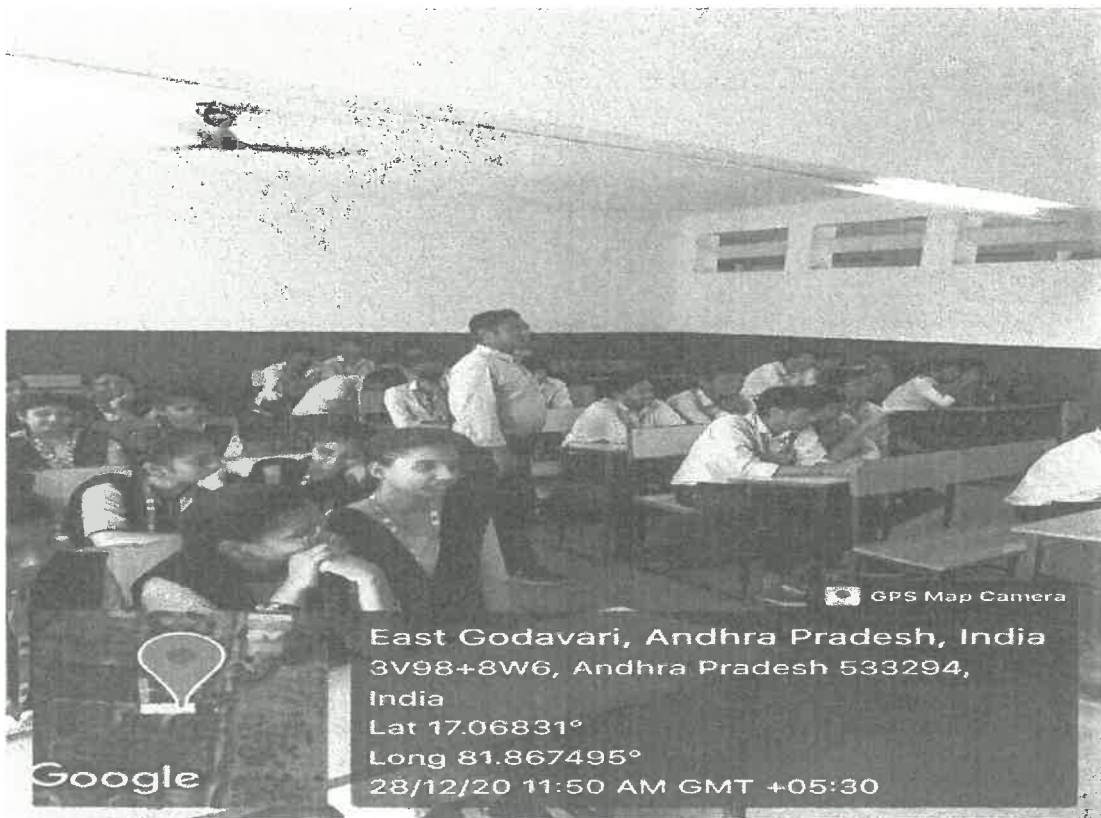

The seminar could include presentations and panel discussions by experts from academia, industry, and government, as well as entrepreneurs themselves.

## Outcomes of the Program:

1. A better understanding of the various elements that make up a thriving entrepreneurship ecosystem, and how they interact with one another to drive economic performance.
2. Greater awareness of the specific policies and initiatives that can help to foster entrepreneurship and promote economic growth.
3. Identification of the key challenges and barriers that entrepreneurs face in accessing the resources they need to succeed, and recommendations for how to address these challenges.
4. Opportunities for networking and collaboration among entrepreneurs, policymakers, investors, and other stakeholders interested in promoting entrepreneurship and economic growth.
5. Increased awareness and understanding of the role that entrepreneurship can play in driving economic growth and creating jobs, and a greater appreciation for the importance of fostering a supportive ecosystem for entrepreneurs.

## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

The department of Electronics & Communication Engineering was established in the year 2005 with an initial intake of 60 students. The undergraduate program of the department of Electronics and Communication imparts solid technical background and research capabilities among the students which help them to excel in their respective fields. It has an array of courses for students to choose from and study such as electronics, electronic hardware and software, communications, radio and television, solid-state devices, microelectronics, VLSI, and other circuits & systems used in varying applications ranging from simple circuits to sophisticated digital satellite systems, GSM & CDMA technology, speech processing & computer development.

We put all our efforts to make our students compete internationally and to produce creative solutions to society's needs, and universal moral values, adherent to professional ethical code, and generating any knowledge and technologies essential to the local and global needs in the field of Electronics & Communication.

## About the Program

Entrepreneurship development requires a network of different elements, and this network is known as the entrepreneurial ecosystem. Entrepreneurship ecosystems include the financial environment, government tax and support policies, government programs, infrastructure, dynamics and market capacities, basic and excellent education, Research and Development (R&D), and cultural and social norms. Improving the entrepreneurship ecosystem can boost economic growth through increased incentives for entrepreneurship and the development of small and medium-sized businesses.

Program Name : Investigating the Role of Entrepreneurship  
Ecosystem In India's Economic Growth  
Date of activity : 18.12.2020  
Venue : Class Room  
Organized by : Dept of ECE  
Resource Person : Mr.B. VENKATESH, Assistant Professor,  
ISTS Engineering College  
Number of Participants : 50

#### Description of the Program:

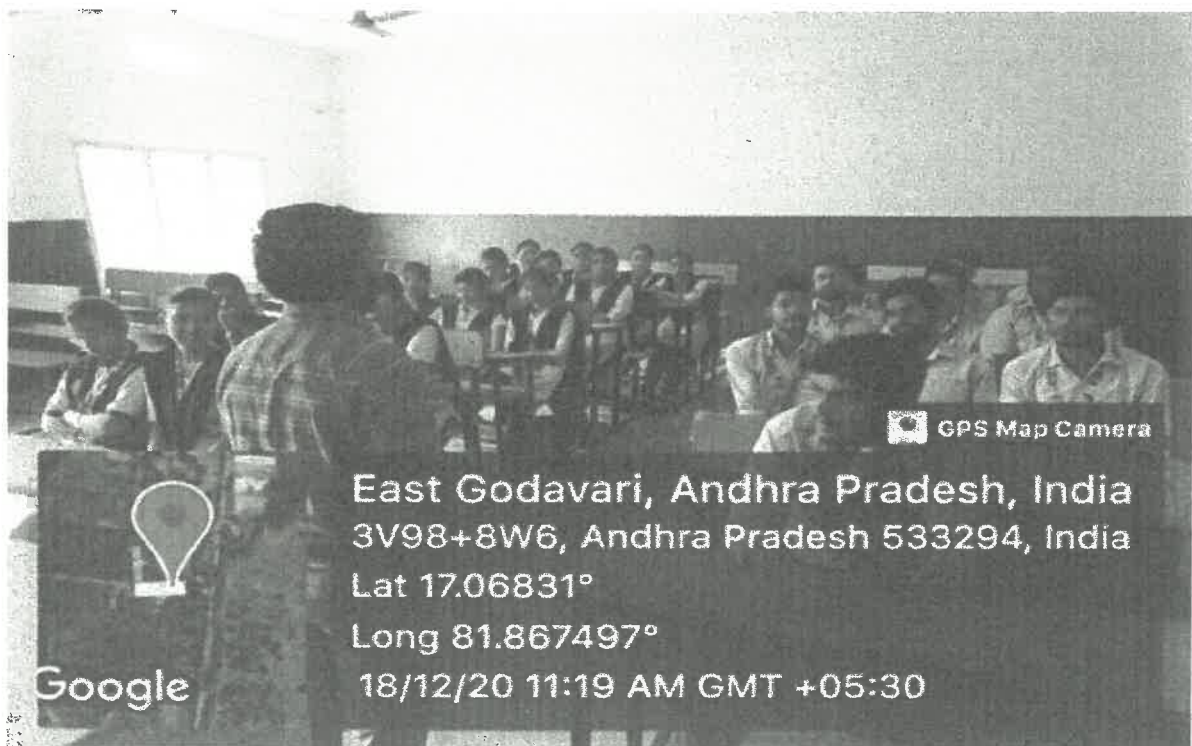

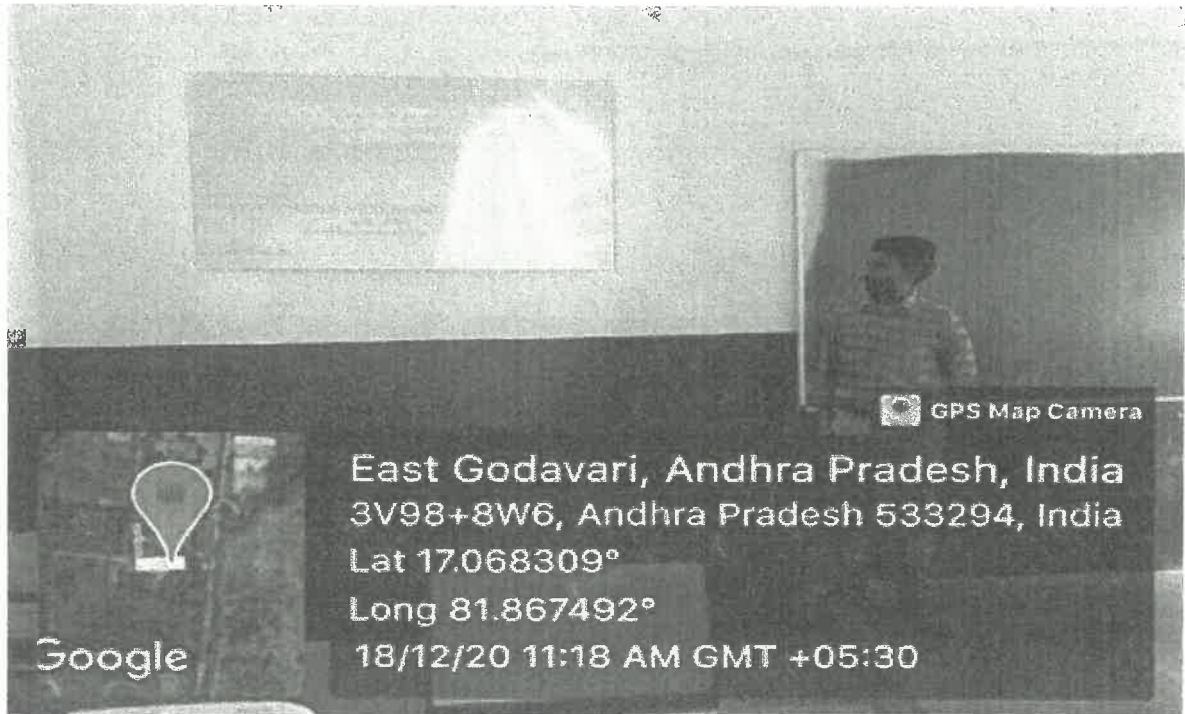

This seminar is useful for B-Tech & MBA students. The resource person Mr.B. VENKATESH, Assistant Professor, ISTS Engineering College. He is good at motivating the students regarding entrepreneur development and giving a brief insight. He has delivered in a very enthusiastic way. This is a very excellent topic and all the participants had given good feedback.

A seminar on "Investigating the Role of Entrepreneurship Ecosystem in India's Economic Growth" would aim to explore the various elements that make up the entrepreneurship ecosystem in India, and how they contribute to the country's economic growth. The seminar could cover a range of topics related to entrepreneurship in India, including the government policies and initiatives aimed

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

at promoting entrepreneurship, the availability of funding and mentorship, the presence of startup incubators and accelerators, and the role of education and training in fostering an entrepreneurial mindset.

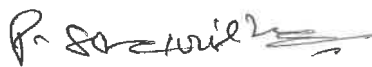

The seminar could include presentations and panel discussions by experts from academia, industry, and government, as well as entrepreneurs themselves.

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

### **Outcomes of the Program:**

1. A deeper understanding of the current state of entrepreneurship in India, including its strengths, weaknesses, and areas for improvement.
2. Greater awareness of the various components of the entrepreneurship ecosystem in India, and their individual and collective contributions to economic growth.
3. Identification of specific policy recommendations and interventions that could help to further strengthen the entrepreneurship ecosystem in India.
4. Opportunities for networking and collaboration among entrepreneurs, policymakers, investors, and other stakeholders interested in promoting entrepreneurship and economic growth in India.
5. Increased interest and investment in the Indian startup ecosystem from domestic and international players.

## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members. apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

The Civil Engineering department at GIET Engineering College is committed to providing a high-quality education that prepares students for successful careers in the civil engineering field. The department has a team of experienced and dedicated faculty members who use innovative teaching methods to help students gain a thorough understanding of the subject matter.

The department has state-of-the-art facilities, including well-equipped labs and a modern computer center that provides students with hands-on experience using the latest software tools. The curriculum covers a wide range of topics, including structural analysis and design, construction materials and technology, transportation engineering, environmental engineering, and geotechnical engineering.

Students are encouraged to participate in research projects and industry internships to gain practical experience and develop their skill.

## About the Program

Overview of higher education programs: Provide an introduction to the various types of higher education programs available, including undergraduate, graduate, and postgraduate programs, as well as professional certification and vocational training programs. Career opportunities: Highlight the diverse career opportunities that higher education can open up, and how the skills and knowledge and gained through higher education can increase job prospects and earning potential. Admissions process: Explain the admissions process for higher education programs, including how to research and choose a program, how to apply.

### PROGRAM REPORT

Program Name : Awareness of Higher Education Program  
Date of activity : 15.12.2020  
Venue : Class Room, C.V .Raman Block  
Organized by : Department of Civil Engineering  
Resource Person : Dr.Y.Venkat, Professor & Vice Principal  
BVC Engineering college, Rajahmundry  
Number of Participants : 80

#### Description of the Program:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled "Awareness of higher education program" on 15.12.2020. Dr.Y.Venkat, Professor & Vice Principal, BVC College of Engineering, acted as a recourse person for this Seminar. Students have learnt in detail about Higher education and its importance. An awareness of higher education program is designed to provide students with the knowledge and skills needed to make informed decisions about their future educational and career paths. The program typically covers topics such as the benefits of higher education, choosing a college or university, selecting a major, and financing a college education

  
Principal  
GIET ENGINEERING COLLEGE.  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

### **Outcomes of the Program:**

1. **Increased understanding of the benefits of higher education:** Participants will gain a deeper understanding of the benefits of higher education, including better job prospects, higher salaries, and greater opportunities for personal growth and development.
2. **Improved ability to choose a college or university:** Participants will learn how to choose a college or university that is the right fit for their educational and career goals, including factors such as location, size, and program offerings.

  
**Principal**  
**GIET ENGINEERING COLLEGE,**  
**NH-16, Chaitanya Knowledge City,**  
**RAJAHMUNDRY-533 296.**

3. **Better ability to select a major:** Participants will gain insights into the different majors available at colleges and universities, as well as the factors to consider when selecting a major, such as personal interests, career goals, and job market trends.
4. **Improved ability to finance a college education:** Participants will learn about the different options for financing a college education, including scholarships, grants, loans, and work-study programs.
5. **Better positioning for success in higher education:** By understanding the benefits of higher education and developing the skills needed to choose a college or university, select a major, and finance a college education, participants will be better positioned for success in higher education and their future careers.

DEPARTMENT OF

Electronics and Communication Engineering

**GIET ENGINEERING COLLEGE**

(Formerly Known as Chaitanya Institute of Engineering & Technology)  
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET  
Campus, Rajamahendravaram, AP.

Principal  
GIET ENGINEERING COLLEGE,

NH-16, Chaitanya Knowledge City, AP.

## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

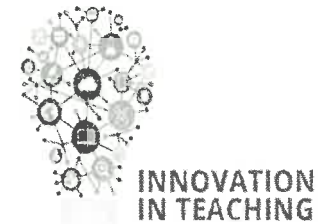

## About the Department

The department of Electronics & Communication Engineering was established in the year 2005 with an initial intake of 60 students. The undergraduate program of the department of Electronics and Communication imparts solid technical background and research capabilities among the students which help them to excel in their respective fields. It has an array of courses for students to choose from and study such as electronics, electronic hardware and software, communications, radio and television, solid-state devices, microelectronics, VLSI, and other circuits & systems used in varying applications ranging from simple circuits to sophisticated digital satellite systems, GSM & CDMA technology, speech processing & computer development.

We put all our efforts to make our students compete internationally and to produce creative solutions to society's needs, and universal moral values, adherent to professional ethical code, and generating any knowledge and technologies essential to the local and global needs in the field of Electronics & Communication.

## About the Program

**Flipped classroom:** This teaching strategy involves students learning the course material before class through videos, readings, or podcasts, and then using class time to apply what they learned through discussions, problem-solving, and group activities.

**Gamification:** Adding game-like elements to lessons and activities can make learning more engaging and fun. You could incorporate game-based learning platforms or create your own interactive games to reinforce learning objectives.

**Collaborative learning:** Encouraging collaboration among students through group projects or discussions can foster critical thinking, problem-solving, and communication skills.

### PROGRAM REPORT

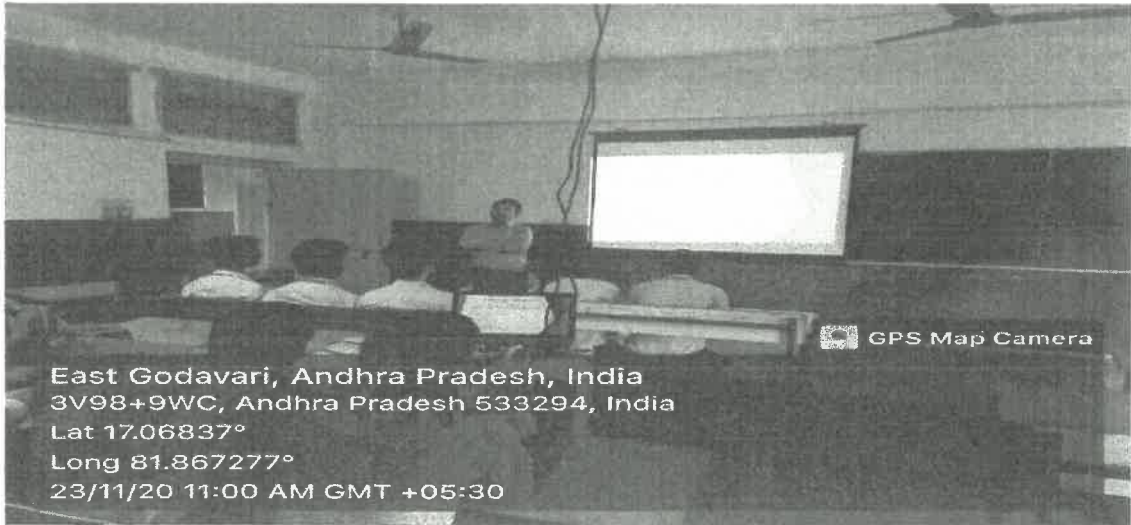

Program Name : Innovative Teaching Strategies  
Date of activity : 23.11.2020  
Venue : Class Room, C.V .Raman Block  
Organized by : Department of Electronics & Communication Engineering  
Resource Person : Dr. Y.K.S.Subba Rao, Professor,  
Aditya College of Engineering  
Number of Participants : 50

#### Description of the Program:

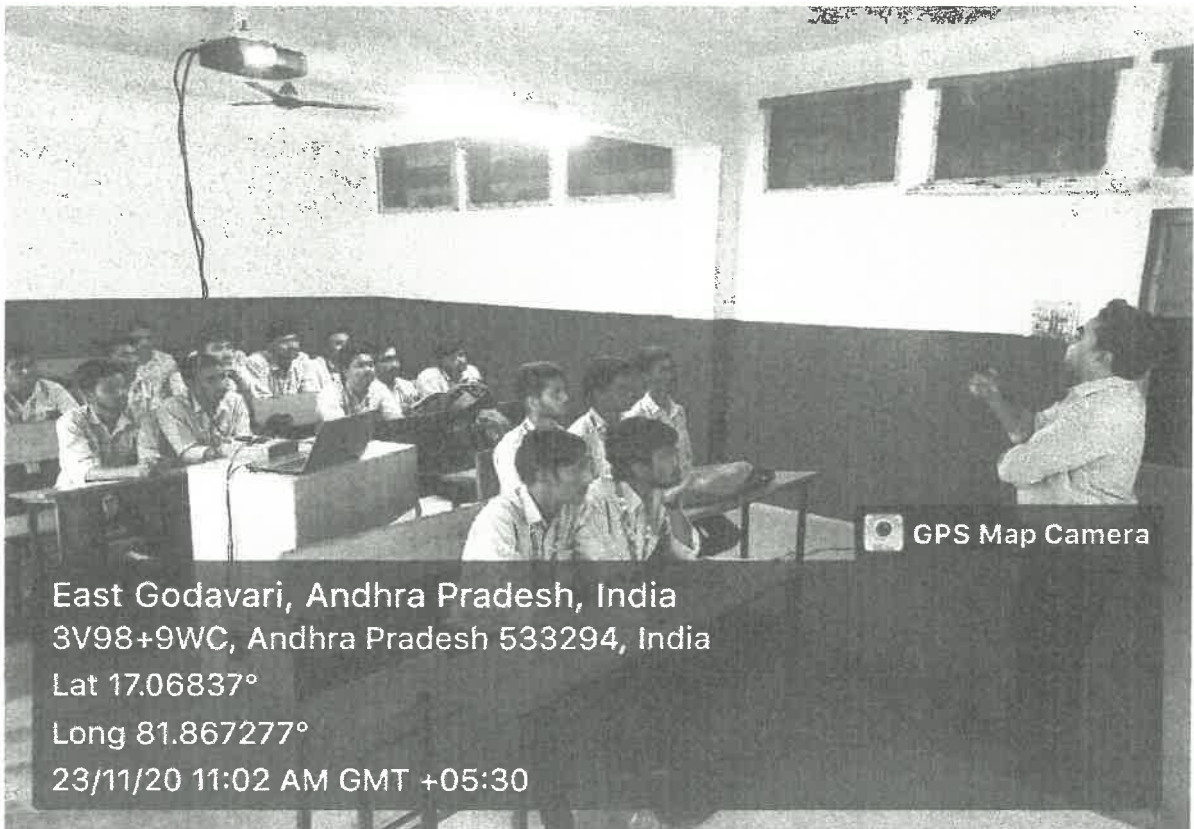

The Program designed for faculty and students of GIET ENGINEERING COLLEGE in the part of academics titled “Innovative teaching strategies” from 23.11.2020 to 27.11.2020. Dr.Y.K.S.Subba Rao, Professor, Aditya College of Engineering, acted as a resource person for this seminar. Students have learnt in detail about future needs in different teaching methods and the importance of teaching.

An innovative teaching strategies program is designed to provide educators with new and creative approaches to teaching that can engage students, enhance learning outcomes, and promote critical thinking skills. The program typically covers topics such as project-based learning, flipped classrooms, gamification, and technology integration.

### **Outcomes of the Program:**

1. **Increased understanding of innovative teaching strategies:** Participants will gain a deeper understanding of the different innovative teaching strategies and how they can be used to enhance learning outcomes.
2. **Improved ability to engage students:** Participants will learn how to use innovative teaching strategies to engage students and promote active learning.
3. **Enhanced critical thinking skills:** Participants will learn how to design activities and assignments that promote critical thinking skills, such as problem-solving and analysis.
4. **Better ability to use technology in the classroom:** Participants will learn how to integrate technology into their teaching to enhance learning outcomes and engage students.
5. **Improved teaching practices:** By learning about innovative teaching strategies and experimenting with new approaches to teaching, participants can improve their teaching practices and be more effective educators.

## About the Program

Innovation means doing something new that improves a product, process or service. Many innovations can be protected through intellectual property (IP) rights. Inventions are the bedrock of innovation. An invention is a new solution to a technical problem and can be protected through patents. Patents protect the interests of inventors whose technologies are truly groundbreaking and commercially successful, by ensuring that an inventor can control the commercial use of their invention.

### PROGRAM REPORT

Program Name : Innovations and Inventions of Trade Related IPR  
Date of activity : 09.11.2020  
Venue : Seminar Hall, GIET ENGINEERING COLLEGE.  
Organized by : ELECTRONICS AND COMMUNICATION  
ENGINEERING  
Resource Person : Mr. K .V .V .RAMANA,  
Assistant Professor,  
Department: ECE,  
International School of Technology and Sciences for  
Women, Contact number: +91 90108 17447  
Number of Participants : 57

#### Description of the Program:

The resource person has good knowledge at Intellectual property rights and financial marketing analysis. This Seminar is very useful for budding entrepreneurs and for new startup companies. He explored the importance of trademarks, copyrights and how to establish projects. An invention is a new solution to a technical problem and can be protected through patents. Patents protect the interests of inventors whose technologies are truly groundbreaking and commercially successful, by ensuring that an inventor can control the commercial use of their invention.

Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

## Outcomes of the Program:

1. **Increased understanding of trade-related IPR:** Participants will gain a deeper understanding of the role of IPR in international trade and the ways in which IPR can impact innovation and economic growth.
2. **Better ability to navigate trade-related IPR:** Participants will learn how to navigate the complex legal landscape of trade-related IPR, including patent and trademark laws, and how to protect their intellectual property in the international marketplace.
3. **Improved ability to identify and protect innovations and inventions:** Participants will learn how to identify and protect their innovations and inventions through patents, trademarks, and copyrights, and how to monetize their intellectual property through licensing and other means.
4. **Better understanding of the impact of IPR on innovation:** Participants will gain insights into the impact of IPR on innovation and economic growth, and how IPR can both promote and hinder innovation.
5. **Improved ability to participate in international trade:** With a better understanding of trade-related IPR, participants will be better equipped to participate in international trade and take advantage of opportunities for growth and expansion.

## GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)  
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NBAAC

NH-16, Chaitanya Knowledge City, GIET  
Campus, Rajamahendravaram, AP.

Principal  
GIET ENGINEERING COLLEGE.

NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 289.

## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

The Civil Engineering department at GIET Engineering College is committed to providing a high-quality education that prepares students for successful careers in the civil engineering field. The department has a team of experienced and dedicated faculty members who use innovative teaching methods to help students gain a thorough understanding of the subject matter.

The department has state-of-the-art facilities, including well-equipped labs and a modern computer center that provides students with hands-on experience using the latest software tools. The curriculum covers a wide range of topics, including structural analysis and design, construction materials and technology, transportation engineering, environmental engineering, and geotechnical engineering.

Students are encouraged to participate in research projects and industry internships to gain practical experience and develop their skills. The department also organizes seminars, workshops, and guest lectures to keep students up-to-date with the latest developments in the field.

## About the Program

Patent drafting is the immediate next step the moment you think of how to patent an idea. Patent draft is a document you prepare when you decide about filing a patent for your invention. It is this patent draft that is submitted to a Patent Office for review and examination of the invention. If the invention is found to be patent eligible, the Examiner (examining authority) will grant it and convert it into an enforceable patent within the specified jurisdiction.

This seminar is about how you draft and file the patent in a step by step process in details.

### PROGRAM REPORT

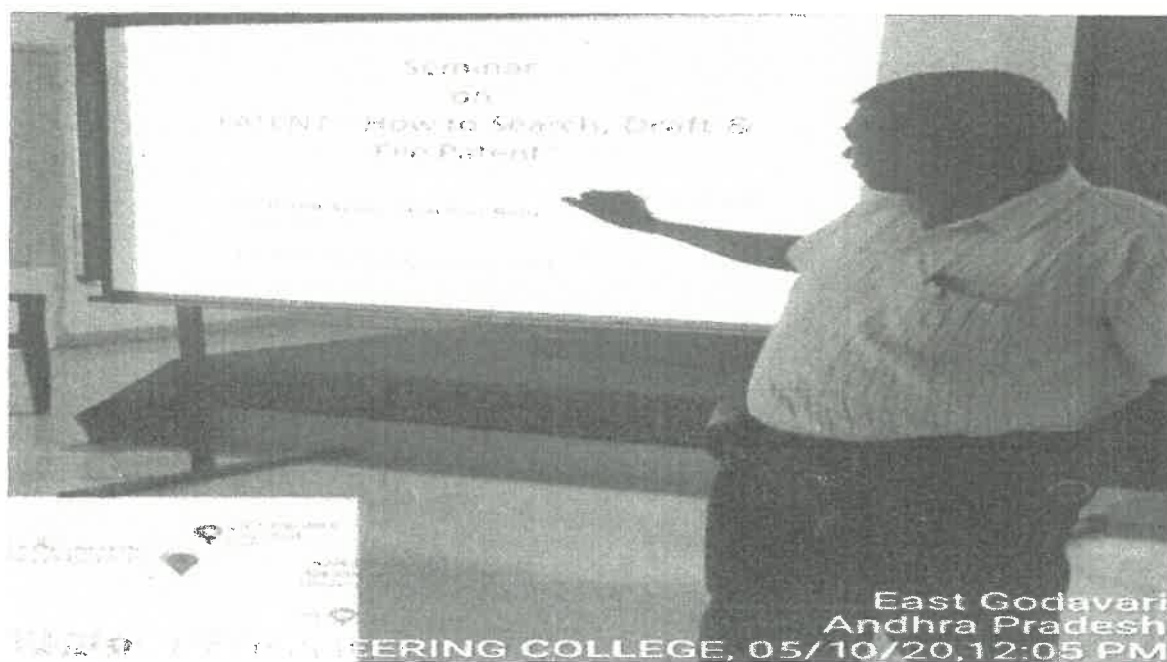

Program Name : PATENT:HOW TO SEARCH, DRAFT & FILE  
Date of activity : 05.10.2020  
Venue : Seminar Hall, GIET ENGINEERING COLLEGE.  
Organized by : CIVIL ENGINEERING  
Resource Person : MR. R.SIDHARTHA SHANKAR RAJU,  
Associate Professor,  
Department: ME,  
ESWAR ENGINEERING COLLEGE,  
Contact number: +91 85004 18613.  
Number of Participants : 60

#### Description of the Program:

The resource person has good knowledge of Intellectual property rights and financial marketing analysis. This seminar is very useful for budding entrepreneurs and for new startup companies. He explored about resulted in the death of inventions, high risk of infringement, economic loss and the decline of an intellectual era in the country. A patent search can be done through the Patent database of India available at: <http://ipindiaservices.gov.in/publicsearch>. PatentScope, Espacenet, The Lens Org, Design View, and Google Patents are the five best patent search engines to search for a patent. Effective drafting of the patent application consists of various parts such as Claims, Background,

*[Signature]*  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

Description, Drawing (if any), Abstract, and Summary. The benefit of filing a provisional application is that one can secure a prior date of filing, which is crucial in the patent world.

*Principal*

### **Outcomes of the Program:**

1. **Increased understanding of the patent process:** Participants will gain a better understanding of the steps involved in the patent process, including searching, drafting, and filing a patent application.
2. **Improved ability to conduct patent searches:** Participants will learn how to conduct patent searches to ensure that their invention or innovation is unique and not already patented.
3. **Better ability to draft patent applications:** Participants will learn how to draft patent applications that meet legal requirements and adequately describe their invention or innovation.
4. **Improved ability to file patent applications:** Participants will learn how to navigate the patent application process, including filling out forms and meeting filing requirements.
5. **Improved ability to protect intellectual property:** By understanding the patent process, participants will be better equipped to protect their intellectual property and prevent others from infringing on their rights.
6. **Better ability to commercialize inventions and innovations:** By understanding the patent process, participants will be better equipped to monetize their inventions and innovations by licensing or selling their patents.
