Week/Day-wise Schedule

Name of the Program: "A Certificate Program On Fuel cell technology "

S.No	Day	Date	Duration	Topics to be covered
1.	MONDAY	25.06.2018	4 HOURS	Introduction to fuel cells and History of fuel cells
2.	TUESDAY	26.06.2018	4 HOURS	Components and construction of fuel cells
3.	WEDNESDAY	27.06.2018	4 HOURS	Working of fuel cells
4.	THURSDAY	28.06.2018	4 HOURS	EMF of fuel cells and its reactions
5.	FRIDAY	29.06.2018	4 HOURS	Classification of fuel cells
6.	SATURDAY	30.06.2018	4 HOURS	Reaction kinetics of fuel cells and Characterization of fuel cells
7.	MONDAY	02.07.2018	4 HOURS	Proton exchange membrane of fuel cells
8.	TUESDAY	03.07.2018	4 HOURS	Power generation through fuel cells and fuel cell system.
9.	WEDNESDAY	04.07.2018	4 HOURS	Complete explanation of Hydrogen fuel cells.
10.	THURSDAY	05.07.2018	4 HOURS	Efficiency of fuel cells and tafel equation of fuel cells
11.	FRIDAY	06.07.2018	4 HOURS	Advantages, disadvantages and applications of fuel cell
12.	SATURDAY	07.07.2018	4 HOURS	Complete overview of above discussed topics.

DEPARTMENT OF
ELECTRICAL AND ELECTRONICS ENGINEERING
GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

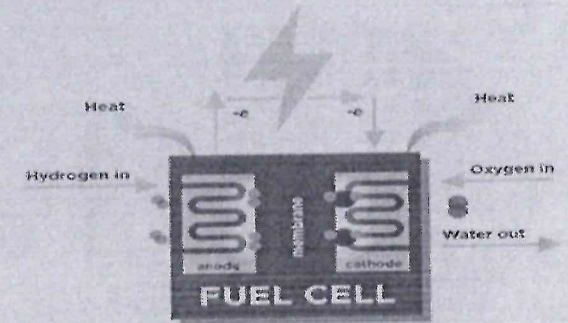

About the Department

The department of Electrical and Electronics Engineering was established in the year 2009 with an initial intake of 60 students. The UG program of the department of Electrical and Electronics Engineering imparts solid technical background and research capabilities among the students which help them to excel in their respective fields.

It has an array of courses for students to choose from and study such as Electrical and Electronics Engineering, Electronic devices, Power Systems, Electrical Machines, Control Systems Microcontroller, electrical circuit analysis, Power systems operations and controlling, Digital Electronics, Digital Signal Processing, Digital Control Systems, Electro Static Field, Utilization Of Electrical Energy.. and More.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as electronics, control system, networking, etc. that assures their placement in renowned multinational companies.

About the Program

This program is designed to provide you with a comprehensive understanding of fuel cell technology, its applications, challenges, and future trends. The program will be delivered over a period of two weeks and will cover a range of topics related to fuel cells.

Objectives of the Program:

- To train students to get awareness on fuel cells.
- To introduce the concept of fuel cells.
- To describe the functionalities of fuel cells.
- To learn about characterization of fuel cells.
- To distinguish among different types of fuel cells.
- To know about advantages and applications of fuel cells.

PROGRAM REPORT

Name of the Event: A Two Week Certificate Program on "FUEL CELL TECHNOLOGY"

Date: 25.06.2018 to 07.07.2018

Resource Person: Dr. G. Satyanarayana

Professor EEE Dept. GIET College of Engineering

Email.id: gsnarayana607@gmail.com

Contact number: 9666444974

Name of the Coordinator: Mr .G.Venkateswara Rao

Number of students attended: 25

Venue: S-16, Sir CV RAMAN Block, GIET Engineering college

Objectives of the Program:

1. To train students to get awareness on fuel cells.
2. To introduce the concept of fuel cells.
3. To describe the functionalities of fuel cells.
4. To learn about characterization of fuel cells.
5. To distinguish among different types of fuel cells.
6. To know about advantages and applications of fuel cells.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Topics to be covered:

1. Fuel cell definition and its historical developments and components of fuel cell.
2. Working of fuel cell and EMF of the cell and reactions of fuel cell.
3. Classifications of fuel cells.
4. Advantages, disadvantages and applications of Fuel cells..
5. Reaction kinetics of Fuel cells
6. Efficiency of Fuel cells and Tafel equation.

Outcomes of the Program:

At the end of this course, the student will be able to

1. Understand the recent trends in fuel cells.
2. Identify different types of fuel cells and its applications.
3. handling and safety issues to be considered for fuel cells.

The department of Electronics & Communication Engineering was established in the year 2005 with an initial intake of 60 students. The undergraduate program of the department of Electronics and Communication imparts solid technical background and research capabilities among the students which help them to excel in their respective fields.

It has an array of courses for students to choose from and study such as electronics, electronic hardware and software, communications, radio and television, solid state device, microelectronics, VLSI, and other circuits & systems used in varying applications ranging from simple circuits to sophisticated digital satellite systems, GSM & CDMA technology, speech processing & computer development.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as electronics, communication, control system, networking, etc. that assures their placement in renowned multinational companies.

About the Program

Semi Custom design is alternative to full-custom design where we use standard library components such as half adder to make full adder. Standard cell libraries are themselves designed using full-custom design techniques.

Semicustom A technique used for the design of integrated circuits that is based on the use of fully characterized libraries of circuit elements produced by the manufacturer of the device.

PROGRAM REPORT

Name of the Event: "A Two-Week Certificate Program on VLSI semi custom design "

Date: 25.06.2018 to 07.07.2018

Resource Person: Mr. T CHANDRA SEKHAR

Associate Professor ECE, GIET Engineering college

Email.id: tchandrasedkharece@giet.ac.in

Contact number: +91 9949806418

Name of the Coordinator: Mrs. M Kaivalya

Number of students attended: 54

Venue: Seminar Hall, CV Raman block, GIET Engineering college

Objectives of the Program:

- The objectives of this workshop is to connect together both industry and academic professionals in the field of VLSI Design.
- To impart the fundamentals of both analog and digital VLSI design.
- To introduce different tools for ASIC full-custom and semi-custom design.
- To discuss the recent trends in VLSI technology with an emphasis on current research activities.
- To provide an opportunity for participants to interact with experts from both academics and industry.
- To provide the participants a platform to learn with practical hands-on lab exercises to get familiar about recent research trends and applications, in the field of Microelectronics and VLSI technology.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Topics to be covered:

- The analog design flow in Cadence Analog Design Environment tool.
- Transistor level schematic design of single stage CMOS amplifiers. Learning, DC, AC and transient simulations of amplifiers. Creating symbol of basic amplifier circuits, and to use them hierarchically. Modelling of Two-stage operational trans-conductance amplifier (OTA) and circuit level design.
- Implementation of basic digital logic gates in Cadence. Implementation of different digital logic cells using Hardware Descriptive Language.
- To learn how to import the digital design on FPGA board.
- Introduction to Arduino Uno board for embedded system design for IOT applications.
- Introduction to system level applications of VLSI design.

Outcomes of the Program:

- Workshop participants will learn about the recent trends in digital and analog VLSI Design.
- They will also learn to apply the knowledge in practical circuits and systems and can enhance their fundamentals. Some hand-on session will give practical exposure to the application of VLSI system designs and digital design flow and to provide overview of related CMOS and other recent technologies.
- Design and modeling of basic analog modules, like Voltage Reference, Basic Amplifiers, OTA etc.,

GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The Department of Civil Engineering pulls out all stops to create outstanding engineers - with advanced teaching techniques and learning aids for undergraduate students. CIVIL ENGINEERING DEPARTMENT of the institute started functioning from the year 2008. Students are not only made experts in technical aspects but also in interpersonal skills, a vital ingredient to excel in the fast paced world..

To conduct Training camps and Seminars for the students to accustom them with the present modern technologies. To Create Research & Development wing to improve innovative skills of student community.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as modern technologies, Create Research & Development, etc. that assures their placement in renowned multinational companies.

About the Program

A program on soft skills and personality development is designed to help individuals improve their interpersonal skills and develop a well-rounded personality. Soft skills are personal attributes that enable people to interact effectively and harmoniously with others, and they are essential in both personal and professional settings.

Objectives of the Program:

- To learn about what is Personality
- To know about hard skills and soft skills
- To learn Key Soft Skills at Workplaces
- To learn the basic Etiquettes
- To learn CV/Resume Writing
- To know the Use of Phonemics /Kinesics

GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by HICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

Mechanical engineering is an evergreen discipline that involved in the application of basic science and mathematical principles to design, analyze, manufacture, and maintenance of mechanical systems. Mechanical engineers work across a huge variety of industries. Mechanical engineers are in the design, manufacture and maintenance of things ranging from a small safety pin to a giant ship. It is one of the oldest branches of engineering, it is also one that continues to change and grow with the advancements in technology making it a vibrant and exciting career path even to this day. The total number of engineers employed in the U.S. in 2015 was roughly 1.6 million. Of these 17.28% were mechanical engineers, the largest discipline by size.

The department is equipped with academically sound and experienced faculty specialized in various areas of mechanical engineering. The department is provided with state of are laboratories and software. In addition to the regular curriculum we conduct programs like add-on training programs on drafting, solid modelling, etc., Industrial visits, Seminars, Hands-on workshops on latest technologies to enhance the skills of the students to meet the demands of the industry.

About the Program

3D printing is sometimes referred to as Additive Manufacturing (AM). In 3D printing, one creates a design of an object using software, and the 3D printer creates the object by adding layer upon layer of material until the shape of the object is formed. The object can be made using a number of printing materials, including plastics, powders, filaments and paper.

There are a number of 3D printing technologies, and this article provides an overview of those technologies.

PROGRAM REPORT

Name of the Program : "A Two-Week Certificate Program on 3D Printing Technology"

Date/Duration : 02.07.2018 to 13.07.2018 (Two Week).

Resource Person : P.Vipin Raj,
Assistant professor
MECH, GIET ENGINEERING COLLEGE.
Rajahmundry, A.P

Phone:8885666088

Mail:vipinraj7777@gmail.com

Name of the Coordinator : Mr.S.Rajesh Kumar, Assistant Professor, MECH

No of the Participants : 56

Program Objective :

- .Flexible design-3D printing allows for the design and print complex designs
- Rapid prototyping
- Print on demand
- Strong and light weight parts

Topics Covered :The following topics are covered

- Introduction to 3D printing technology
- Principles,technologies and materials
- The printing journey
- Applications of 3D printing

Program Outcome :

Principal
Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,

Sub: A Two-Week Certificate Program on “Advanced Java Programming” – Reg.

All the CSE Students of IV B.Tech are here by informed that “ A Two Week Certificate program on Advanced Java Programming” will be conducted from 02.07.2018 to 14.07.2018. All the interested students can enroll their names with Ms. Satya Kumari, Dept. of CSE on or before 28.06.2018. The details of the topics and resource person are available in the brochure in the CSE department notice board.

Venue: WT LAB, CSE Department, GIET Engineering College.

**A Two Week Add on Program on
"Advanced Java Programming"
02.07.2018 to 14.07.2018**

**Organized
by
DEPARTMENT OF
COMPUTER SCIENCE AND ENGINEERING
GIET ENGINEERING COLLEGE**
(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

Department of COMPUTER SCIENCE AND ENGINEERING started in the year of 2005. It is offering graduate program B.Tech. Department has well qualified and dedicated faculty members.

Department has produced good number of graduates well settled in industry and some are also involved in research activities.

The Department provides state-of-the-art computing facilities to the students enabling them to stay a step ahead. The courses are designed to combine rigorous academic study and exhaustive practical exposure for students with in-depth lab-oriented courses, projects, and internships.

The Department hosts a number of workshops and student managed symposiums. The department also encourages innovative projects and Internships in various interrelated domains. The department has high-end computer labs as well as the CM Skill Excellence Centre. Because the current industry requires a student with exposure and skill set in Data Sciences, Machine Learning, Web Development, and so on, the department-driven programme is designed to prepare students for the workforce.

About the Program

Java is divided into two parts i.e., Core Java (J2SE) and Advanced Java (JEE). The core Java part covers the fundamentals of the Java programming language. It is used to develop general purpose applications. Whereas Advanced Java covers the standard concepts such as database connectivity, networking, Servlet, web-services, etc.

Most of the applications developed using advance Java uses tow-tier architecture i.e., Client and Server. All the applications that run on Server can be considered as advance Java applications.

Name of the Coordinator : Ms. Satya Kumari,
Assistant Professor, CSE.

No of the Participants : 55

Program Objective :

- Understand fundamentals of programming such as variables, conditional and iterative execution, methods, etc.
- Understand fundamentals of object-oriented programming in Java, including defining classes, invoking methods, using class libraries, etc.
- Be aware of the important topics and principles of software development.
- Have the ability to write a computer program to solve specified problems.
- Be able to use the Java SDK environment to create, debug and run simple Java programs.

Program Outcome : Following are the Program Outcomes

- Use an integrated development environment to write, compile, run and

RAJAHMUNDRY-533 296.

test simple object-oriented Java programs.

- Read and make elementary modifications to Java programs that solve real-world problems
- Validate input in Java program.
- Identify and fix defects and common security issues in code.
- Document a Java program using Javadoc.
- Use a version control system to track source code in a project.

DEPARTMENT OF
MANAGEMENT STUDIES

GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members, apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The primary objectives of the management department are to examine the data, refute the logic, challenge the conventional wisdom, and rethink business and management, which are prerequisites for business leaders and managers.

The department uses a variety of teaching methods including the case study approach, LPA (Learn, Practice, and Apply), activity-based learning (ABL), industrial visits, guest lectures, seminars, business fests, community activities, and more. There are scheduled interactive sessions with business professionals and entrepreneurs where insights on the theoretical underpinnings of modern entrepreneurship and innovation as well as honed business experience are shared.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for students, can help the aspirers to become a successful entrepreneur and corporate leaders of the business.

About the Program

Strategic business partners is who have the responsibility for leading, negotiating and building rapport with internal teams, managing change, managing an and implementing strategic objectives.

The main objective of the program is Know how needs develop in the mind of department heads and internal customers make the decision to "buy". At the end of the program students are familiar with developing solutions when the buyer has complex problems and you have intangible capabilities.

PROGRAM REPORT

Name of the Program : "A Certificate Program on Strategic Internal Business Partner"

Date/Duration : 05-11-2018 to 17-11-2018 (Two Week).

Resource Person : Mrs.Ch. Nageswari, Assistant Professor,
Department of Management Studies,
GIET (A)
Phone:7702060046
Mail:nageswarich.@gmail.com

Name of the Coordinator: Mr.R.Vijayababu, Assistant Professor, Dept. of MBA

No of the Participants : 25

Program Objectives

Participants on the Strategic Internal Business Partner training course will be able to:

- Know how needs develop in the mind of department heads
- Know how internal customers make the decision to "buy"
- Know how to strategically align yourself to the "buyer's" psychological buying phases
- Know how to handle risk objections
- Convince the internal customer that you understand their business
- Get the internal customer to admit and focus on problems you can address
- Diagnose business problems with a bias toward your capabilities
- How to gain access to and establish credibility with line executives

Topics Covered

- Identifying where internal customers are having problems
- Basic principles of being a consultant business partner
- Alignment of buying and consulting behaviour
- Strategic alignment
- Strategic alignment
- Competitive strategies
- Negotiation skills
- Course summary and review

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Program Outcomes

At the end of the day students able to

- Identifying where internal customers are having problems
- Work with sponsors and decision makers
- Addressing buyer objections by phase
- Anticipating the buyer's behaviour
- Developing solutions when the buyer has complex problems and you have intangible capabilities
- Prepare Vision creation and capability statement
- Gaining access to the real decision maker
- Build tactical competitive tools using the language of internal customer
- Understand How to work with third party consultants

It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The Department of Civil Engineering pulls out all stops to create outstanding engineers - with advanced teaching techniques and learning aids for undergraduate students. CIVIL ENGINEERING DEPARTMENT of the institute started functioning from the year 2008. Students are not only made experts in technical aspects but also in interpersonal skills, a vital ingredient to excel in the fast paced world..

To conduct Training camps and Seminars for the students to accustom them with the present modern technologies. To Create Research & Development wing to improve innovative skills of student community.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as modern technologies, Create Research & Development, etc. that assures their placement in renowned multinational companies.

About the Program

Java is a widely-used programming language known for its simplicity, reliability, and platform independence. It was first released in 1995 and has since become one of the most popular programming languages in the world. Java is an object-oriented language that makes use of objects to perform specific tasks.

Java has a rich standard library that simplifies common programming tasks such as input/output, networking, databases, and user interfaces. There are also many third-party libraries and frameworks available, such as Spring and Hibernate, which simplify web development and database integration.

This workshop enables the learners to identify various implications of JAVA programming w.r.t core as well as software field.

Date: 26.11.2018 to 08.12.2018

Resource Person: Mr.P.Sasi Kumar

Assistant Professor CSE Dept. GIET EngineeringCollege.

Email.id: psasikumar@gmail.com

Contact number:9951508555

Name of the Coordinator: Ms. K Raga Mounika

Number of students attended:41

Venue: Online Lab, Sir Arthur Cotton Block, GIET Engineering college.

Objectives of the Program:

1. To introduce the concept of Java.
2. To learn about objects and classes.
3. Toknow about OOPS in Java.
4. To learn about Threads in Java.
5. To learn about Generics and Java IO and Java collection Frame work.
6. To know about AWT and Applets and JDBC.

Topics to be covered:

1. Basics of Java.
2. Objects and Classes in Java .
- 3.OOPs in Java.
4. Threads and Multi Threads in Java.
5. Java generics, Java IO and Collection Framework in Java

Principal
GIET ENGINEERING COLLEGE
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

6.AWT applets and JDBC.

Outcomes of the Program:

At the end of this course, the student will be able to

1. Understand the overview of Java
2. Apply to write a Program in Java.
3. Understand the advantages and applications of Java.

Week/Day-wise Schedule

Name of the Program: "A Certificate Program On Lithium Ion Battery Technology"

S.No	Day	Date	Duration	Topics to be covered
1.	Monday	26.11.18	4hrs	Overview of battery fundamentals, components and
2.	Tuesday	27.11.18	4hrs	characteristics of battery ESS
3.	Wednesday	28.11.18	4hrs	Lithium based battery chemistry
4.	Thursday	29.11.18	4hrs	Lithium ion battery pack assembly
5.	Friday	30.11.18	4hrs	Battery for electric vehicles
6.	Saturday	01.12.18	4hrs	Battery management system
7.	Monday	03.12.18	4hrs	Lithium ion battery- manufacturing, supply chain and m players
8.	Tuesday	04.12.18	4hrs	Battery energy storage system and its applications
9.	Wednesday	05.12.18	4hrs	Battery safety aspects
10.	Thursday	06.12.18	4hrs	Role of li ion batteries in electric vehicles
11.	Friday	07.12.18	4hrs	Rechargeable li ion battery concepts
12.	Saturday	08.12.18	4hrs	Opportunities in energy storage sector

26.11.2018 to 08.12.2018

Organized
by

DEPARTMENT OF
ELECTRICAL AND ELECTRONICS ENGINEERING
GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The department of Electrical and Electronics Engineering was established in the year 2009 with an initial intake of 60 students. The UG program of the department of Electrical and Electronics Engineering imparts solid technical background and research capabilities among the students which help them to excel in their respective fields.

It has an array of courses for students to choose from and study such as Electrical and Electronics Engineering, Electronic devices, Power Systems, Electrical Machines, Control Systems Microcontroller, electrical circuit analysis, Power systems operations and controlling, Digital Electronics, Digital Signal Processing, Digital Control Systems, Electro Static Field, Utilization Of Electrical Energy.. and More.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as electronics, control system, networking, etc. that assures their placement in renowned multinational companies.

About the Program

This program is designed to provide you with a comprehensive understanding of lithium-ion batteries, their working principles, applications, and future trends. The program will be delivered over a period of two weeks and will cover a range of topics related to Li-ion batteries.

Objectives of the Program:

- To impart the basic knowledge of lithium ion battery technology
- To help students with the knowledge of battery management
- To impart the knowledge of energy storage and safety aspects
- To tell about the opportunities in energy sector

Date: 26.11.2018 to 08.12.2018

Resource Person: Dr. D.RAVI KISHORE

Professor ,EEE Dept. GIET AUTONOMOUS

Email.id:ravikishore@giet.ac.in

Contact number:9490711464

Name of the Coordinator: Ms. Ch. Anusha Chand

Number of students attended: 17

Venue: APSSDC Lab, GIET Engineering college

Objectives of the Program:

1. To impart the basic knowledge of lithium ion battery technology
2. To help students with the knowledge of battery management
3. To impart the knowledge of energy storage and safety aspects
4. To tell about the opportunities in energy sector

Topics To Be Covered:

- Overview of battery fundamentals, components and characteristics of battery ESS
- Lithium based battery chemistry
- Lithium ion battery pack assembly
- Battery for electric vehicles
- Battery management system

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

- Lithium ion battery- manufacturing, supply chain and market players
- Battery energy storage system and its applications
- Battery safety aspects
- Opportunities in energy storage sector

Outcomes Of The Program:

At The End Of This Course, The Student Will Be Able To

1. Differentiate Between Various Kinds Of Chemical Energies
2. Understand Lithium Ion Based Battery Assembly
3. Identify The Working Of Battery Based Electric Vehicles
4. Apply The Knowledge Earned In Energy Sector

by

DEPARTMENT OF
MECHANICAL ENGINEERING
GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

Mechanical engineering is an evergreen discipline that involved in the application of basic science and mathematical principles to design, analyze, manufacture, and maintenance of mechanical systems. Mechanical engineers work across a huge variety of industries. Mechanical engineers are in the design, manufacture and maintenance of things ranging from a small safety pin to a giant ship. It is one of the oldest branches of engineering, it is also one that continues to change and grow with the advancements in technology making it a vibrant and exciting career path even to this day. The total number of engineers employed in the U.S. in 2015 was roughly 1.6 million. Of these 17.28% were mechanical engineers, the largest discipline by size.

The department is equipped with academically sound and experienced faculty specialized in various areas of mechanical engineering. The department is provided with state of are laboratories and software. In addition to the regular curriculum we conduct programs like add-on training programs on drafting, solid modelling, etc., Industrial visits, Seminars, Hands-on workshops on latest technologies to enhance the skills of the students to meet the demands of the industry.

About the Program

CAD or computer-aided design and drafting (CADD), is technology for design and technical documentation, which replaces manual drafting with an automated process. If you are a designer, drafter, architect or engineer, you have probably used 2D or 3D CAD programs such as AutoCAD or AutoCAD LT software. These widely used software programs can help you draft construction documentation, explore design ideas, visualise concepts through photorealistic renderings and simulate how a design performs in the real world...

Name of the Program : “A Two-Week Certificate Program on
AUTO CAD”

Date/Duration : 26.11.2018 to 08.12.2018.

Resource Person : Mr.S.Rajesh Kumar

Assistnat Professor

MECH GIET ENGINEERING COLLEGE

Rajahmundry, A.P

Phone: 8333088644

Mail:srajeshkumar01@gmail.com

Name of the Coordinator : Mr.P.Vipin Raj Professor, MECH

No of the Participants : 62

Program Objective :

- .Use AUTOCAD for daily working process,using major navigating tools
- Understand the concept and techniques to draw
- Create multiple designs using several of tools

Topics Covered

:The following topics are covered

- Getting started and basic drawing skills
- Shaping curves
- Hatching and gradients
- Creating and editing text
- Printing and plotting

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

GIET ENGINEERING COLLEGE

APPROVED BY AICTE, AFFILIATED TO JNTUK : KAKINAD, ACCREDITED BY NAAC
NH-16, CHAITANYA KNOWLEDGE CITY, GIET CAMPUS, RAJAMAHENDRAVARAM, A.P., INDIA 533296
TEL: 91-883-6577446, 9133833322, <http://www.gietec.ac.in> Email: principal_t9@yahoo.co.in

Program Outcome :

- Get an understanding of the interface of design tools
- You can get knowledge and helps to design professionals in effectively
- Speeds up project implementation

Organized
by
DEPARTMENT OF
COMPUTER SCIENCE AND ENGINEERING
GIET ENGINEERING COLLEGE
(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

Department of COMPUTER SCIENCE AND ENGINEERING started in the year of 2005. It is offering graduate program B.Tech. Department has well qualified and dedicated faculty members.

Department has produced good number of graduates well settled in industry and some are also involved in research activities.

The Department provides state-of-the-art computing facilities to the students enabling them to stay a step ahead. The courses are designed to combine rigorous academic study and exhaustive practical exposure for students with in-depth lab-oriented courses, projects, and internships.

The Department hosts a number of workshops and student managed symposiums. The department also encourages innovative projects and Internships in various interrelated domains. The department has high-end computer labs as well as the CM Skill Excellence Centre. Because the current industry requires a student with exposure and skill set in Data Sciences, Machine Learning, Web Development, and so on, the department-driven programme is designed to prepare students for the workforce.

About the Program

Data Science is the area of study which involves extracting insights from vast amounts of data using various scientific methods, algorithms, and processes. It helps you to discover hidden patterns from the raw data. The term Data Science has emerged because of the evolution of mathematical statistics, data analysis, and big data.

Data Science is an interdisciplinary field that allows you to extract knowledge from structured or unstructured data. Data science enables you to translate a business problem into a research project and then translate it back into a practical solution.

GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The department of Electronics & Communication Engineering was established in the year 2005 with an initial intake of 60 students. The undergraduate program of the department of Electronics and Communication imparts solid technical background and research capabilities among the students which help them to excel in their respective fields.

It has an array of courses for students to choose from and study such as electronics, electronic hardware and software, communications, radio and television, solid state device, microelectronics, VLSI, and other circuits & systems used in varying applications ranging from simple circuits to sophisticated digital satellite systems, GSM & CDMA technology, speech processing & computer development.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as electronics, communication, control system, networking, etc. that assures their placement in renowned multinational companies.

About the Program

Robotics is a field of science working with machines that perform tasks based on predetermined and adaptive programs and algorithms in an automatic or semi-automatic way. These machines – commonly called robots – are either controlled by humans or work entirely under the supervision of a computer application and algorithms. Robotics is a comprehensive concept that includes the building, planning and programming of robots. These robots are in direct contact with the physical world – and they have often been used to perform monotonous and repetitive tasks instead of human beings.

Date: 19.12.2018

PROGRAM REPORT

Name of the Event: "A Two-Week Certificate Program on Introduction to Robotics "

Date: 03.12.2018 to 15.12.2018

Resource Person: Mr. P Darwin

Associate Professor ECE, GIET Engineering college

Email.id: darwin.ece.gec@giet.ac.in

Contact number: 9959695155

Name of the Coordinator: Mr. S Durga Prasad

Number of students attended: 73

Venue: Seminar Hall, CV Raman block, GIET Engineering college

Objectives of the Program:

- Introduction to Robotics, Introduction to Robotics, The Engineering Design Process, Best Practice in engineering design.
- Introduction to computer Programming, Fundamentals of computer languages and machine logic, loops, iterators, Variables, Arithmetic operations and logical operations.
- Introduction to computer circuits, Electricity, Voltage and current, Fundamentals of electrical circuits, Ideal source and Resistors, Ohm's law and Kirchhoff's law, Capacitors and RC circuits.
- Early Robotic topics, sensors, Actuators, Manipulators.
- Introduction to Robotic Mechanics, Power and Torque, Acceleration and velocity, Design models for ground mobile Robots, Design models for mechanic arm and lifting systems, Fundamentals of Kinematics.
- Advanced topic on Robotics, Sensing distance and Direction. Line following Algorithms. Feedback systems. Other topics on Advanced Robotics.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Topics to be covered:

- Introduction to Robotics, The Engineering Design Process, Best Practice in engineering design.
- Fundamentals of computer languages and machine logic
- Electricity, Voltage and current, Fundamentals of electrical circuits, Ideal source and Resistors, Ohm's law and Kirchhoff's law, Capacitors and RC circuits.
- Early Robotic topics, sensors, Actuators, Manipulators.
- Design models for mechanic arm and lifting systems, Fundamentals of Kinematics.
- Advanced Robotics

Outcomes of the Program:

- At the end of this course, the student will be able to
 1. Robotics Design Process
 2. Sensors, Actuators, Manipulators
 3. Understand and designed the Advanced Robotic Algorithms

A Two Week Add-on Program on
"HOME AUTOMATION"

03.12.2018 to 15.12.2018

Organized
by

DEPARTMENT OF
ELECTRICAL AND ELECTRONICS ENGINEERING
GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NEAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The department of Electrical and Electronics Engineering was established in the year 2009 with an initial intake of 60 students. The UG program of the department of Electrical and Electronic Engineering imparts solid technical background and research capabilities among the students which help them to excel in their respective fields.

It has an array of courses for students to choose from and study such as Electrical and Electronics Engineering, Electronic devices, Power Systems, Electrical Machines, Control Systems Microcontroller, electrical circuit analysis, Power systems operations and controlling, Digital Electronics, Digital Signal Processing, Digital Control Systems, Electro Static Field, Utilization Of Electrical Energy.. and More.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as electronics, control system, networking, etc. that assures their placement in renowned multinational companies.

About the Program

This program is designed to provide you with a comprehensive understanding of home automation systems, their components, technologies, and applications. The program will be delivered over a period of two weeks and will cover a range of topics related to home automation

Objectives of the Program:

- Learn The Basics Of Internet Of Things And Its Application
- Setup IoT Connectivity Using Esp8266 Wi-fi Module
- Learn The Concepts Of Automation
- Control Electrical Devices Remotely Using Home Automation Technology
- Develop And Test Your Own IoT Based Home Automation System

PROGRAM REPORT

Name of the Event: A Two Week Certificate Program on HOME AUTOMATION

Date: 03.12.2018 to 15.12.2018

Resource Person: Mr. Phani Kumar

Assistant Professor ,CSE Dept. GIET Engineering College

Email.id: phanikumar@giet.ac.in

Contact number: 8374455384

Name of the Coordinator: Mr.L.Yogi

Number of students attended: 47

Venue: APSSDC Lab, GIET Engineering college

Objectives of the Program:

1. Learn The Basics Of Internet Of Things And Its Applications
2. Setup Iot Connectivity Using Esp8266 Wifi Midule
3. Learn The Concepts Of Automation
4. Control Electrical Devices Remotely Using Home Automattion Technology
- 5: Develop And Test Your Own Iot Based Home Automation System

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Topics To Be Covered:

- Internet Of Things
- Automation- An Introduction
- Arduino Uno-Architecture ,Programming& Trouble Shooting
- Esp8266-Concepts Architecture And Applications
- Electrical Devices
- Iot Based Home Automation System- Design And Implementation
- Programming

Outcomes Of The Program:

At The End Of This Course, The Student Will Be Able To

1. Build Iot Hardware And Wire It To Control Existing Home Devices And Lightings
2. Completely Automate Your Home And Office With Smart Iot Devices
3. Control Home Appliances And Security From Anywhere In The World
4. Build Web Dashboard To Control And Monitor Home Appliances And Sensors.

DEPARTMENT OF
COMPUTER SCIENCE AND ENGINEERING
GIET ENGINEERING COLLEGE
(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

Department of COMPUTER SCIENCE AND ENGINEERING started in the year of 2005. It is offering graduate program B.Tech. Department has well qualified and dedicated faculty members.

Department has produced good number of graduates well settled in industry and some are also involved in research activities.

The Department provides state-of-the-art computing facilities to the students enabling them to stay a step ahead. The courses are designed to combine rigorous academic study and exhaustive practical exposure for students with in-depth lab-oriented courses, projects, and internships.

The Department hosts a number of workshops and student managed symposiums. The department also encourages innovative projects and Internships in various interrelated domains. The department has high-end computer labs as well as the CM Skill Excellence Centre. Because the current industry requires a student with exposure and skill set in Data Sciences, Machine Learning, Web Development, and so on, the department-driven programme is designed to prepare students for the workforce.

About the Program

The internet of things, or IOT, is a system of interrelated computing devices, mechanical and digital machines, objects, animals or people that are provided with unique identifiers and the ability to transfer data over a network without requiring human-to-human or human-to-computer interaction.

IoT devices share the sensor data they collect by connecting to an IoT gateway or other edge device where data is either sent to the cloud to be analysed or analysed locally.

PROGRAM REPORT

Name of the Program : " A Two-Week Certificate program on Internet Of Things"

Date/Duration : 18.12.2018 to 31.12.2018 (Two Week).

Resource Person : Dr.M. Ravi Shankar,
Professor, HOD, CSE.
Phone: 9705116008
Mail: ravishankar01@giet.ac.in

Name of the Coordinator : Mr. R. Lakshmi kumar,
Assistant Professor, CSE.

No of the Participants : 46

Program Objective :

- Explain the definition and usage of the term "Internet of Things" in different contexts
- Understand the key components that make up an IOT system
- Differentiate between the levels of IOT stack and be familiar with the key technologies and protocols.
- Apply the knowledge and skills acquired during the course to build and test a complete.
- Working IOT system involving prototyping, programming and data analysis

Program Outcome :

- Following are the Program Outcomes:
- Able to realize the revolution of Internet in Mobile Devices, Cloud & Sensor Networks
 - Able to understand building blocks of Internet of Things and characteristics
 - Able to understand the application areas of IOT

Sub: A Two Week Certificate Program on “Cyber Security Essentials” – Reg.

All the ECE Students are hereby informed that A Two-Week Certificate Program on Cyber Security Essentials will be conducted from 18.12.2018 to 31.12.2018. All the interested students can enroll their names with Mr. P Siva Krishna, Dept. of ECE on or before 12.12.2018. The details of the topics and resource person are available in the brochure in the ECE department notice board.

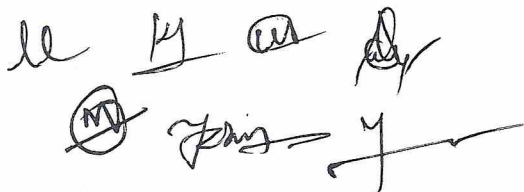

Venue: Seminar Hall, CV Raman block, GIET Engineering College

Week/Day-wise Schedule

Name of the Program: "A Two Week Certificate Program on Cyber Security Essentials"

S.No	Day	Date	Duration	Topics to be covered
1.	Tuesday	18.12.2018	4 hrs	Introduction to Cyber Security
2.	Wednesday	19.12.2018	3hrs	Hacker mindset , Attack life cycle.
3.	Thursday	20.12.2018	4hrs	Environment setup and troubleshooting.
4.	Friday	21.12.2018	3hrs	Setting up Kali Linux and vulnerable environments.
5.	Saturday	22.12.2018	4hrs	Introduction to Kali Linux and Metasploitable, vulnerabi Assessment
6.	Monday	24.12.2018	3hrs	Ransomware case study: Wannacry.
7.	Wednesday	26.12.2018	4hrs	Network enumeration and analysis
8.	Thursday	27.12.2018	3hrs	network commands, Exploiting Metasploitable
9.	Friday	28.12.2018	4hrs	Cyber Security laws, IOT Security
10.	Saturday	29.12.2018	3hrs	Data Backup and Log management.
11.	Monday	31.12.2018	4hrs	Security configure management and Security Hardening

GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The department of Electronics & Communication Engineering was established in the year 2005 with an initial intake of 60 students. The undergraduate program of the department of Electronics and Communication imparts solid technical background and research capabilities among the students which help them to excel in their respective fields.

It has an array of courses for students to choose from and study such as electronics, electronic hardware and software, communications, radio and television, solid state device, microelectronics, VLSI, and other circuits & systems used in varying applications ranging from simple circuits to sophisticated digital satellite systems, GSM & CDMA technology, speech processing & computer development.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as electronics, communication, control system, networking, etc. that assures their placement in renowned multinational companies.

About the Program

Cyber Essentials is an effective, Government backed scheme that will help you to protect your organisation, whatever its size, against a whole range of the most common cyber attacks. Cyber attacks come in many shapes and sizes, but the vast majority are very basic in nature, carried out by relatively unskilled individuals. They're the digital equivalent of a thief trying your front door to see if it's unlocked. Our advice is designed to prevent these attacks.

GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY - 533 296.

Date: 04.01.2019

PROGRAM REPORT

Name of the Event: "A Two-Week Certificate Program on Cyber Security Essentials "

Date: 18.12.2018 to 31.12.2018.

Resource Person: Dr. J N Swaminathan

Associate Professor ECE, GIET Engineering college

Email.id: swaminadanjn15@gmail.com

Contact number: +91 8946053266

Name of the Coordinator: Mr. P Siva Krishna

Number of students attended: 87

Venue: Seminar Hall, CV Raman block, GIET Engineering college

Objectives of the Program:

The main objectives are

- Environment setup and troubleshooting
- Kali Linux and Metasploitable , vulnerability
- Ransomware case study: Wannarcy
- Network enumeration and analysis, Network commands
- Cyber security laws.
- Secure configure management and security hardening

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

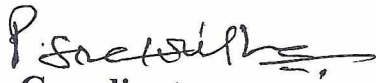

Topics to be covered:

- **Cyber Security** , Hacker mindset , Attack life cycle.
- **Practical:** Environment setup and troubleshooting. Setting up Kali Linux and vulnerable environments.

- **Theory:** Introduction to Kali Linux and Metasploitable, vulnerability. Assesment, Ransomware case study: Wannacry.
- **Practical:** Network enumeration and analysis, network commands, Exploiting Metasploitable.
- Cyber Security laws, IOT Security, Data Backup and Log management.
- Security configure management and Security Hardening.

Outcomes of the Program:

- At the end of this course, the student will be able to
 1. Environment setup and troubleshooting.
 2. Learned network commands
 3. Data Backup and Log management.
 4. Security Hardening

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

Mechanical engineering is an evergreen discipline that involved in the application of basic science and mathematical principles to design, analyze, manufacture, and maintenance of mechanical systems. Mechanical engineers work across a huge variety of industries. Mechanical engineers are in the design, manufacture and maintenance of things ranging from a small safety pin to a giant ship. It is one of the oldest branches of engineering, it is also one that continues to change and grow with the advancements in technology making it a vibrant and exciting career path even to this day. The total number of engineers employed in the U.S. in 2015 was roughly 1.6 million. Of these 17.28% were mechanical engineers, the largest discipline by size.

The department is equipped with academically sound and experienced faculty specialized in various areas of mechanical engineering. The department is provided with state of are laboratories and software. In addition to the regular curriculum we conduct programs like add-on training programs on drafting, solid modelling, etc., Industrial visits, Seminars, Hands-on workshops on latest technologies to enhance the skills of the students to meet the demands of the industry.

About the Program

This workshop based, practical oriented course, is designed to improve the participant's skills in following the procedures and safe practices required during overhauling. It allows him to gain confidence, estimate time and manpower requirements in the maintenance of equipment commonly placed under his care. It will make him understand the problem faced by crew members in certain equipments and tasks and be able to appreciate the need for co-ordinated teamwork.

Mail:vipinraj7777@gmail.com

Name of the Coordinator : Mr.S.Rajesh Kumar, Assistant Professor, MECH.

No of the Participants : 69

Program Objective :

- Comprehensively understanding the Diesel engines operation and principles
- Gaining expert level understanding of the engine maintenance system
- Acquiring knowledge of the system like a modern injection
- Comprehension of the diesel engines combustion process.

Topics Covered

:The following topics are covered

- Introductio to diesel engines
- Types of engines
- Operations of engines
- Maintenance of engines
- Preview and implementation

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The Department of Civil Engineering pulls out all stops to create outstanding engineers - with advanced teaching techniques and learning aids for undergraduate students. CIVIL ENGINEERING DEPARTMENT of the institute started functioning from the year 2008. Students are not only made experts in technical aspects but also in interpersonal skills, a vital ingredient to excel in the fast paced world..

To conduct Training camps and Seminars for the students to accustom them with the present modern technologies. To Create Research & Development wing to improve innovative skills of student community.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as modern technologies, Create Research & Development, etc. that assures their placement in renowned multinational companies.

About the Program

Revit is a commercial building information modeling (BIM) software by the company Autodesk. It's generally used by architects, structural engineers, mechanical, electrical, and plumbing (MEP) engineers, designers, and contractors. Autodesk Revit allows users to create, edit, and review 3D models in exceptional detail

No of the Participants : 29

Program Objective :

- Learn basic to advanced REVIT
- The best courses for building a great profiles for higher study and jobs
- Participants can apply for LOR after the program
- Allows to draw and edit 2D and 3D designs
- Minimize human errors and helps the users to bring imagination to animation.

Topics Covered

- :The following topics are covered
- Introduction to REVIT
 - Introduction to 3D and 3D solids
 - Extrude, loft, press
 - Dynamic UCS,selection plane

The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The primary objectives of the management department are to examine the data, refute the logic, challenge the conventional wisdom, and rethink business and management, which are prerequisites for business leaders and managers.

The department uses a variety of teaching methods including the case study approach, LPA (Learn, Practice, and Apply), activity-based learning (ABL), industrial visits, guest lectures, seminars, business fests, community activities, and more. There are scheduled interactive sessions with business professionals and entrepreneurs where insights on the theoretical underpinnings of modern entrepreneurship and innovation as well as honed business experience are shared.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for students, can help the aspirers to become a successful entrepreneur and corporate leaders of the business.

About the Program

Customer excellence, sometimes known as customer success, is about making sure your customers' desired outcomes are successfully achieved. It's about always doing your utmost for customers, making sure they get value from your products and services, and essentially being seen as excellent in their eyes.

The main objective of the program is Understand what their customers really need from them and deliver Superior Customer Service to Internal and External Customers. At the end of the program students are familiar with identify customer expectations.
