## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members, apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

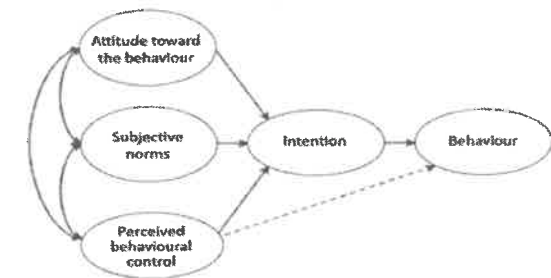

The Department of MBA Engineering was started in the year 2009. It is offering undergraduate graduate program in B.Tech. in Electronics and Communications Engineering. It has well qualified, experienced, and dedicated faculty and committed supporting staff.

The Department provides all resources like laboratories, library, and classrooms to students for improving their knowledge and skills. The laboratories of the department are well equipped with sophisticated equipment and instruments to fully satisfy the training needs of the students as well as the research and consultancy needs of the department.

The Department provides complete support to the overall development of the students for challenging career ahead. The department offers seminars, workshops, conferences and expert lectures on the recent advances and educational technologies related to departmental practices on a regular basis.

The Department has produced a good number of graduates well settled in various types of industries and research organizations. The department is also receiving very good support from its alumni in all aspects.

## About the Program

The aim is to ascertain whether university students have genuine intentions to start a business and see themselves as capable of doing so. This study draws upon Ajzen's theory of planned behaviour to examine the role of students' and/or prospective entrepreneurs' skills and capabilities. Structural equation modelling is used to empirically test the hypotheses. This study makes a unique contribution, extending the model described by the theory of planned behaviour by adding entrepreneurial skills and addressing a gap on the link between entrepreneurial intentions and entrepreneurial behaviour.

## PROGRAM REPORT

Program Name : The entrepreneurial process: The link between Intentions and Behaviour.  
Date of activity : 02.03.2020  
Venue : Class Room  
Organized by : Dept of MBA  
Resource Person : P.CHANDHRA SHEKAR, Assistant Professor  
RRS College Of Engineering And Technology  
Number of Participants 50

### **Description About Program**

This seminar is useful for B.Tech & MBA students. The resource person: Mr.P.CHANDHRA SHEKAR, Assistant Professor, RRS College of Engineering and Technology. He is good at motivating the students regarding entrepreneur development and giving a brief insight. He has delivered in a very enthusiastic way. This is a very excellent topic and all the participants had given good feedback.

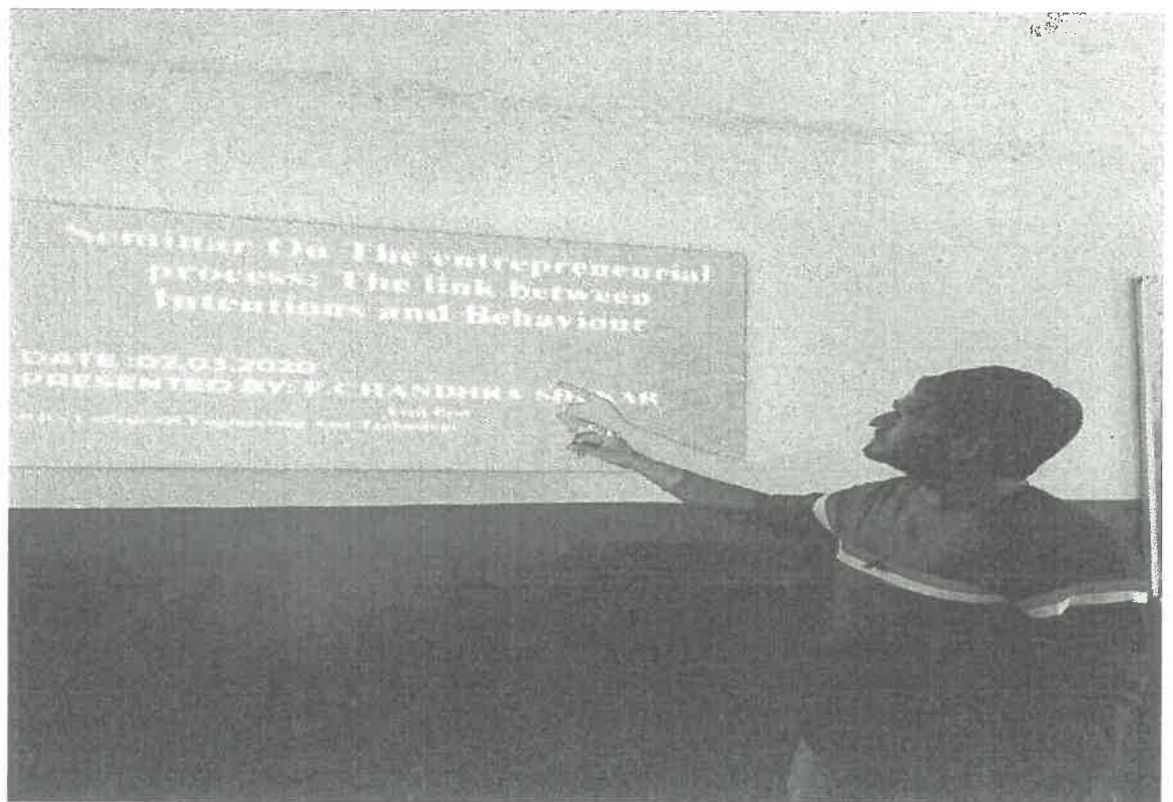

The program "The Entrepreneurial Process: The Link Between Intentions and Behaviour" is a training program or course that focuses on the process of entrepreneurship and the link between entrepreneurial intentions and behaviors. This program aims to provide participants with an understanding of the different stages of entrepreneurship and how individual intentions influence their actions and behaviors.

The program covers a range of topics, including:

Principal  
GIET ENGINEERING COLLEGE  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

1. The different stages of entrepreneurship, including idea generation, opportunity recognition, and business planning.
2. Understanding the role of individual intentions in shaping entrepreneurial behavior and actions.
3. Developing strategies for overcoming barriers and challenges to entrepreneurship.
4. Understanding the importance of networking and relationships in entrepreneurship.
5. Developing effective communication and marketing strategies for new ventures.
6. Financial management for new ventures, including budgeting, accounting, and financing options.
7. Leadership and management skills for entrepreneurs.

  
Principal  
GIET ENGINEERING COLLEGE  
Nr-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

### **Outcomes of the Event:**

1. Enhanced understanding of the different stages of entrepreneurship and the entrepreneurial process.
2. Improved ability to recognize and evaluate entrepreneurial opportunities.
3. Enhanced ability to develop effective business plans and strategies.
4. Improved understanding of the role of individual intentions in shaping entrepreneurial behavior and actions.
5. Enhanced networking and relationship-building skills.
6. Improved financial management skills, including budgeting, accounting, and financing options.
7. Enhanced leadership and management skills for entrepreneurs.

Overall, the Entrepreneurial Process: The Link Between Intentions and Behavior program provides participants with a comprehensive understanding of the entrepreneurial process and the role of intentions in shaping entrepreneurial behavior and actions. By providing participants with the skills and knowledge needed to successfully navigate the entrepreneurial process, this program can help individuals to start and grow successful businesses, create jobs, and stimulate economic growth.

### About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members. apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

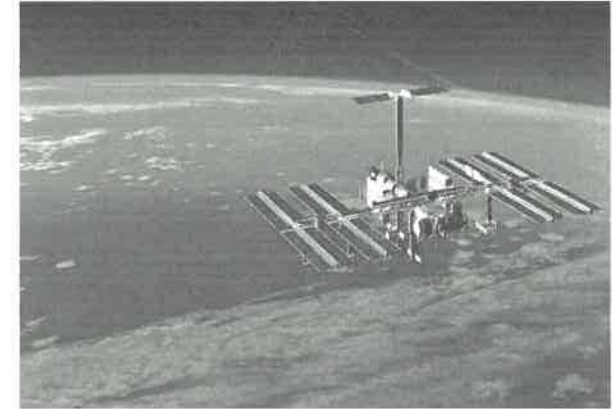

### About the Department

Mechanical engineering is an evergreen discipline that involved in the application of basic science and mathematical principles to design, analyze, manufacture, and maintenance of mechanical systems. Mechanical engineers work across a huge variety of industries. Mechanical engineers are in the design, manufacture and maintenance of things ranging from a small safety pin to a giant ship.

It is one of the oldest branches of engineering, it is also one that continues to change and grow with the advancements in technology making it a vibrant and exciting career path even to this day. The total number of engineers employed in the U.S. in 2015 was roughly 1.6 million. Of these 17.28% were mechanical engineers, the largest discipline by size.

The department is equipped with academically sound and experienced faculty specialized in various areas of mechanical engineering. The department is provided with state of are laboratories and software. In addition to the regular curriculum we conduct programs like add-on training programs on drafting, solid modelling, etc., Industrial visits, Seminars, Hands-on workshops on latest technologies to enhance the skills of the students to meet the demands of the industry. We also train the students from the campus placements perspective, which brings out their best and enrich them

### About the Program

Space research is scientific study carried out in outer space, and by studying outer space. From the use of space technology to the observable universe, space research is a wide research field. Earth science, materials science, biology, medicine, and physics all apply to the space research environment. The term includes scientific payloads at any altitude from deep space to low Earth orbit, extended to include sounding rocket research in the upper atmosphere, and high-altitude balloons. Space exploration is also a form of space research.

## PROGRAM REPORT

Program Name : "Space Research and Rocket Science"  
Date of activity : 02.03.2020  
Venue : T-04, C.V .Raman Block  
Organized by : Department of Mechanical Engineering  
Resource Person : Mrs. ARUNA KUNDA  
Associate Professor,  
Ideal Institute of Technology, Kakinada.  
9949305868  
[Arunas.kunda@gmail.com](mailto:Arunas.kunda@gmail.com)  
Number of Participants : 57

### Description:

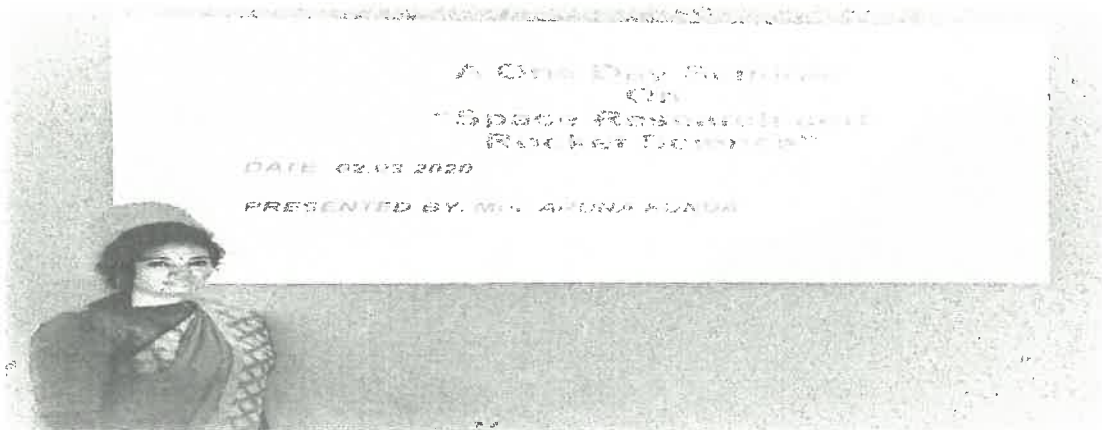

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled "Space Research and Rocket Science", Mrs. ARUNA KUNDA, Associate Professor, Ideal Institute of Technology, acted as a resource person for this Workshop. Faculty and students have learnt in detail about future needs in different research areas and required parameters to consider while publishing papers in reputed journals and also different innovative teaching methods.

Space research and rocket science refer to the study and exploration of space through the use of technology, including rockets, spacecraft, and satellites. This field encompasses a wide range of scientific disciplines, including physics, engineering, and astronomy. Here are some descriptions and outcomes of the topic Space Research and Rocket Science:

Principal

GIET ENGINEERING COLLEGE  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

**Description:** Space research and rocket science involve the design, development, and operation of spacecraft, rockets, and other space-related technologies. These technologies are used to study and explore space, including planets, moons, asteroids, comets, and other celestial bodies. Space research also involves the study of the effects of space on living organisms, including humans.

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

## OUTCOMES

- 1. Scientific Discoveries:** Space research has led to numerous scientific discoveries, including new insights into the structure and formation of the universe, the nature of planets and moons, and the potential for life beyond Earth.
- 2. Technological Advancements:** Rocket science has led to numerous technological advancements, including the development of new propulsion systems, materials, and instruments that have practical applications in various industries, including transportation, energy, and communications.
- 3. International Cooperation:** Space research and rocket science have fostered international cooperation and collaboration, as countries work together to explore space and share knowledge and resources.
- 4. Environmental Monitoring:** Satellites and other space-based technologies are used to monitor and understand the Earth's environment, including weather patterns, climate change, and natural disasters.
- 5. Economic Benefits:** Space research and rocket science have led to economic benefits, including the creation of new industries and jobs, the development of new technologies and products, and the advancement of scientific knowledge that can be applied to various fields.

Overall, space research and rocket science have led to numerous scientific, technological, and economic benefits. Through ongoing research and exploration, these fields will continue to provide new insights into the universe and contribute to the advancement of human knowledge and understanding.

## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

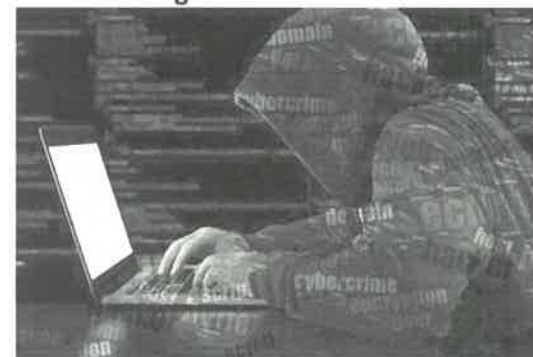

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

Mechanical engineering is an evergreen discipline that involved in the application of basic science and mathematical principles to design, analyze, manufacture, and maintenance of mechanical systems. Mechanical engineers work across a huge variety of industries. Mechanical engineers are in the design, manufacture and maintenance of things ranging from a small safety pin to a giant ship. It is one of the oldest branches of engineering, it is also one that continues to change and grow with the advancements in technology making it a vibrant and exciting career path even to this day. The department is equipped with academically sound and experienced faculty specialized in various areas of mechanical engineering. The department is provided with state of the art laboratories and software. In addition to the regular curriculum we conduct programs like add-on training programs on drafting, solid modelling, etc., Industrial visits, Seminars, Hands-on workshops on latest

## About the Program

Cybercrime is criminal activity that either targets or uses a computer, a computer network or a networked device. Most cybercrime is committed by cybercriminals or hackers who want to make money. However, occasionally cybercrime aims to damage computers or networks for reasons other than profit. These could be political or personal. Cybercrime can be carried out by individuals or organizations. Some cybercriminals are organized, use advanced techniques and are highly technically skilled. Others are novice hackers. Personal data is protected under the right to privacy in international human rights instruments

## PROGRAM REPORT

Program Name : **Cyber Crime and Data Security**  
Date of activity : 10.02.2020  
Venue : S-02, C.V .Raman Block  
Organized by : Department of Mechanical Engineering  
Resource Person : Mr.K.V.V. VENAKATARAMANA, Asst.Prof,  
ISTS COLLEGE FOR WOMEN, Rajahmundry.  
9010817447, k.v.venkat986@gmail.com

Number of Participants: 51

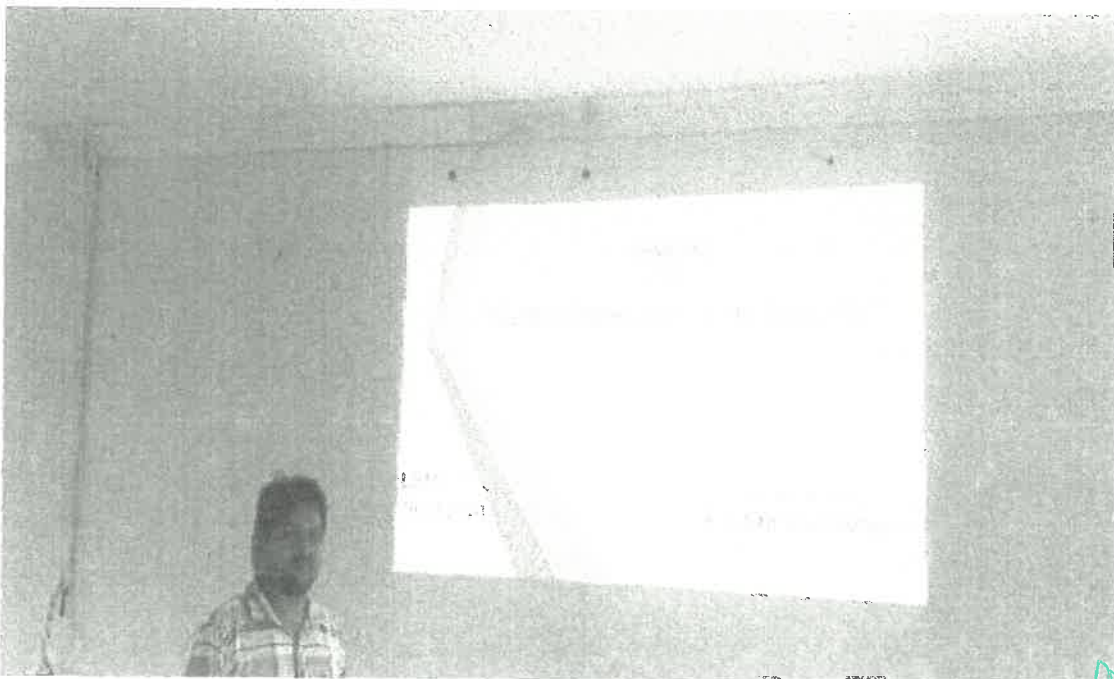

### Description:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled a Seminar on "**Cyber Crime and – Data Security**" on 10.02.2020, Mr. K.V.V. VENAKATARAMANA, Asst.Prof, ISTS COLLEGE FOR WOMEN, Rajahmundry, acted as a resource person for this Workshop. Students have learnt in detail "**Cyber Crime and – Data Security**" areas and required parameters to consider while publishing papers in different innovative teaching methods.

Cybercrime refers to criminal activities that are carried out through the internet or other digital communication networks. These crimes can include identity theft, hacking, phishing scams, online harassment, cyber stalking, and cyber bullying. Cybercrime can result in significant financial losses for individuals and businesses, as well as damage to reputations and emotional distress.

Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

Data security, on the other hand, refers to the protection of data from unauthorized access, theft, or damage. With the increasing amount of personal and sensitive information being shared and stored online, data security has become an essential concern for individuals, businesses, and governments alike.

## OUTCOMES

1. The outcomes of cybercrime and data security breaches can be severe. They can include financial losses, identity theft, reputational damage, loss of intellectual property, and even physical harm. Cybersecurity threats can also disrupt critical infrastructure, such as power grids, transportation systems, and healthcare systems, with potentially devastating consequences.
2. As a result, it is crucial to prioritize cybersecurity and data security measures to prevent and respond to cyber threats. This includes implementing strong passwords, using two-factor authentication, regularly updating software and systems, encrypting sensitive data, and educating users on safe online practices. In addition, businesses and organizations should have incident response plans in place to minimize the impact of cyber attacks and data breaches if they do occur.

### About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features stateoftheart facilities and highly qualified and knowledgeable pool of staff members.apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

### About the Department

Department of COMPUTER SCIENCE AND ENGINEERING started in the year of 2005. It is offering graduate program B.Tech. Department has well qualified and dedicated faculty members. Department has produced good number of graduates well settled in industry and some are also involved in research activities.The Department with its group of employees has coordinated numerous effective events on the campus. We give additional inputs to the students to meet the corporate requirements and assumptions. The preparation that we give and the schedule we have intended for preparing separated from college educational plan fills the hole between the University and the Industry. It is refreshed consistently to stay aware of the developing growing demands and the changing trends of the software industry and research centers. It assists students with improving their abilities and leave the campus with a feeling of complete satisfaction.

### About the Program

Cyber Law also called IT Law is the law regarding Information-technology including computers and the internet. It is related to legal informatics and supervises the digital circulation of information, software, information security, and e-commerce. IT law does not consist of a separate area of law rather it encloses aspects of contract, intellectual property, privacy, and data protection laws. Intellectual property is a key element of IT law. Cyber Laws yields legal recognition to electronic documents and a structure to support e-filing and e-commerce transactions and also provides a legal structure to reduce, check cyber-crimes.

### Description:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled "Introduction to Cyber Law "on 28.01.2020. Mr.J.Bala Ambedkar, Asst.Prof, Kakinada Institute of Engg & Technology, Kakinada, acted as a resource person for this Workshop. Students have learnt in detail about "Introduction to Cyber Law" areas and required parameters to consider while publishing papers in different innovative teaching methods.

Cyber Law, also known as Internet Law or Digital Law, refers to the legal framework that governs internet use and digital transactions. It encompasses a wide range of legal issues, including online privacy, cybercrime, data protection, and intellectual property rights in the digital space.

The primary goal of Cyber Law is to regulate and protect the use of the internet and digital technologies, ensuring that individuals and organizations can conduct online activities safely and legally. It also seeks to establish legal boundaries that govern online behavior and prevent harmful activities, such as cyberbullying, harassment, and cyberstalking.

Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-5

## Outcomes

One of the main outcomes of Cyber Law is to establish accountability for illegal activities committed online. Cyber Law provides a legal framework for investigating and prosecuting cybercriminals, including hackers, identity thieves, and other malicious actors. It also provides remedies for victims of cybercrime, such as financial compensation and legal injunctions.

Another outcome of Cyber Law is to protect the privacy of individuals and their personal information. Cyber Law establishes rules for the collection, use, and storage of personal data, as well as requirements for notifying individuals in the event of a data breach.

In addition, Cyber Law helps to protect intellectual property rights in the digital space. This includes copyright, trademark, and patent protection, as well as rules for the use of open-source software and other digital resources.

Overall, Cyber Law plays a critical role in establishing a legal framework for the safe and responsible use of the internet and digital technologies. It helps to promote trust and confidence in online activities, while also providing legal recourse for victims of cybercrime and other harmful activities.

The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

The Civil Engineering department at GIET Engineering College is committed to providing a high-quality education that prepares students for successful careers in the civil engineering field. The department has a team of experienced and dedicated faculty members who use innovative teaching methods to help students gain a thorough understanding of the subject matter. The department has state-of-the-art facilities, including well-equipped labs and a modern computer center that provides students with hands-on experience using the latest software tools. The curriculum covers a wide range of topics, including structural analysis and design, construction materials and technology, transportation engineering, environmental engineering, and geotechnical engineering. Students are encouraged to participate in research projects and industry internships to gain practical experience and develop their skills. The department also organizes seminars, workshops, and guest lectures to keep students up-to-date with the latest developments in the field.

Graduates from the Civil Engineering department at GIET Engineering College have a wide range of career opportunities, including working in the construction industry, government agencies, consulting firms, and research organizations.

## About the Program

Research Methodology and Proposal Writing is a program designed to teach students and researchers the fundamental principles of conducting research and writing research proposals. The program typically covers topics such as the nature of research, the research process, research design, data collection and analysis, and report writing.

The program aims to equip students and researchers with the necessary skills to plan and carry out research projects effectively. Students will learn how to develop research questions, formulate hypotheses, select appropriate research methods, collect and analyze data, and write research proposals that are clear, concise, and persuasive.

The program also emphasizes the importance of ethical considerations in research, including the protection of human subjects and the responsible conduct of research. Students will learn how to identify potential ethical issues in research and develop strategies to address them.

## PROGRAM REPORT

Program Name : “Research Methodology and Proposal Writing”  
Date of activity : 27.01.2020  
Venue : Seminar Hall, C.V .Raman Block  
Organized by : Department of Civil Engineering  
Resource Person : Dr Venkata Ramana Avula  
Assistant Professor,  
Konearu Lakshmaiah Education Foundation  
7675095380  
Avula43@gmail.com  
Number of Participants : 102

### Description:

The Program designed for staff and students of various colleges including GIET ENGINEERING COLLEGE in the part of academics titled “Research Methodology and Proposal Writing”, Dr. Venkata Ramana Avula, Assistant Professor, Konearu Lakshmaiah Education Foundation acted as a resource person for this Workshop. Faculty and students have learnt in detail about future needs in different Research Methodology and Proposal Writing and also innovative teaching methods.

Research Methodology: Research methodology refers to the systematic process of collecting and analyzing data to answer research questions or test hypotheses. It includes the selection of appropriate research design, sampling methods, data collection techniques, and statistical analysis methods. The aim of research methodology is to ensure that the research is valid, reliable, and generalizable.

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

**Proposal Writing:** Proposal writing is the process of creating a document that outlines the research project, including the research question, methodology, objectives, expected outcomes, and budget. Proposal writing is essential for securing funding, gaining approval for research projects, and communicating the research project to stakeholders.

  
Principal  
GIET ENGINEERING COLLEGE.  
NH-16, Chattanya Knowledge City,  
RAJAHMUNDRY-533 296.

## OUTCOMES

1. Enhances the accuracy and validity of research findings.
2. Ensures the research is conducted ethically and adheres to established research protocols.
3. Provides a systematic framework for organizing research data.
4. Enables replication of research studies for verification of results.
5. Facilitates the identification of research gaps and the development of research questions.
6. Provides a clear and concise outline of the research project.
7. Helps to identify and address potential challenges in the research process.
8. Facilitates the allocation of resources and funding for the research project.
9. Demonstrates the feasibility and potential impact of the research project.
10. Helps to gain approval from stakeholders and ethics committees.

Overall, research methodology and proposal writing are essential components of the research process. By understanding and implementing effective research methodology and proposal writing, researchers can enhance the accuracy and validity of their research findings and effectively communicate the importance and potential impact of their research projects.

### About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members. apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

### About the Department

Mechanical engineering is an evergreen discipline that involved in the application of basic science and mathematical principles to design, analyze, manufacture, and maintenance of mechanical systems. Mechanical engineers work across a huge variety of industries. Mechanical engineers are in the design, manufacture and maintenance of things ranging from a small safety pin to a giant ship.

It is one of the oldest branches of engineering, it is also one that continues to change and grow with the advancements in technology making it a vibrant and exciting career path even to this day. The total number of engineers employed in the U.S. in 2015 was roughly 1.6 million. Of these 17.28% were mechanical engineers, the largest discipline by size.

The department is equipped with academically sound and experienced faculty specialized in various areas of mechanical engineering. The department is provided with state of are laboratories and software. In addition to the regular curriculum we conduct programs like add-on training programs on drafting, solid modelling, etc., Industrial visits, Seminars, Hands-on workshops on latest technologies to enhance the skills of the students to meet the demands of the industry. We also train the students from the campus placements perspective, which brings out their best and enrich them

### About the Program

Entrepreneurship within urban and rural areas: creative people and social networks, Regional Studies. This research puts forth hypotheses regarding the role of individual creativity and social networks in becoming an entrepreneur and surviving the critical first years in both urban and rural areas. Creativity is found to lead to start-ups in urban areas, where the environment is not only more supportive but also more competitive, but not in rural areas. However, creativity does not increase the chance of success. The particular importance of social networks in rural areas is likely due to stronger ties and fewer supporting institutions.

## PROGRAM REPORT

Program Name : Entrepreneurship with in Urban and Rural Areas:  
Creative People and Social Networks  
Date of activity : 06.01.2020  
Venue : Class Room-T02  
Organized by : Dept of MECH  
Resource Person : Mr.K. V. VENKATA RAMANA, Assistant  
Professor  
International School of Technology and Sciences  
Number of Participants 55

### **Description about Program**

This seminar is useful for B.Tech & MBA students. The resource person Mr. K .V. VENKATA RAMANA, Assistant Professor, International School of Technology and Sciences. He is good at motivating the students regarding entrepreneur development and giving a brief insight. He has delivered in a very enthusiastic way. This is a very excellent topic and all the participants had given good feedback.

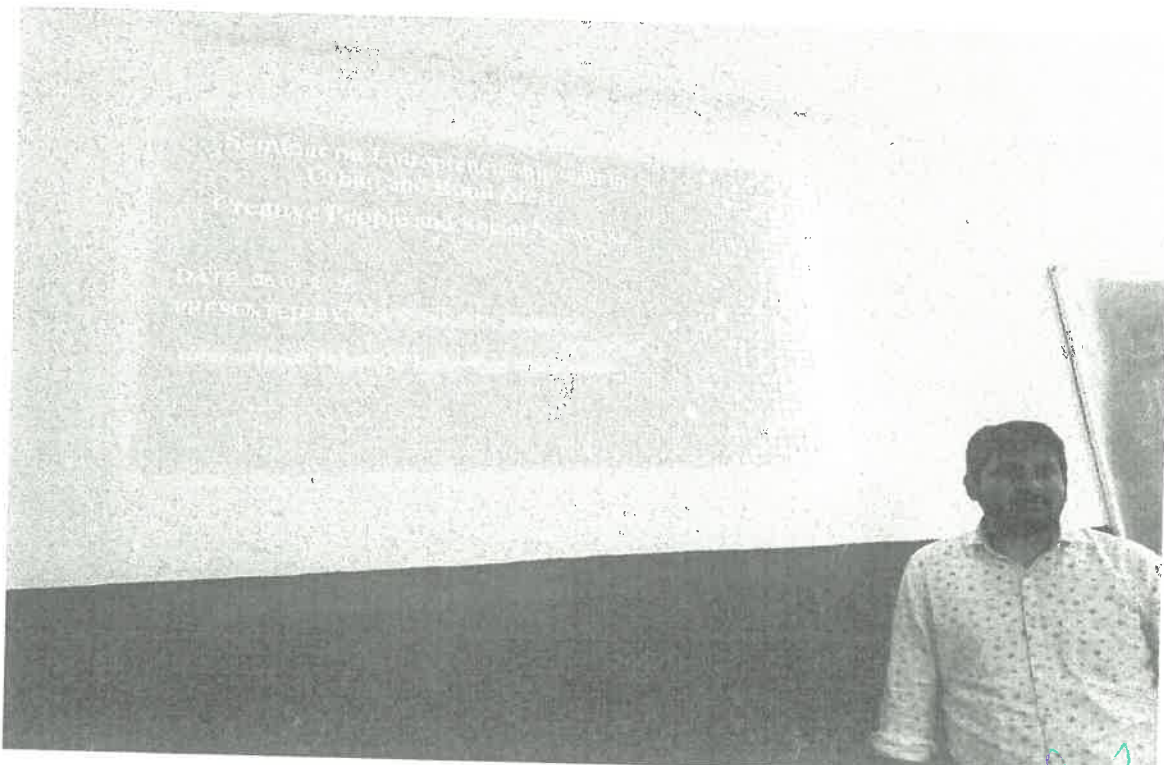

The program "Entrepreneurship within Urban and Rural Areas: Creative People and Social Networks" is a training program or course that focuses on the role of creativity and social networks in entrepreneurship within both urban and rural areas. This program aims to provide participants with an understanding of how creativity and social networks can be

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

leveraged to start and grow successful businesses in both urban and rural areas.

The program covers a range of topics, including:

1. Understanding the importance of creativity in entrepreneurship and how it can be fostered in both urban and rural areas.
2. Developing strategies for leveraging social networks to support entrepreneurship, including building partnerships and collaborations with other entrepreneurs and organizations.
3. Identifying and evaluating business opportunities within both urban and rural areas.
4. Developing effective business plans and strategies for urban and rural businesses.
5. Financial management for urban and rural businesses, including budgeting, accounting, and financing options.
6. Marketing and sales strategies for urban and rural businesses.
7. Leadership and management skills for urban and rural entrepreneurs.

RAJAHMUNDRY-533 296.

### **Outcomes of the Event:**

1. Enhanced understanding of the importance of creativity and social networks in entrepreneurship within both urban and rural areas.
2. Improved ability to identify and evaluate business opportunities within urban and rural areas.
3. Enhanced ability to develop effective business plans and strategies for both urban and rural businesses.
4. Improved financial management skills, including budgeting, accounting, and financing options.
5. Enhanced marketing and sales strategies for urban and rural businesses.
6. Enhanced leadership and management skills for urban and rural entrepreneurs.

Overall, the Entrepreneurship within Urban and Rural Areas: Creative People and Social Networks program provides participants with a comprehensive understanding of the role of creativity and social networks in entrepreneurship within both urban and rural areas, as well as the strategies and resources needed to start and grow successful businesses in these areas. By empowering individuals and communities with the tools and knowledge needed to become successful entrepreneurs, this program can help to create jobs, stimulate economic growth, and improve the quality of life within urban and rural areas alike.

Rajamahendravaram, AP.

## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

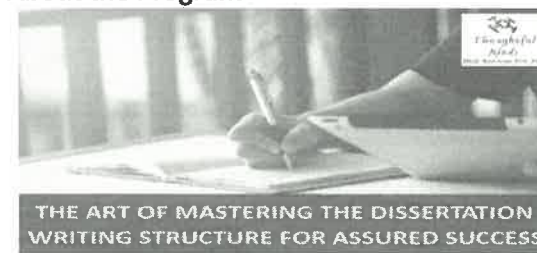

The Department of Electrical and Electronics Engineering was started in the year 2009. It is offering undergraduate graduate program in B.Tech. in Electronics and Communications Engineering. It has well qualified, experienced, and dedicated faculty and committed supporting staff.

The Department provides all resources like laboratories, library, and classrooms to students for improving their knowledge and skills. The laboratories of the department are well equipped with sophisticated equipment and instruments to fully satisfy the training needs of the students as well as the research and consultancy needs of the department.

The Department provides complete support to the overall development of the students for challenging career ahead. The department offers seminars, workshops, conferences and expert lectures on the recent advances and educational technologies related to departmental practices on a regular basis.

The Department has produced a good number of graduates well settled in various types of industries and research organizations. The department is also receiving very good support from its alumni in all aspects.

## About the Program

Writing a thesis can be difficult. No one knows your research better than you do, which is why it can be tricky to explain your findings in a way that everyone can understand. Many questions may arise in your head, including 'Where do I start?' or 'How do I link these chapters together?' successfully complete and submit their theses, Rehoboth Academic Services is now happy to announce a wonderful opportunity for any researcher or student struggling to complete the written part of their research. Our Thesis Writing Workshop is targeted at individuals who are writing or planning to write their research for submission. We offer a short, intensive course to help students from any educational background to write their thesis.

## PROGRAM REPORT

Program Name : "Art of Writing Thesis"  
Date of activity : 16.12.2019  
Venue : Seminar Hall, C.V .Raman Block  
Organized by : Department of Electrical & Electronics Engineering  
Resource Person : Nagur Vali Shaik  
Assistant Professor.  
Sasi Institute of Engineering and Technology.  
7986582789, Valipetro810@gmail.com

Number of Participants : 121

### Description:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled "Art of Writing Thesis", Nagur Vali Shaik, Assistant Professor, Sasi Institute of Engineering and Technology, acted as a resource person for this Workshop. Students have learnt in detail about future needs in writing thesis and required parameters to consider while publishing papers in reputed journals and also different innovative learning methods in writing.

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAMUNDY-533 296.

The Art of Writing a Thesis refers to the process of researching, planning, and writing a thesis or dissertation. A thesis is a formal research paper that presents the author's findings and conclusions on a particular topic. Writing a thesis can be a daunting task, but it is also a valuable opportunity to contribute to academic knowledge and demonstrate one's research and writing skills.

## OUTCOMES

- 1. Improved Research Skills:** Writing a thesis involves extensive research on a particular topic. This process helps to develop strong research skills, including the ability to find and evaluate relevant sources, analyze data, and draw conclusions.
- 2. Enhanced Writing Skills:** The thesis-writing process requires clear and effective writing, which can help to improve one's writing skills. By drafting, revising, and editing a thesis, the writer can develop the ability to communicate complex ideas in a clear and concise manner.

  
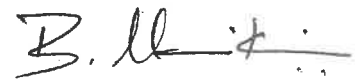

Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaltanya Knowledge City,  
RAJAHMUNDRY-533 296.

3. **Development of Critical Thinking Skills:** Writing a thesis requires critical thinking skills to analyze and synthesize research findings and draw conclusions. The process can help to develop a deeper understanding of the topic and hone critical thinking skills.
4. **Contribution to Academic Knowledge:** A well-written thesis can contribute to academic knowledge by presenting original research and new insights on a particular topic. The research findings can help to advance the field and inform future research.
5. **Career Advancement:** Completing a thesis can provide a competitive advantage in the job market, particularly in fields that require research and writing skills. It can also be a requirement for certain academic or professional positions.

Overall, the Art of Writing a Thesis can be a challenging but rewarding process that offers opportunities for personal and academic growth. Through research, writing, and critical thinking, the writer can contribute to academic knowledge and develop skills that can benefit their future career.

**GIET ENGINEERING COLLEGE**

(Formerly Known as Chaitanya Institute of Engineering & Technology)  
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NBRC

NH-16, Chaitanya Knowledge City, GIET  
Campus, Rajamahendravaram, AP.

Principal  
GIET ENGINEERING COLLEGE

NH-16, Chaitanya Knowledge City, Rajamahendravaram, AP.

Dr. S. Suryanarayana Raju

### About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

### About the Department

The Civil Engineering department at GIET Engineering College is committed to providing a high-quality education that prepares students for successful careers in the civil engineering field. The department has a team of experienced and dedicated faculty members who use innovative teaching methods to help students gain a thorough understanding of the subject matter. The department has state-of-the-art facilities, including well-equipped labs and a modern computer center that provides students with hands-on experience using the latest software tools. The curriculum covers a wide range of topics, including structural analysis and design, construction materials and technology, transportation engineering, environmental engineering, and geotechnical engineering. Students are encouraged to participate in research projects and industry internships to gain practical experience and develop their skills. The department also organizes seminars, workshops, and guest lectures to keep students up-to-date with the latest developments in the field.

Graduates from the Civil Engineering department at GIET Engineering College have a wide range of career opportunities, including working in the construction industry, government agencies, consulting firms, and research organizations.

### About the Program

Double patenting is the practice of attempting to obtain multiple patents in the same region. An inventor can file applications for multiple patents in different countries for the same invention, but not in the same country. The issue of double patenting arises when there are two or more pending patent applications for the same invention. Suppose an applicant submits the first patent application on date XYZ and another patent application i.e. second application for the same invention on date ABC. Then the second application would be considered a double patent, and the patent will not be extended for the 2nd filing. The nature of the invention, the validity of the right and the ID of its owner.

## PROGRAM REPORT

Program Name : "Patent Law & Double Patenting".

Date of activity : 29.11.2019

Venue : Seminar Hall, C.V .Raman Block

Organized by : Department of Civil Engineering.

Resource Person: Mrs.S.BHARATHI DEVI, Assistant Professor,  
Rajamahendri Institute of Engg & Technology, Rajahmundry,  
8367667298, bharathiriet@gmail.com

Number of Participants: 49

### Description:

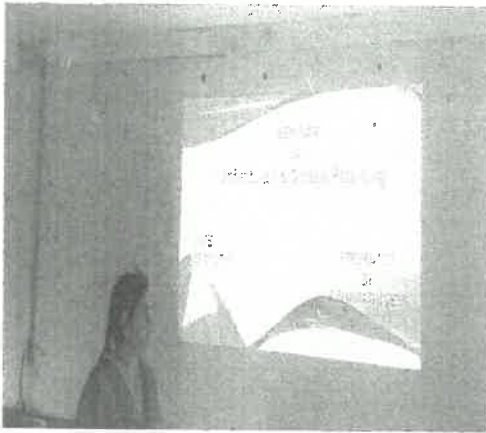

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled "Patent Law & Double Patenting" on 29.11.2019. Mrs.S.BHARATHI DEVI, Assistant Professor, Rajamahendri Institute of Engineering & Technology, Rajahmundry, acted as a resource person for this Workshop. Students have learnt in detail Patent Law & Double Patenting and required parameters to consider while publishing papers in different innovative teaching methods.

Patent law is a branch of intellectual property law that deals with the legal rights granted to inventors for their inventions. It involves the process of obtaining a patent, which is a legal document that grants the patent holder the exclusive right to make, use, and sell their invention for a set period of time.

Double patenting is a situation that arises when an applicant seeks to obtain two or more patents for the same invention. This can occur when an applicant files a new application for the same invention after already obtaining a patent for the same invention. Double patenting can be problematic as it can result in the patent

Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

holder having an unfair advantage over their competitors, and can also cause confusion in the market.

### Outcomes

The outcomes of double patenting can vary depending on the jurisdiction and the specific circumstances of the case. In some cases, the second patent may be granted, but with a shorter term than the first patent. In other cases, the second patent may be rejected, or the patent office may require the applicant to choose between the two patents. Double patenting can also result in litigation, where a court may be called upon to determine the validity and enforceability of the patents.

In general, patent law and double patenting are complex topics that require a deep understanding of intellectual property law and its various nuances. It is important for inventors, patent applicants, and businesses to work with experienced patent attorneys to navigate these legal issues and ensure that their intellectual property rights are protected.

## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

Department Of computer science and Engineering started in the year of 2005. It is offering graduate program B.Tech. Department has well qualified and dedicated faculty members. Department has produced good number of graduates well settled in industry and some are also involved in research activities.

The Department with its group of employees has coordinated numerous effective events on the campus. We give additional inputs to the students to meet the corporate requirements and assumptions.

The preparation that we give and the schedule we have intended for preparing separated from college educational plan fills the hole between the University and the Industry. It is refreshed consistently to stay aware of the developing growing demands and the changing trends of the software industry and research centers. It assists students with improving their abilities and leave the campus with a feeling of complete satisfaction.

## About the Program

In this seminar you learn about rural entrepreneurship in India several challenges are being faced by rural entrepreneurs and ways to overcome it. For example - People in villages have a positive mindset towards job over employment. Parents won't show enthusiasm when their children opt for entrepreneurship instead of family-run profession/work. Getting business finance in the rural area is a big challenge for aspiring entrepreneurs. The challenge becomes multi-fold if visionaries are looking forward to running online businesses in rural areas. becomes a herculean task.

## PROGRAM REPORT

Program Name : Challenges for Rural Entrepreneurship  
Date of activity : 25.11.2019  
Venue : Class Room  
Organized by : Dept of CSE  
Resource Person : B. VENKATESH , Assistant Professor  
ISTS Engineering College  
Number of Participants 50

### Description about Program

This seminar is useful for B.Tech & MBA students. The resource person: B. VENKATESH, Assistant Professor, ISTS Engineering College. He is good at motivating the students regarding entrepreneur development and giving a brief insight. He has delivered in a very enthusiastic way. This is a very excellent topic and all the participants had given good feedback.

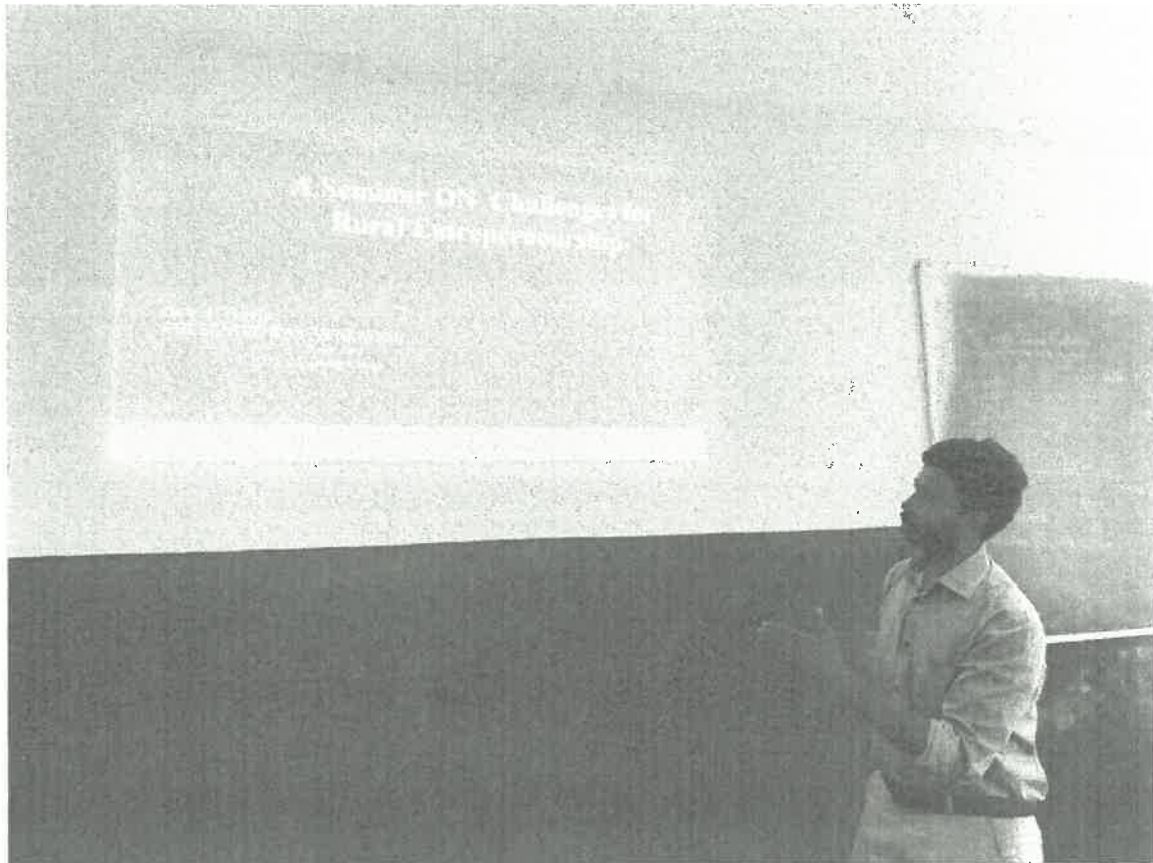

The program "Challenges for Rural Entrepreneurship" is a seminar or workshop that focuses on the challenges faced by entrepreneurs in rural areas. This program is designed to provide participants with an understanding of the unique challenges of rural entrepreneurship and to develop strategies to overcome these challenges.

The program covers a range of topics, including:

1. The unique challenges of starting and growing a business in a rural area, such as access to capital, limited infrastructure, and a smaller customer base.

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

2. Strategies for overcoming these challenges, such as leveraging local resources, building strategic partnerships, and utilizing technology to reach a wider audience.
3. The role of government policies and programs in supporting rural entrepreneurship.
4. The importance of community development and engagement in supporting rural entrepreneurship.
5. Best practices for marketing and branding rural businesses.
6. Successful case studies and examples of rural entrepreneurship.

**Principal**  
**GIET ENGINEERING COLLEGE,**  
**NH-16, Chaltanya Knowledge City,**  
**RAJAHMUNDRY-533 296.**

### **Outcomes of the Event:**

1. Enhanced understanding of the unique challenges of rural entrepreneurship.
2. Improved ability to identify and evaluate strategies for overcoming these challenges.
3. Increased knowledge of government policies and programs that support rural entrepreneurship.
4. Improved ability to engage with local communities and stakeholders to support rural entrepreneurship.
5. Enhanced marketing and branding skills for rural businesses.
6. Inspiration and motivation from successful case studies and examples of rural entrepreneurship.

Overall, the A Seminar on Challenges for Rural Entrepreneurship program provides participants with a comprehensive understanding of the challenges and opportunities of rural entrepreneurship, as well as the strategies and resources needed to overcome these challenges and build successful businesses in rural areas.

## About the Institute

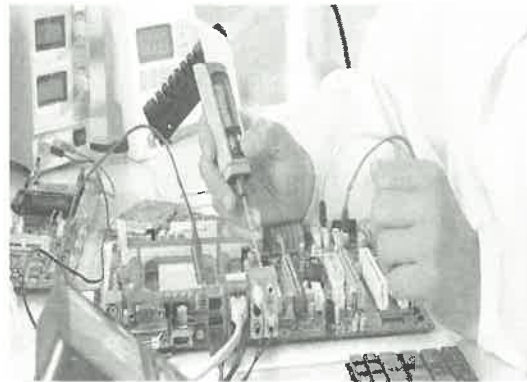

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

We put all our efforts to make our students compete internationally and to produce creative solutions to society's needs, and universal. The department of Electronics & Communication Engineering was established in the year 2005 with an initial intake of 60 students. The undergraduate program of the department of Electronics and Communication imparts solid technical background and research capabilities among the students which help them to excel in their respective fields. It has an array of courses for students to choose from and study such as electronics, electronic hardware and software, communications, radio and television, solid-state devices, microelectronics, VLSI, and other circuits & systems used in varying applications ranging from simple circuits to sophisticated digital satellite systems, GSM & CDMA technology, and generating any knowledge and technologies essential to it.

## About the Program

PhD class

**RESEARCH**  
The Everyday  
**METHODOLOGY**  
City of the 21st century

The importance of Research Methodology in PhD is an extensively severe matter. Since Research Methodology is meant to offer the right path for leading research and make it a valuable intellectual property, you must spend more time considering the right approach for your PhD. Moreover, the Research Methodology is also subject to offer relevant ways of adding sources and resources for meeting the identified research gaps. It is in this frontier that the importance of the Research Methodology gains great importance in a PhD research.

[connectvsr@gmail.com](mailto:connectvsr@gmail.com)  
Number of Participants : 55

### Description:

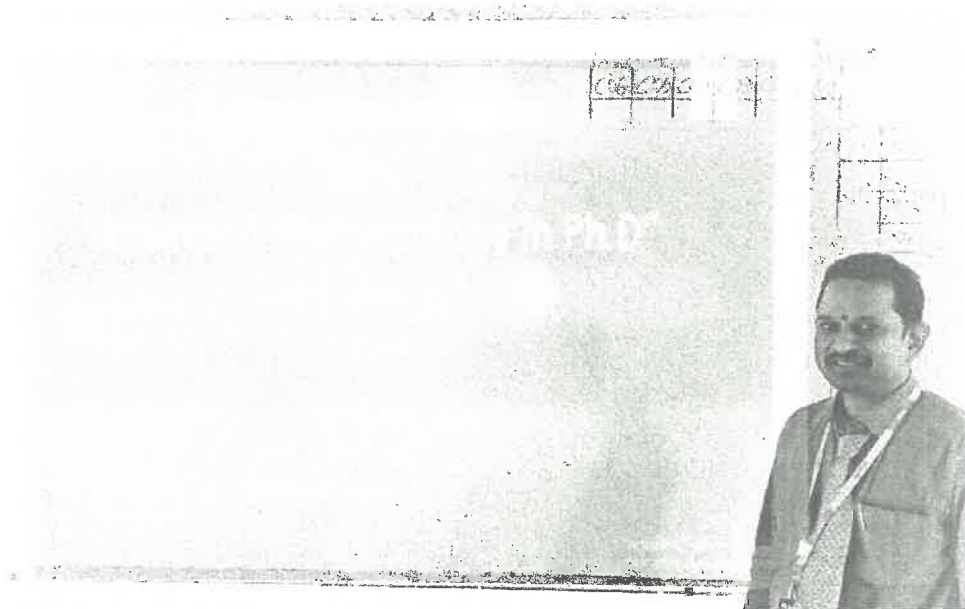

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled "Research Methodology in Ph.D", Dr.V.Srinivasa Rao, Professor, Aditya Engineering College, acted as a resource person for this seminar. Students have learnt in detail about future needs in different research areas and required parameters to consider while publishing papers in reputed journals and also different innovative teaching methods.

Research Methodology is a fundamental and essential topic in Ph.D. studies. It refers to the scientific and systematic approach used to conduct research and arrive at valid and reliable findings.

In a Ph.D. program, Research Methodology is taught to provide students with the necessary knowledge and skills to design, conduct, and analyze research. It includes both theoretical and practical aspects of research, such as research design, data collection, data analysis, and interpretation of results.

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533296

The primary objective of Research Methodology in Ph.D. studies is to enable students to conduct independent and original research that contributes to the existing body of knowledge in their field of study. It helps students to understand the different research paradigms and methods, select appropriate research methods and tools, and critically evaluate research findings.

**Principal**  
**GIET ENGINEERING COLLEGE,**  
M-10, Challenge Knowledge City,  
RAJAWADI PURY 503 096.

## OUTCOMES

1. Developing a comprehensive understanding of research paradigms, methods, and techniques.
2. Acquiring the skills to design and conduct rigorous research studies.
3. Developing critical thinking skills to evaluate research findings and identify research gaps.
4. Enhancing analytical and problem-solving skills to interpret and present research findings effectively.
5. Developing the ability to communicate research findings through oral and written presentations.
6. Gaining ethical knowledge and awareness of the ethical implications of research.

Overall, Research Methodology is an essential aspect of Ph.D. studies that enables students to conduct high-quality research that contributes to the advancement of knowledge in their field of study.

## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

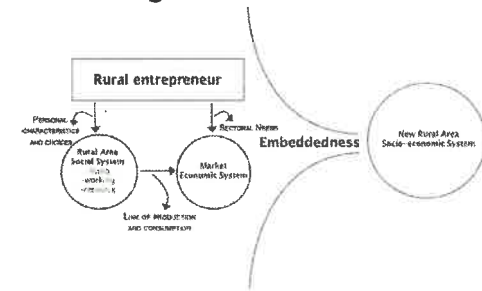

The Department of Electrical and Electronics Engineering was started in the year 2009. It is offering undergraduate graduate program in B.Tech. in Electronics and Communications Engineering. It has well qualified, experienced, and dedicated faculty and committed supporting staff.

The Department provides all resources like laboratories, library, and classrooms to students for improving their knowledge and skills. The laboratories of the department are well equipped with sophisticated equipment and instruments to fully satisfy the training needs of the students as well as the research and consultancy needs of the department.

The Department provides complete support to the overall development of the students for challenging career ahead. The department offers seminars, workshops, conferences and expert lectures on the recent advances and educational technologies related to departmental practices on a regular basis.

The Department has produced a good number of graduates well settled in various types of industries and research organizations. The department is also receiving very good support from its alumni in all aspects.

## About the Program

People in rural areas suffer with unemployment, poverty, poor infrastructure facilities, etc. which may be solved with the development of the rural entrepreneurs. Rural entrepreneurs refer to those who carry out the business in rural areas with the utilization of local resources. Rural entrepreneurship is now-a-days from semi-urban areas or rural areas to Urban areas.. Rural entrepreneurs may increase the standard of living and purchasing power of the rural people and bottom of pyramid by offering employment opportunity to the people in villages. It focuses on the major problems faced by rural entrepreneurs.

## PROGRAM REPORT

Program Name : Rural Entrepreneurship  
Date of activity : 09.09.2019  
Venue : Class Room-S16  
Organized by : Dept of EEE  
Resource Person : B.Srinivasa Rao, Assistant Professor,  
International School Of Technology And Science  
For Women  
Number of Participants 53

### Description about Program

This seminar is useful for B.Tech & MBA students. The resource person: B.Srinivasa Rao, Assistant Professor, International School of Technology and Sciences for Women. He is good at motivating the students regarding entrepreneur development and giving a brief insight. He has delivered in a very enthusiastic way. This is a very excellent topic and all the participants had given good feedback.

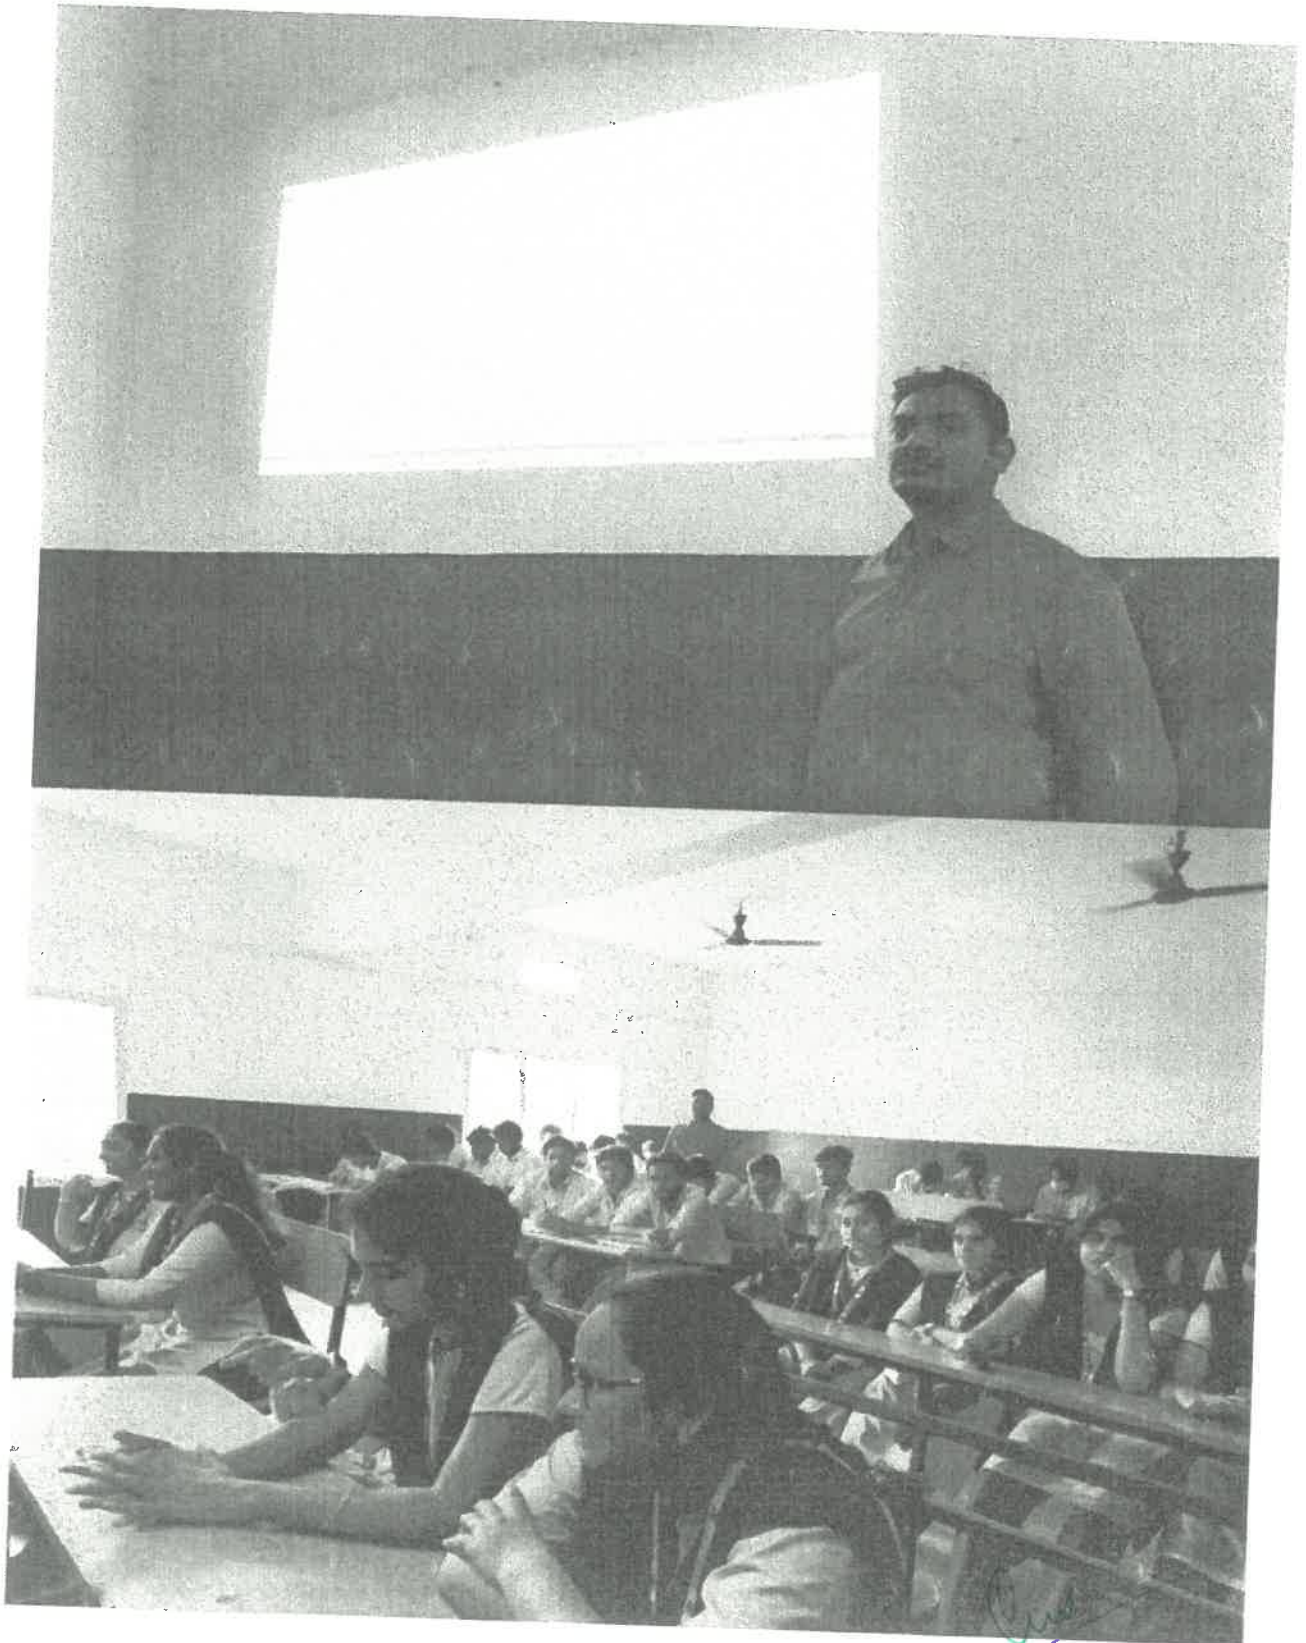

The program "Rural Entrepreneurship" is a training program or course that aims to empower individuals and communities in rural areas to start and grow successful businesses. This program is designed to help participants understand the unique challenges and opportunities of rural entrepreneurship and develop the skills and resources needed to build thriving businesses in rural areas.

The program covers a range of topics, including:

1. Identifying and evaluating business opportunities in rural areas.
2. Understanding the local market and consumer needs in rural areas.
3. Developing business plans and strategies for rural businesses.

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

4. Financial management for rural businesses, including budgeting, accounting, and financing options.
5. Marketing and sales strategies for rural businesses.
6. Leadership and management skills for rural entrepreneurs.

Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

### Outcomes of the Event:

1. Enhanced understanding of the unique challenges and opportunities of rural entrepreneurship.
2. Improved ability to identify and evaluate business opportunities in rural areas.
3. Increased knowledge of the local market and consumer needs in rural areas.
4. Improved ability to develop effective business plans and strategies for rural businesses.
5. Enhanced financial management skills, including budgeting, accounting, and financing options.
6. Improved marketing and sales strategies for rural businesses.
7. Enhanced leadership and management skills for rural entrepreneurs.

Overall, the Rural Entrepreneurship program provides participants with the knowledge and skills needed to start and grow successful businesses in rural areas. By empowering individuals and communities in rural areas to become entrepreneurs, this program can help to create jobs, stimulate economic growth, and improve the quality of life in rural communities.

DEPARTMENT OF

Electronics & Communication ENGINEERING

**GIET ENGINEERING COLLEGE**

(Formerly Known as Chaitanya Institute of Engineering & Technology)  
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET  
Campus, Rajamahendravaram, AP.

Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

## About the Institute

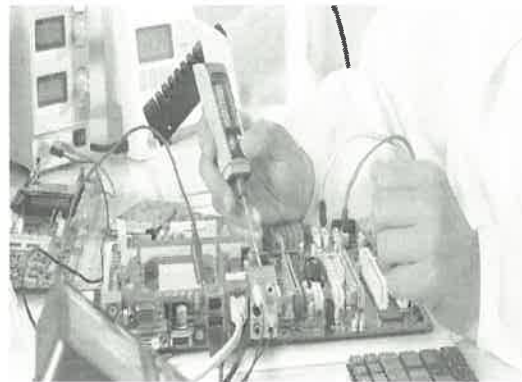

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

We put all our efforts to make our students compete internationally and to produce creative solutions to society's needs, and universal. The department of Electronics & Communication Engineering was established in the year 2005 with an initial intake of 60 students. The undergraduate program of the department of Electronics and Communication imparts solid technical background and research capabilities among the students which help them to excel in their respective fields. It has an array of courses for students to choose from and study such as electronics, electronic hardware and software, communications, radio and television, solid-state devices, microelectronics, VLSI, and other circuits & systems used in varying applications ranging from simple circuits to sophisticated digital satellite systems, GSM & CDMA technology, and generating any knowledge and technologies essential to it.

## About the Program

The owner of a trademark may pursue legal action against trademark infringement. Most countries require formal registration of a trademark as a precondition for pursuing an action for trademark infringement. However, the U.S. recognizes common law trademark rights, which means action can be taken to protect any unregistered trademark if it is in use. A legal presumption that you own the trademark and have the right to use it. In principle, a trademark registration will confer an exclusive right to the use of the registered trademark. This implies that the trademark can be exclusively used by its owner, or licensed to another party for use in return for payment.

## PROGRAM REPORT

Program Name : Ownership of Trade Mark  
Date of activity : 14.08.2019  
Venue : S-04, C.V .Raman Block  
Organized by : Department of Electronics & Communications Engineering  
Resource Person : Mr.D.ARAVIND, Assistant professor,  
Rajahmundry, 9638814962,  
d.arvind2654@gmail.com  
Number of Participants : 53

### **Description:**

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled Seminar on “Ownership of Trade Mark” 14.08.2019. Mr.D.ARAVIND Assistant professor, acted as a resource person for this Workshop. Students have learnt in detail about “Ownership of Trade Mark” areas and required parameters to consider while publishing papers in different innovative teaching methods.

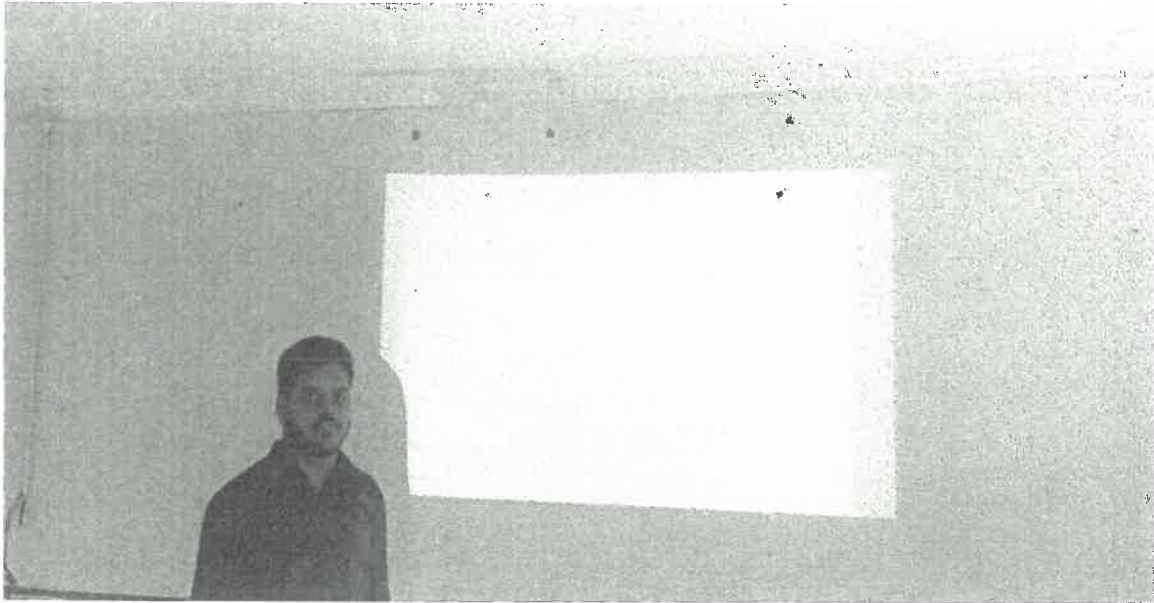

The program "Ownership of Trademark" is a training program or workshop that focuses on the legal and practical aspects of trademark ownership. This program aims to provide participants with an understanding of the legal framework surrounding trademark ownership, including registration and enforcement, as well as practical strategies for managing and protecting their own trademarks.

The program covers a range of topics, including:

1. The legal framework of trademark ownership, including registration and enforcement.
2. Understanding the different types of trademarks, including word marks, design marks, and service marks.
3. The process of trademark registration, including eligibility criteria, application procedures, and timeline.
4. Trademark searches and investigations to identify potential conflicts with existing trademarks.

Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

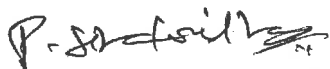

5. Strategies for managing and protecting trademark ownership, including trademark monitoring, licensing, and renewal.
6. Best practices for enforcing trademark rights and defending against infringement.

## OUTCOMES

1. Enhanced understanding of the legal framework of trademark ownership.
2. Improved ability to identify and evaluate potential trademark conflicts.
3. Enhanced ability to manage and protect trademark ownership, including trademark monitoring, licensing, and renewal.
4. Improved understanding of the importance of enforcing trademark rights and defending against infringement.
5. Enhanced practical skills for managing and protecting trademarks.
6. Enhanced legal knowledge and confidence when dealing with trademark ownership issues.

Overall, the Ownership of Trademark program provides participants with a comprehensive understanding of the legal and practical aspects of trademark ownership, as well as the strategies and resources needed to effectively manage and protect their own trademarks. By empowering individuals and organizations with the knowledge and skills needed to manage and protect their intellectual property, this program can help to create a culture of innovation and entrepreneurship, while protecting and promoting the interests of trademark owners.

## About the Program

The Indian entrepreneurial spirit has risen remarkably as India stands third amongst the fastest growing startup countries worldwide - just after the US and the UK. These are bringing together academicians, entrepreneurs and researchers to collaborate on concepts that could potentially drive economic growth and encourage more people to become entrepreneurs

## PROGRAM REPORT

Program Name	: Entrepreneurship and Culture: What Determines In INDIA
Date of activity	: 01.08.2019
Venue	: 302-Class Room
Organized by	: Dept of ECE
Resource Person	: B.Sushmitha , Assistant Professor Malla Reddy Engineering College for Women
Number of Participants	60

### Description about Program

This seminar is useful for B.Tech & MBA students. The resource person: B.Sushmitha , Assistant Professor, Malla Reddy Engineering College for Women. She is good at motivating the students regarding entrepreneur development and giving a brief insight. She has delivered in a very enthusiastic way. This is a very excellent topic and all the participants had given good feedback.

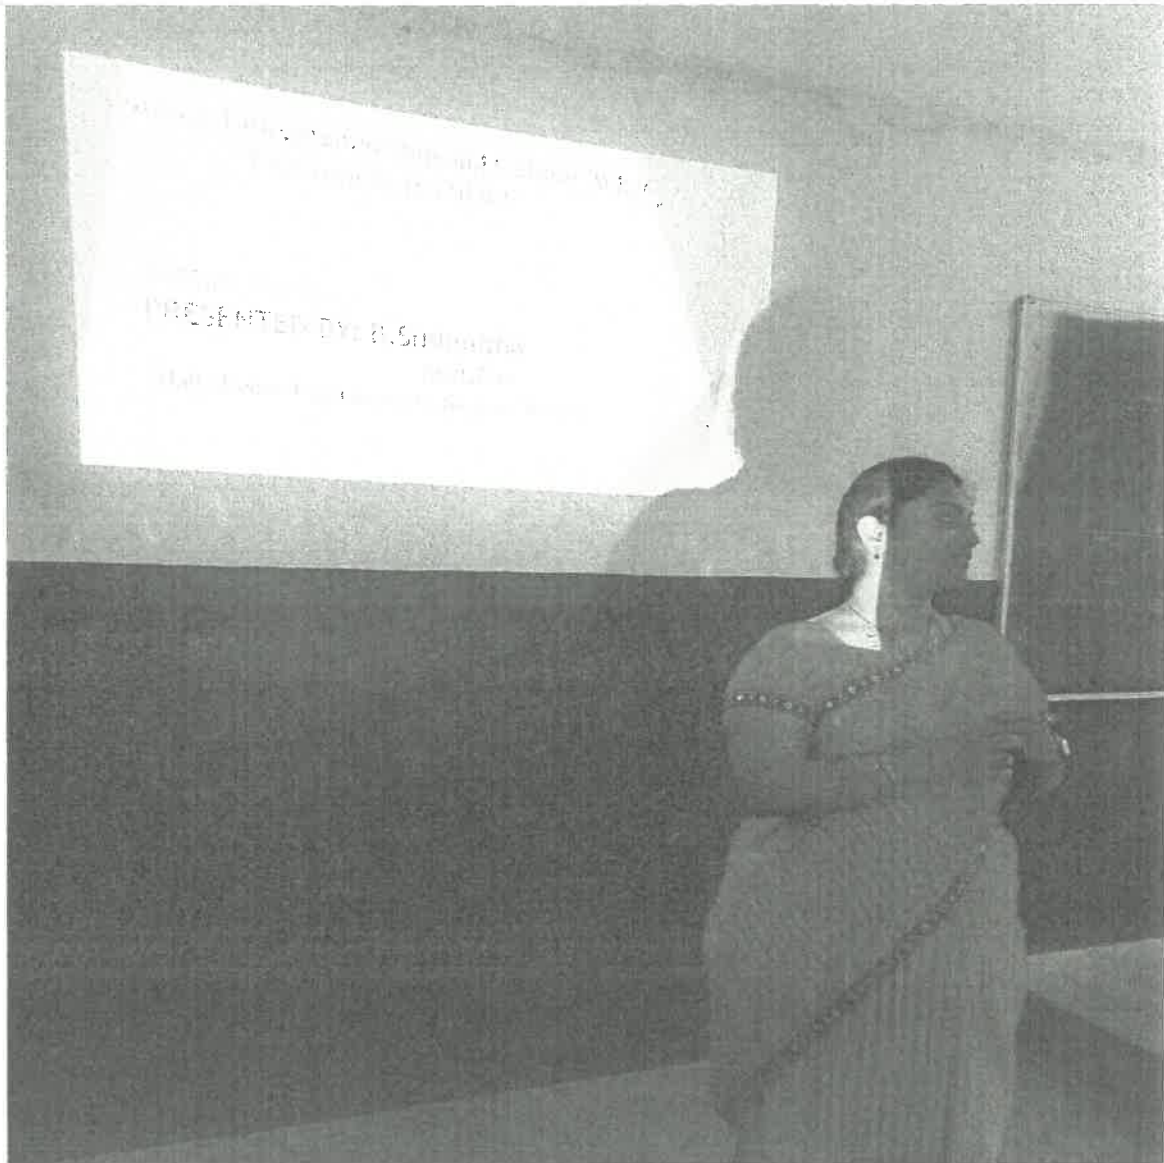

The program "Entrepreneurship and Culture: What Determines in INDIA" is a course or training program that focuses on the intersection of entrepreneurship and culture in India. This program aims to provide participants with a deeper understanding of how cultural factors influence entrepreneurship and innovation in India, and how entrepreneurs can leverage cultural insights to succeed in the Indian market.

The program covers a range of topics, including:

1. Cultural factors that influence entrepreneurship in India, such as the importance of family, community, and religion.

  
Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

2. The role of government policies and regulations in shaping the entrepreneurial landscape in India.
3. Strategies for identifying and pursuing opportunities in the Indian market, including how to navigate cultural differences and build relationships with local partners.
4. Techniques for developing and scaling successful businesses in India, including marketing, finance, and operations.

### **Outcomes of the Event:**

1. Improved understanding of the cultural factors that influence entrepreneurship in India, and how to leverage these insights to create successful businesses.
2. Increased knowledge of government policies and regulations related to entrepreneurship in India, and how to navigate these to achieve business success.
3. Enhanced skills in identifying and pursuing opportunities in the Indian market, and building strong relationships with local partners.
4. Improved ability to develop and scale successful businesses in India, including mastery of key business functions such as marketing, finance, and operations.

Overall, the "Entrepreneurship and Culture: What Determines in INDIA" program provides a comprehensive understanding of the unique challenges and opportunities of entrepreneurship in India, and equips participants with the knowledge and skills needed to succeed in this dynamic market.

DEPARTMENT OF  
COMPUTER SCIENCE AND ENGINEERING  
**GIET ENGINEERING COLLEGE**  
(Formerly Known as Chaitanya Institute of Engineering & Technology)  
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET  
Campus, Rajamahendravaram, AP.

Principal  
GIET ENGINEERING COLLEGE  
NH-16, Chaitanya Knowledge City,  
RAJAMAHENDRAVARAM, AP.

## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

Department of COMPUTER SCIENCE AND ENGINEERING started in the year of 2005. It is offering graduate program B.Tech. Department has well qualified and dedicated faculty members. Department has produced good number of graduates well settled in industry and some are also involved in research activities. The Department with its group of employees has coordinated numerous effective events on the campus. We give additional inputs to the students to meet the corporate requirements and assumptions. The preparation that we give and the schedule we have intended for preparing separated from college educational plan fills the hole between the University and the Industry. It is refreshed consistently to stay aware of the developing growing demands and the changing trends of the software industry and research centers. It assists students with improving their abilities and leave the campus with a feeling of complete satisfaction.

## About the Program

Cyber Law also called IT Law is the law regarding Information-technology including computers and the internet. It is related to legal informatics and supervises the digital circulation of information, software, information security, and e-commerce. IT law does not consist of a separate area of law rather it encloses aspects of contract, intellectual property, privacy, and data protection laws. Intellectual property is a key element of IT law. Cyber Laws yields legal recognition to electronic documents and a structure to support e-filing and e-commerce transactions and also provides a legal structure to reduce, check cyber-crimes.

## PROGRAM REPORT

Program Name : “Applying Program on usage of SPSS Software”

Date of activity : 08.07.2019

Venue : Seminar Hall, C.V .Raman Block

Organized by : Department of Computer Science & Engineering

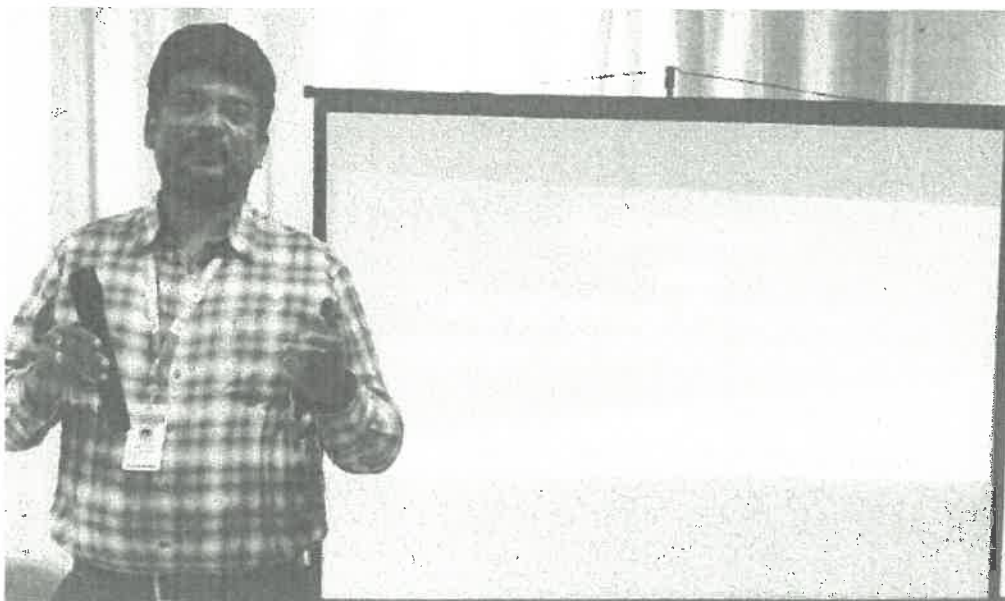

Resource Person : Dr. R.Rambabu Reddy

Professor, Rajamahendri Institute of Engg & Tech

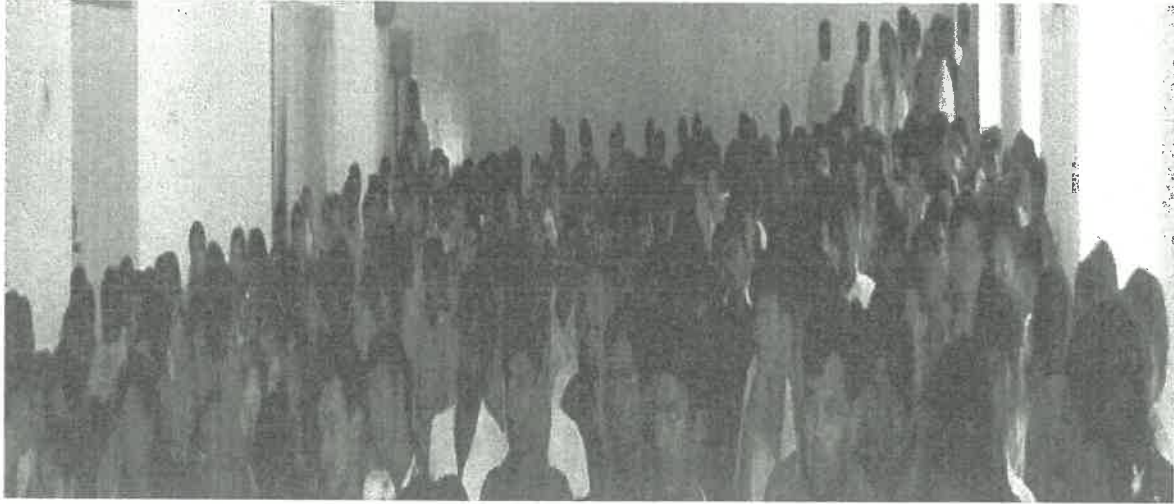

Number of Participants : 92

### Description:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled “A Seminar on “Applying Program on usage of SPSS Software” Dr. R.Rambabu Reddy, Professor, Rajamahendri Institute of Engg & Tech acted as a resource person for this Workshop. Students have learnt in detail about future needs in different research areas and required parameters to consider while publishing papers in reputed journals and also different innovative teaching methods.

24<sup>th</sup> June 2019

Organised  
by

DEPARTMENT OF  
ELECTRICAL AND ELECTRONICS ENGINEERING

**GIET ENGINEERING COLLEGE**

(Formerly Known as Chaitanya Institute of Engineering & Technology)  
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET  
Campus, Rajamahendravaram, AP.

Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City  
RAJAMAHENDRAVARAM, AP.

## About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

## About the Department

The Department of Electrical and Electronics Engineering was started in the year 2009. It is offering undergraduate graduate program in B.Tech. in Electronics and Communications Engineering. It has well qualified, experienced, and dedicated faculty and committed supporting staff.

The Department provides all resources like laboratories, library, and classrooms to students for improving their knowledge and skills. The laboratories of the department are well equipped with sophisticated equipment and instruments to fully satisfy the training needs of the students as well as the research and consultancy needs of the department.

The Department provides complete support to the overall development of the students for challenging career ahead. The department offers seminars, workshops, conferences and expert lectures on the recent advances and educational technologies related to departmental practices on a regular basis.

The Department has produced a good number of graduates well settled in various types of industries and research organizations. The department is also receiving very good support from its alumni in all aspects.

## About the Program

In the recent times, India has been trying to establish itself as an Intellectual Property Rights (IPR) friendly nation in the world, by defining its standards as per the Global Intellectual Property norms. This has been clearly reflected in some of the latest developments in the laws related to Intellectual Property Rights in India. One such effort can be seen in the Indian government's vision to set-up fully computerized Intellectual Property offices based on the United States Patent and Trademark Office model. The Government has recently approved the Patent Prosecution Highway Program which will ease and expedite the process of patent examination in India. Changes in the Manual of Patent Office Practice and Procedures have clarified and eased several filing processes.

Number of Participants: 50

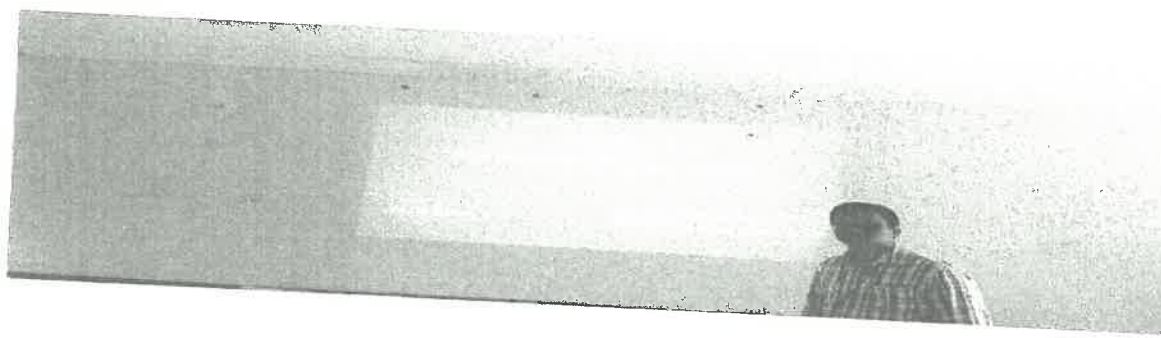

### Description:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled Seminar on "New developments in Patent Law" on 24.06.2019. Mr. M. V. R. Narasimha Rao, Asst.Prof, BVC College of Engineering, Rajahmundry, acted as a resource person for this Workshop. Students have learnt in detail about new developments in Patent Law, required parameters to consider while publishing papers in different innovative teaching methods.

New developments in Patent Law refer to the changes and updates made to the existing patent laws and regulations. These developments can have a significant impact on the patent system and can affect inventors, businesses, and other stakeholders involved in the patent process. Here's a description of some recent developments in Patent Law and their.

Principal  
GIET ENGINEERING COLLEGE,  
NH-16, Chaitanya Knowledge City,  
RAJAHMUNDRY-533 296.

## OUTCOMES

### 1. Patent Eligibility:

One of the recent developments in Patent Law is the clarification of patent eligibility standards. The US Supreme Court's Alice decision in 2014 set a two-part test to determine whether a claim is eligible for patent protection

**Outcome:** It has made it more challenging to obtain patents in certain areas such as software, business methods, and medical diagnostics.

### 2. Inter Partes Review:

Another recent development in Patent Law is the creation of the Inter Partes Review (IPR) process. IPR is a procedure for challenging the validity of patents before the US Patent and Trademark Office (USPTO)

**Outcome:** It has provided a faster and more cost-effective alternative to traditional litigation for challenging patents.

### 3. International Harmonization:

The global harmonization of patent laws has been another recent development in Patent Law. Several international agreements have been established, such as the Patent Cooperation Treaty (PCT) and the Unified Patent Court (UPC)

**Outcome:** It has made it easier for inventors and businesses to obtain patents and enforce their rights in multiple countries.

### 4. Artificial Intelligence:

The increasing use of artificial intelligence (AI) in patent-related activities is another recent development in Patent Law. AI is being used for prior art searches, patent drafting, and patent infringement analysis

**Outcome:** It has improved the efficiency and accuracy of the patent process.

Overall, new developments in Patent Law can have significant impacts on the patent system, and it is important for inventors, businesses, and other stakeholders to stay informed and adapt to these changes
