HOD

**A Two Week Add on Program on
"Advance Applications in AUTOCAD"**
10.07.2017 to 22.07.2017

**Organized
by
DEPARTMENT OF
MECHANICAL ENGINEERING
GIET ENGINEERING COLLEGE**

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

Mechanical engineering is an evergreen discipline that involved in the application of basic science and mathematical principles to design, analyze, manufacture, and maintenance of mechanical systems. Mechanical engineers work across a huge variety of industries. Mechanical engineers are in the design, manufacture and maintenance of things ranging from a small safety pin to a giant ship. It is one of the oldest branches of engineering, it is also one that continues to change and grow with the advancements in technology making it a vibrant and exciting career path even to this day. The total number of engineers employed in the U.S. in 2015 was roughly 1.6 million. Of these 17.28% were mechanical engineers, the largest discipline by size.

The department is equipped with academically sound and experienced faculty specialized in various areas of mechanical engineering. The department is provided with state of are laboratories and software. In addition to the regular curriculum we conduct programs like add-on training programs on drafting, solid modelling, etc., Industrial visits, Seminars, Hands-on workshops on latest technologies to enhance the skills of the students to meet the demands of the industry.

About the Program

CAD or computer-aided design and drafting (CADD), is technology for design and technical documentation, which replaces manual drafting with an automated process. If you are a designer, drafter, architect or engineer, you have probably used 2D or 3D CAD programs such as AutoCAD or AutoCAD LT software. These widely used software programs can help you draft construction documentation, explore design ideas, visualise concepts through photorealistic renderings and simulate how a design performs in the real world..

PROGRAM REPORT

Name of the Program : "A Two-Week Certificate Program on Advance applications in AUTOCAD"

Date/Duration : 1.07.2017 to 22.07.2017 (Two Week).

Resource Person : Mr.K.L.N.Murthy,
Head of the Department,
MECH, GIET ENGINEERING COLLEGE.
Rajahmundry, A.P

Phone:9441564113

Mail:klnmurthy@gmail.com

Name of the Coordinator : Ms.P.Rajitha, Assistant Professor, MECH.

No of the Participants : 69

Program Objective :

- Learn basic to advanced AUTOCAD
- The best courses for building a great profiles for higher study and jobs
- Participants can apply for LOR after the program
- Allows to draw and edit 2D and 3D designs
- Minimize human errors and helps the users to bring imagination to animation.

Topics Covered

- :The following topics are covered
- Introduction to AUTOCAD
 - Introduction to 3D and 3D solids
 - Extrude,loft,press
 - Dynamic UCS,selection plane

Principal
GIET ENGINEERING COLLEGE.

RAJAHMUNDRY-533 296.

GIET ENGINEERING COLLEGE

APPROVED BY AICTE, AFFILIATED TO JNTUK : KAKINAD, ACCREDITED BY NAAC

NH-16, CHAITANYA KNOWLEDGE CITY, GIET CAMPUS, RAJAMAHENDRAVARAM, A.P., INDIA 533296

TEL: 91-883-6577446, 9133833322, <http://www.gietec.ac.in> Email: principal_t9@yahoo.co.in

Program Outcome

:

- .Easy to zoom in and zoom out and pan to other areas of drawing
- Easy to draw objects accurately with various options to set exact size
- Can see a 3D image of drawing and can rotate it to all angles.
- Identify and solve any problems with the design before production.

PROGRAM REPORT

Name of Program : "A Two-Week Certificate Program On Introduction to Robotics and Artificial Intelligence"
Date/Duration : 10.07.2017 to 22.07.2017 (Two Week).
Resource Person : Mr. Y. Durga Prasad
Assistant Professor, CSE.
Phone: 8522910914
Mail: ydpviet@gmail.com
Name of the Coordinator : Mr. P.Sasi Kumar,
Assistant Professor, CSE.
No of the Participants : 59
Program Objective :

- This course will enable you to learn about the history, the present, and the future of Robotics
- It will also take you through the robotic applications and its industrial usage.
- The second module will help you understand the significance of Artificial Intelligence in present era.

Program Outcome : Following are the Program Outcomes:

- What is Robotics
- How is Robotics used in various Industries.
- What are the different kinds of Robots.
- What is Artificial Intelligence.
- How Robotics is clubbed with Artificial Intelligence.

GIET ENGINEERING COLLEGE
(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The department of Electrical and Electronics Engineering was established in the year 2009 with an initial intake of 60 students. The UG program of the department of Electrical and Electronics Engineering imparts solid technical background and research capabilities among the students which help them to excel in their respective fields.

It has an array of courses for students to choose from and study such as Electrical and Electronics Engineering, Electronic devices, Power Systems, Electrical Machines, Control Systems Microcontroller, electrical circuit analysis, Power systems operations and controlling, Digital Electronics, Digital Signal Processing, Digital Control Systems, Electro Static Field, Utilization Of Electrical Energy and More.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as electronics, control system, networking, etc. that assures their placement in renowned multinational companies.

About the Program

A program on soft skills and personality development is designed to help individuals improve their interpersonal skills and develop a well-rounded personality. Soft skills are personal attributes that enable people to interact effectively and harmoniously with others, and they are essential in both personal and professional settings.

Objectives of the Program:

- To learn about what is Personality
- To know about hard skills and soft skills
- To learn Key Soft Skills at Workplaces
- To learn the basic Etiquettes
- To learn CV/Resume Writing
- To know the Use of Phonemics /Kinesics

PROGRAM REPORT

Name of the Event: A Two Week Certificate Program on “SOFTSKILLS & PERSONALITY DEVELOPMENT”

Date: 12.07.2017 to 25.07.2017

Resource Person: Mr. Vijay Babu

Assistant Professor MBA Dept. GIET Engineering College.

Email.id: vijaybabu@gmail.com

Contact number: 9160304921

Name of the Coordinator: Mr .L. Yogi

Number of students attended: 17

Venue: S-14, CV RAMAN Block, GIET Engineering college.

Objectives of the Program:

1. To learn about what is Personality.
2. To know about hardskills and softskills.
4. To learn Key Soft Skills at Workplaces.
5. To learn the basic Etiquettes
6. To learn CV/Resume Writing
7. To know the Use of Proxemics/Kinesics

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY - 533 296.

Topics to be covered:

1. What is Personality?
2. How to develop an "ideal Personality"?
3. How do we define Hard Skills, Soft Skills? And examples.
4. Some Key Soft Skills at Workplaces with example.
5. Basic Etiquette/ Manners with example.
6. Telephonic Conversation with example.
7. CV/Resume Writing with examples.
8. How to Deliver Impromptu Speech.
9. Technical Presentation with example.
10. Use of Proxemics/Kinesics.

Outcomes of the Program:

At the end of this course, the student will be able to

1. Understand about personality and how to develop it.
2. Identify the key skills required for job.
3. Apply the skills learned in personal and professional life.

It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The Department of Civil Engineering pulls out all stops to create outstanding engineers - with advanced teaching techniques and learning aids for undergraduate students. CIVIL ENGINEERING DEPARTMENT of the institute started functioning from the year 2008. Students are not only made experts in technical aspects but also in interpersonal skills, a vital ingredient to excel in the fast paced world..

To conduct Training camps and Seminars for the students to accustom them with the present modern technologies. To Create Research & Development wing to improve innovative skills of student community.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as modern technologies, Create Research & Development, etc. that assures their placement in renowned multinational companies.

About the Program

CAD or computer-aided design and drafting (CADD), is technology for design and technical documentation, which replaces manual drafting with an automated process. If you are a designer, drafter, architect or engineer, you have probably used 2D or 3D CAD programs such as AutoCAD or AutoCAD LT software. These widely used software programs can help you draft construction documentation, explore design ideas, visualise concepts through photorealistic renderings and simulate how a design performs in the real world...

Date:27.07.2017

PROGRAM REPORT

Name of the Program : “A Two-Week Certificate Program on AUTOCAD”

Date/Duration : 12.07.2017 to 25.07.2017 (Two Week).

Resource Person : Mr.S Siva Sekhar,
Assistant Professor,
CE, GIET ENGINEERING COLLEGE.
Rajahmundry, A.P

Phone:9866878484

Mail:civil.gec@giet.ac.in

Name of the Coordinator : Ms.G Sreeja, Assistant Professor, CE.

No of the Participants : 41

Program Objective :

- Learn basic to advanced AUTOCAD
- The best courses for building a great profiles for higher study and jobs
- Participants can apply for LOR after the program
- Allows to draw and edit 2D and 3D designs
- Minimize human errors and helps the users to bring imagination to animation.

Topics Covered

:The following topics are covered

- Introduction to AUTOCAD
- Introduction to 3D and 3D solids
- Extrude, loft, press
- Dynamic UCS,selection plane

Principal

NH-16, CHAITANYA KNOWLEDGE CITY, GIET CAMPUS, RAJAMAHENDRAVARAM, A.P., INDIA 533296

TEL: 91-883-6577446, 9133833322, <http://www.gietec.ac.in> Email:
principal_t9@yahoo.co.in

Program Outcome :

- .Easy to zoom in and zoom out and pan to other areas of drawing
- Easy to draw objects accurately with various options to set exact size
- Can see a 3D image of drawing and can rotate it to all angles.
- Identify and solve any problems with the design before production.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The department of Electronics & Communication Engineering was established in the year 2005 with an initial intake of 60 students. The undergraduate program of the department of Electronics and Communication imparts solid technical background and research capabilities among the students which help them to excel in their respective fields.

It has an array of courses for students to choose from and study such as electronics, electronic hardware and software, communications, radio and television, solid state device, microelectronics, VLSI, and other circuits & systems used in varying applications ranging from simple circuits to sophisticated digital satellite systems, GSM & CDMA technology, speech processing & computer development.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as electronics, communication, control system, networking, etc. that assures their placement in renowned multinational companies.

About the Program

PCB development can be defined as the process of taking a circuit board design from the design to the production. This typically includes three stages: design, manufacturing and testing. And for all but the simplest designs, this process is iterative with the objective of arriving at the highest quality design within the development time allotted. PCB manufacturing is the construction of your board design. This is a two-step process that begins with board fabrication and ends with printed circuit board assembly (PCBA).

PROGRAM REPORT

Name of the Event: "A Two Week Certificate Program on PCB Design and Fabrication "

Date: 17.07.2017 to 29.07.2017

Resource Person: Mrs. Ch.Janaki Devi

Assistant Professor ECE, GIET College of Engineering

Email.id: janakikusu@gmail.com

Contact number: 8008122280

Name of the Coordinator: Mr. P. Nageswara Rao

Number of students attended: 54

Venue: Room no: 301 & EDC Lab, Sir Arthur Cotton Block, GIET Engineering college

Objectives of the Program:

The main objective of the PCB Design and Fabrication is

- PCB Design Software Installation Express PCB/Tina/Eagle.
- Introduction to PCB Design
- Understanding Board Layouts & Tools
- Schematic Editor Basics Schematic Capture PCB
- Compiling/Building the Project
- Project: Multi Level Water Tank Full Alert / Clap Controlled ON & OFF Circuit
- PCB Design Printing

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Topics to be covered:

- Circuit design using software tools
- PCB fabrication as per design input
- Testing PCB after loading components

Outcomes of the Program:

At the end of this course, the student will be able to

1. PCB Design
2. Understand Board Layouts & Tools
3. Schematic Editor Basics Schematic Capture PCB
4. Compiling/Building the Project
5. Design Circuit on PCB

DEPARTMENT OF
MANAGEMENT STUDIES

GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members, apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The primary objectives of the management department are to examine the data, refute the logic, challenge the conventional wisdom, and rethink business and management, which are prerequisites for business leaders and managers.

The department uses a variety of teaching methods including the case study approach, LPA (Learn, Practice, and Apply), activity-based learning (ABL), industrial visits, guest lectures, seminars, business fests, community activities, and more. There are scheduled interactive sessions with business professionals and entrepreneurs where insights on the theoretical underpinnings of modern entrepreneurship and innovation as well as honed business experience are shared.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for students; can help the aspirers to become a successful entrepreneur and corporate leaders of the business.

About the Program

Effective warehouse management can be summed up in three words – Control, Coordinate, and Communicate. Today's warehouse environment is more than a stock-holding location. Warehouses are multi-site, possibly multinational, centres which form an integral part of the overall supply chain logistics.

The main objective of the program is Learn the important decisions regarding the location, size, and layout of a warehouse. At the end of the program students are Familiar with Principles of forecasting and its methods and understand the importance of Performance Management.

PROGRAM REPORT

Name of the Program : "A Certificate Program on Effective Warehouse and Stores Management"

Date/Duration : 17-07-2017 to 29-07-2017 (Two Week).

Resource Person : Mrs. R.Sita Kumari,
Assistant Professor,
GIET College of Engineering,
Phone: 9490887562,
Mail: sitakumariramadugula@gmail.com

Name of the Coordinator: Mr. K.Satyanarayana, Associate Professor, MBA Dept.

No of the Participants : 55

Program Objectives

By attending this Effective Warehouse & Stores Management training course, delegates will be able to:

- Immediately implement a wide variety of time-tested techniques in Warehousing
- Understand the role and importance of a warehouse in the supply chain
- Make important decisions regarding the location, size, and layout of a warehouse
- Decide on the type of storage and material handling equipment to be used
- Apply time-phased ordering system, ensuring low investment and high customer service
- Manage the day-to-day operations of a warehouse
- The emphasis of the seminar is on practical, real-world implementation of modern warehouse management methods.

Topics Covered

- The role of Warehousing and Distribution in the Supply Chain
- Lead-time considerations
- Guidelines in design of a materials handling system
- Reverse logistics
- Transport Management
- Always Better Control Analysis (ABC)
- Inventory Recording
- Principles of forecasting and its Methods
- Performance measurement of W & D operations

TEL: 91-883-6577446, 9133833322, <http://www.gietec.ac.in> Email: principal_t9@yahoo.co.in

Program Outcomes

At the end of the day students able to

- Understand Functions of Warehousing and Warehousing Distribution System
- Able to prepare Different Material Ordering Levels
- Understand Resource based and Customer based location systems
- Familiar with Classification of materials handling systems
- Understand about Transport Management
- Understand the Significance vs. insignificance of part numbers
- Familiar with Principles of forecasting and its methods
- Understand the Importance of Performance Management

PROGRAM REPORT

Name of Program : "Add on Certificate Program On Introduction to Android Programming".

Date/Duration : 04.09.2017 to 16.09.2017 (Two Week).

Resource Person : Dr.R. Lakshmi Kumar,
Assistant Professor, CSE.
Phone: 9608711624
Mail: laxmikumar1@giet.ac.in

Name of the Coordinator : Mr.D. Phani Kumar,
Assistant Professor, CSE.

No of the Participants : 28

Program Objective :

- Creating robust mobile applications and learn how to integrate them with other services
- Creating intuitive, reliable mobile apps using the android services and components
- Create a seamless user interface that works with different mobile screens

Program Outcome : Following are the Program Outcomes:

- Build enterprise level mobile applications with Kotlin on Android
- Understand both the basic and advanced concepts of Kotlin
- Understand why use Kotlin over Java
- Install and configure Android Studio
- Explain and use key Android programming concepts
- Deploy the application on Google Play
- Become a certified Android developer

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

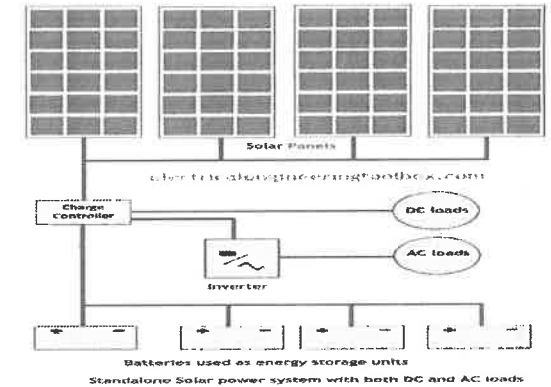

About the Department

The department of Electrical and Electronics Engineering was established in the year 2009 with an initial intake of 60 students. The UG program of the department of Electrical and Electronics Engineering imparts solid technical background and research capabilities among the students which help them to excel in their respective fields.

It has an array of courses for students to choose from and study such as Electrical and Electronics Engineering, Electronic devices, Power Systems, Electrical Machines, Control Systems Microcontroller, electrical circuit analysis, Power systems operations and controlling, Digital Electronics, Digital Signal Processing, Digital Control Systems, Electro Static Field, Utilization Of Electrical Energy.. and More.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as electronics, control system, networking, etc. that assures their placement in renowned multinational companies.

About the Program

A photovoltaic (PV) system is a type of solar energy system that converts sunlight directly into electricity using solar panels. The program on photovoltaic systems involves the design, installation, and maintenance of solar energy systems that use photovoltaic technology.

Objectives of the Program:

- To learn about Photovoltaic System.
- To know about components used in PV system.
- To learn about Construction of PV system.
- To learn about Working of PV System.
- To learn Grid integration and Grid synchronisati

PROGRAM REPORT

Name of the Event: A Two Week Certificate Program on "SOLAR PHOTOVOLTAIC SYSTEM"

Date: 06.09.2017 to 19.09.2017

Resource Person: Dr. D. Ravi Kishore.

Professor EEE Dept. GIET Engineering College.

Email.id: ravikishored@giet.ac.in

Contact number: 6301993262

Name of the Coordinator: Mr .L. Yogi

Number of students attended: 20

Venue: Seminar Hall CV RAMAN Block, GIET Engineering college.

Objectives of the Program:

1. To learn about Phovoltaic System.
2. To know about components used in PV system .
4. To learn about Construction of PV system.
5. To learn about Working of PV System.
6. To learn Grid integration and Grid synchronisation.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Topics to be covered:

1. Fundamental concept of Solar PV generation and its modelling & components design.
2. Maximum Power Point Tracking Techniques.
3. Grid integration of solar PV system including power quality and reactive power control.
4. Grid synchronization techniques for grid-connected power converters and mitigation of power quality problems.
5. Demonstration of Solar PV simulator and its design.

.Outcomes of the Program:

At the end of this course, the student will be able to

1. Understand about photovoltaic system.
2. Identify the different types of PV system.
3. Apply the concepts in related fields.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The Department of Civil Engineering pulls out all stops to create outstanding engineers - with advanced teaching techniques and learning aids for undergraduate students. CIVIL ENGINEERING DEPARTMENT of the institute started functioning from the year 2008. Students are not only made experts in technical aspects but also in interpersonal skills, a vital ingredient to excel in the fast paced world..

To conduct Training camps and Seminars for the students to accustom them with the present modern technologies. To Create Research & Development wing to improve innovative skills of student community.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as modern technologies, Create Research & Development, etc. that assures their placement in renowned multinational companies.

About the Program

ETABS Software, abbreviated for “**Extended Three-dimensional Analysis of Building Systems**” is a 3D integrated software that is used for structural analysis and design purposes in areas like civil engineering. It integrates every small aspect of engineering designing while also involving the production of schematic sketches.

principal_t9@yahoo.co.in

Date:22.09.2017

PROGRAM REPORT

Name of the Program : "A Two-Week Certificate Program on E Tabs Software"
Date/Duration : 07.09.2017 to 20.09.2017 (Two Week).
Resource Person : Mr. AMN Kashyap,
Head of the Department,
CE, GIET ENGINEERING COLLEGE.
Rajahmundry, A.P

Phone:9491728149

Mail:kashyap.gec@giet.ac.in

Name of the Coordinator : Mr.V Suresh, Assistant Professor, CE.

No of the Participants : 37

Program Objective :

- Learn basic to advanced E TABS
- The best courses for building a great profiles for higher study and jobs
- Participants can apply for LOR after the program
- Allows to draw and edit 2D and 3D designs
- Minimize human errors and helps the users to bring imagination to animation.

Topics Covered

:The following topics are covered

- Introduction to E TABS
- Introduction to 3D and 3D solids
- Extrude, loft, press
- Dynamic UCS,selection plane

Program Outcome

:

- .Easy to zoom in and zoom out and pan to other areas of drawing
- Easy to draw objects accurately with various options to set exact size
- Can see a 3D image of drawing and can rotate it to all angles.
- Identify and solve any problems with the design before production.

ENGINEERING
GIET ENGINEERING COLLEGE**
(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC
NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The department of Electronics & Communication Engineering was established in the year 2005 with an initial intake of 60 students. The undergraduate program of the department of Electronics and Communication imparts solid technical background and research capabilities among the students which help them to excel in their respective fields.

It has an array of courses for students to choose from and study such as electronics, electronic hardware and software, communications, radio and television, solid state device, microelectronics, VLSI, and other circuits & systems used in varying applications ranging from simple circuits to sophisticated digital satellite systems, GSM & CDMA technology, speech processing & computer development.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as electronics, communication, control system, networking, etc. that assures their placement in renowned multinational companies.

About the Program

Networking devices includes a broad range of equipment which can be classified as core network components which interconnect other network components, hybrid components which can be found in the core or border of a network and hardware or software components which typically sit on the connection point of different networks.

Taking a wider view, mobile phones, tablet computers and devices associated with the internet of things may also be considered networking hardware. As technology advances and IP-based networks are integrated into building infrastructure and household utilities, network hardware will become an ambiguous term owing to the vastly increasing number of network capable endpoints.

Date: 26.07.2017

PROGRAM REPORT

Name of the Event: "A Two Week Certificate Program on Computer Hardware and Networking"

Date: 11.09.2017 to 23.09.2017

Resource Person: Mr. K.NAGA RAJU

Assistant Professor, CSE DEPT, GIET Engineering college

Email: idnagarajuk@giet.ac.in

Contact number: 9989442311

Name of the Coordinator: Mr. B. Krishna

Number of students attended: 49

Venue: Computer Lab-1, Sir Arthur Cotton block, GIET Engineering college

Objectives of the Program:

Introduction to the Linux and Windows operating system, this workshop is perfectly suited for administrators, developers or power-users planning to use Linux and Windows in their environment. The workshop will also be very handy for decision makers evaluating Linux and Windows for its IT infrastructure.

The labs and concepts are independent of a particular distribution of Operating system and apply to other flavours of UNIX as well. We use a recent Operating systems distribution for all labs.

Topics to be covered:

- Fundamentals of Information technology & OS
- Basics of Electronics and Micro processors
- PC Assembling and Troubleshooting
- Windows 2003 server Administration
- Linux Administration

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

- Database Administration

Outcomes of the Program:

- At the end of this course, the student will be able to
 1. Understand the PC Assembling and Troubleshooting.
 2. Understanding Windows 2003 server Administration.
 3. Understand the Linux Administration.

B. Krishna.

GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

Mechanical engineering is an evergreen discipline that involved in the application of basic science and mathematical principles to design, analyze, manufacture, and maintenance of mechanical systems. Mechanical engineers work across a huge variety of industries. Mechanical engineers are in the design, manufacture and maintenance of things ranging from a small safety pin to a giant ship. It is one of the oldest branches of engineering, it is also one that continues to change and grow with the advancements in technology making it a vibrant and exciting career path even to this day. The total number of engineers employed in the U.S. in 2015 was roughly 1.6 million. Of these 17.28% were mechanical engineers, the largest discipline by size.

The department is equipped with academically sound and experienced faculty specialized in various areas of mechanical engineering. The department is provided with state of are laboratories and software. In addition to the regular curriculum we conduct programs like add-on training programs on drafting, solid modelling, etc., Industrial visits, Seminars, Hands-on workshops on latest technologies to enhance the skills of the students to meet the demands of the industry.

About the Program

CATIA is a multi platform 3D software suite developed by Dassault Systèmes, encompassing CAD, CAM as well as CAE. Dassault is a French engineering giant active in the field of aviation, 3D design, 3D digital mock-ups, and product lifecycle management (PLM) software. CATIA is a solid modelling tool that unites the 3D parametric features with 2D tools and also addresses every design-to-manufacturing process. In addition to creating solid models and assemblies, CATIA also provides generating orthographic, section, auxiliary, isometric or detailed 2D drawing views.

PROGRAM REPORT

Name of the Program : "A Two-Week Certificate Program on Product design and drafting by CATIA V5 programming"
Date/Duration : 11.09.2017 to 23.09.2017 (Two Week).
Resource Person : Mr.M.V.V,Ganesh,
Assistbnat Professor
MECH, GIET ENGINEERING COLLEGE,
Rajahmundry, A.P
Phone:9989103241
Mail:malisettyvvganesh@gmail.com
Name of the Coordinator : Ms.P.Rajitha, Assistant Professor, MECH
No of the Participants : 49
Program Objective : Digital mock-up navigator
• Digital mock-up space analysis
• Digital mock-up optimizer
• Digital mock-up kinematic
• Digital mock-up fitting

Topics Covered :The following topics are covered
• Getting started with CATIA V5
• Surface based features
• Boolean operations
• Sheet metal design module
• Drafting module

Program Outcome :
• Creating and editing sketches
• Creating sketches- based features
• Creating dressup features

**A Two Week Add on Program on
“Hypermesh Software”
07.12.2017 to 20.12.2017**

**Organized
by
DEPARTMENT OF
MECHANICAL ENGINEERING
GIET ENGINEERING COLLEGE**
(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC
NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

Mechanical engineering is an evergreen discipline that involved in the application of basic science and mathematical principles to design, analyze, manufacture, and maintenance of mechanical systems. Mechanical engineers work across a huge variety of industries. Mechanical engineers are in the design, manufacture and maintenance of things ranging from a small safety pin to a giant ship. It is one of the oldest branches of engineering, it is also one that continues to change and grow with the advancements in technology making it a vibrant and exciting career path even to this day. The total number of engineers employed in the U.S. in 2015 was roughly 1.6 million. Of these 17.28% were mechanical engineers, the largest discipline by size.

The department is equipped with academically sound and experienced faculty specialized in various areas of mechanical engineering. The department is provided with state of are laboratories and software. In addition to the regular curriculum we conduct programs like add-on training programs on drafting, solid modelling, etc., Industrial visits, Seminars, Hands-on workshops on latest technologies to enhance the skills of the students to meet the demands of the industry.

About the Program

Hypermesh is a CAE software which comes in after a model has been developed in any CAD software. One should know it is an integral part of PLM (Product life cycle management) where the focus is to prepare the model to see how should it behave in a real life environment or simulation in other words. Now cae software's are three types mainly preprocessing, solving, postprocessing. Hypermesh is a preprocessing software where you divide the model into no. Of elements and nodes for a solver to apply the mathematical functions on it. If you read FEM OR FEA you would know the underlying theory behind the practice..

Date:23.12.2017

PROGRAM REPORT

Name of the Program : “A Two-Week Certificate Program on HYPERMESH SOFTWARE”

Date/Duration : 07.12.2017 to 20.12.2017 (Two Week).

Resource Person : **Mr.P.Rajitha,**
Assistant Professor,
MECH, GIET ENGINEERING COLLEGE,
Rajahmundry, A.P

Phone:8500814556

Mail:rajithapala6@gmail.com

Name of the Coordinator : Mr.M.V.V.Ganesh, Assistant Professor, MECH.

No of the Participants : 59

Program Objective :

- Introduction Altair
- Automated meshing in Altair Hyperworks
- Automated meshing in Altair Hyperworks –Batch mesher
- Automated meshing in Altair Hyperworks-Rebuild
- Automated meshing in Altair Hyperworks-Midmesh
- Automated meshing in Altair Hyperworks–Replicate

Topics Covered :The following topics are covered

- Efficient modelbuild:Automatic Mesh Generation
- HyperWorks for Aerospace
- Digital Approach to Industrial Machinery Design
- Transition to New User Experience
- Altair HyperMesh-Mesh Controls.

Program Outcome

- Accelerate Your Product Development
- Faster Invention
- Simpler Automation
- Detailed Interaction
- Multi choice, One User Experience

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram , in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The department of Electronics & Communication Engineering was established in the year 2005 with an initial intake of 60 students. The undergraduate program of the department of Electronics and Communication imparts solid technical background and research capabilities among the students which help them to excel in their respective fields.

It has an array of courses for students to choose from and study such as electronics, electronic hardware and software, communications, radio and television, solid state device, microelectronics, VLSI, and other circuits & systems used in varying applications ranging from simple circuits to sophisticated digital satellite systems, GSM & CDMA technology, speech processing & computer development.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as electronics, communication, control system, networking, etc. that assures their placement in renowned multinational companies.

About the Program

Apparatus and techniques may be described qualitatively as "microwave" when the wavelengths of signals are roughly the same as the dimensions of the equipment, so that lumped-element circuit theory is inaccurate. As a consequence, practical microwave technique tends to move away from the discrete resistors, capacitors, and inductors used with lower frequency radio waves. Open-wire and coaxial transmission lines give way to waveguides, and lumped-element tuned circuits are replaced by cavity resonators or resonant lines. Effects of reflection, polarization, scattering, diffraction, and atmospheric absorption usually associated with visible light are of practical significance in the study of microwave propagation.

Date: 26.12.2017

PROGRAM REPORT

Name of the Event: "A Two Week Certificate Program on Microwave And Transmission Lines "

Date: 07.12.2017 to 20.12.2017

Resource Person: Mr. T CHANDRA SEKHAR

Associate Professor ECE, GIET Engineering college

Email.id: tchandrasedkharece@giet.ac.in

Contact number: 9949806418

Name of the Coordinator: Ms. K VIJAY KUMARI

Number of students attended: 87

Venue: Seminar hall, CV Raman block, GIET Engineering college

Objectives of the Program:

The workshop will include sessions focused on technologies, techniques and applications with intent to foster the exchange of knowledge and ideas between experts.

Topics to be covered:

Review fundamental RF components

- Components power rating.
- Percentage of transmission media designed in power rating of RF.
- Calculation tools of VSWR.
- Power rating for coaxial and waveguide transmission line.

Outcomes of the Program:

- At the end of this course, the student will be able to
 1. Understand the power ratings of RF and Microwave components.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

2. Calculated the Parameters.
3. Understand the working of Microwave and Transmission lines.

“A Two-Week Certificate Program on LAND SURVEYING USING TOTAL STATION”
11.12.2017 to 23.12.2017

Organized by

DEPARTMENT OF CIVIL ENGINEERING

GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The Department of Civil Engineering pulls out all stops to create outstanding engineers - with advanced teaching techniques and learning aids for undergraduate students. CIVIL ENGINEERING DEPARTMENT of the institute started functioning from the year 2008. Students are not only made experts in technical aspects but also in interpersonal skills, a vital ingredient to excel in the fast paced world..

To conduct Training camps and Seminars for the students to accustom them with the present modern technologies. To Create Research & Development wing to improve innovative skills of student community.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as modern technologies, Create Research & Development, etc. that assures their placement in renowned multinational companies.

About the Program

The **Total station** is designed for measuring of slant distances, horizontal and vertical angles and elevations in topographic and geodetic works, tachometric surveys, as well as for solution of application geodetic tasks. The measurement results can be recorded into the internal memory and transferred to a personal computer interface.

Student benefit from the many features of total stations, such as data capturing and analysis. These features allow businesses to take advantage of flawless and accurate survey collecting, providing significant cost savings while increasing the likelihood of getting accurate information

Date:26.12.2017

PROGRAM REPORT

Name of the Program : “A Two-Week Certificate Program on LAND SURVEYING USING TOTAL STATION”

Date/Duration : 11.12.2017 to 23.12.2017 (Two Week).

Resource Person : Mr.N Nageswara Reddy,
Assistant Professor,
CE, GIET ENGINEERING COLLEGE.
Rajahmundry, A.P

Phone:9550843890

Mail:redy.gec@giet.ac.in

Name of the Coordinator : Mr.AMN Kashyap, Assistant Professor, CE.

No of the Participants : 27

Program Objective :

- Learn basic to advanced TOTAL STATION
- The best courses for building a great profiles for higher study and jobs
- Participants can apply for LOR after the program
- Allows to draw and plot of surveys
- Minimize human errors and helps the users to bring imagination to animation.

Topics Covered

:The following topics are covered

- Introduction to TOTAL STATION
- Introduction to Areas and Heights
- Extrude, loft, press
- Dynamic UCS,selection plane

TEL: 91-883-6577446, 9133833322, - <http://www.gietec.ac.in> Email:
principal_t9@yahoo.co.in

Program Outcome :

- Students have understood to survey the different types of lands.
- Students have learnt the techniques of Total station and its applications Can see a 3D image of drawing and can rotate it to all angles.

They performed different methods of surveying by using Total station

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members. apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The department of Electrical and Electronics Engineering was established in the year 2009 with an initial intake of 60 students. The UG program of the department of Electrical and Electronics Engineering imparts solid technical background and research capabilities among the students which help them to excel in their respective fields.

It has an array of courses for students to choose from and study such as Electrical and Electronics Engineering, Electronic devices, Power Systems, Electrical Machines, Control Systems Microcontroller, electrical circuit analysis, Power systems operations and controlling, Digital Electronics, Digital Signal Processing, Digital Control Systems, Electro Static Field, Utilization Of Electrical Energy.. and More.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for topics such as electronics, control system, networking, etc. that assures their placement in renowned multinational companies.

About the Program

Java is a widely-used programming language known for its simplicity, reliability, and platform independence. It was first released in 1995 and has since become one of the most popular programming languages in the world. Java is an object-oriented language that makes use of objects to perform specific tasks.

Java has a rich standard library that simplifies common programming tasks such as input/output, networking, databases, and user interfaces. There are also many third-party libraries and frameworks available, such as Spring and Hibernate, which simplify web development and database integration.

This workshop enables the learners to identify various implications of JAVA programming w.r.t core as well as software field.

PROGRAM REPORT

Name of the Event: A Two Week Certificate Program on "JAVA PROGRAMMING"

Date: 14.12.2017 to 28.12.2017

Resource Person: Mr. P. Sasi Kumar

Assistant Professor CSE Dept. GIET Engineering College.

Email.id: psasikumar@gmail.com

Contact number: 9951508555

Name of the Coordinator: Mr .MN. Saidulla

Number of students attended: 47

Venue: Online Lab, Sir Arthur Cotton Block, GIET Engineering college.

Objectives of the Program:

1. To introduce the concept of Java.
2. To learn about objects and classes.
3. To know about OOPS in Java.
4. To learn about Threads in Java.
5. To learn about Generics and Java IO and Java collection Frame work.
6. To know about AWT and Applets and JDBC.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Topics to be covered:

1. Basics of Java.
2. Objects and Classes in Java .
3. OOPs in Java.
4. Threads and Multi Threads in Java.
5. Java generics, Java IO and Collection Framework in Java
6. AWT applets and JDBC.

Outcomes of the Program:

At the end of this course, the student will be able to

1. Understand the overview of Java
2. Apply to write a Program in Java.
3. Understand the advantages and applications of Java.

Date: 18.12.2017

PROGRAM REPORT

Name of the Program : "A Two-Week Certificate Program On Python Programming".

Date/Duration : 04.12.2017 to 16.12.2017 (Two Week).

Resource Person : Dr. Y. Venkat,
Professor, HOD, CSE.
Phone: 8367456787
Mail: venkatgy@giet.ac.in

Name of the Coordinator : Mr. P. Sasi Kumar,
Assistant Professor, CSE.

No of the Participants : 57

Program Objective :

- To acquire programming skills in core Python.
- To acquire Object Oriented Skills in Python
- To develop the skill of designing Graphical user Interfaces in Python
- To develop the ability to write database applications in Python

Program Outcome :

- Apply the basics of programming in the Python language.
- Solve coding tasks related conditional execution, loops
- Solve coding tasks related to the fundamental notions and techniques used in object-oriented programming.
- Develop essential programming skills in Computer programming concepts.

DEPARTMENT OF
MANAGEMENT STUDIES

GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state-of-the-art facilities and a highly qualified and knowledgeable pool of staff members, apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via existing centres of excellence. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The primary objectives of the management department are to examine the data, refute the logic, challenge the conventional wisdom, and rethink business and management, which are prerequisites for business leaders and managers.

The department uses a variety of teaching methods including the case study approach, LPA (Learn, Practice, and Apply), activity-based learning (ABL), industrial visits, guest lectures, seminars, business fests, community activities, and more. There are scheduled interactive sessions with business professionals and entrepreneurs where insights on the theoretical underpinnings of modern entrepreneurship and innovation as well as honed business experience are shared.

The quality teaching and guidance by highly experienced faculty members provide the best quality educational experience to the students. The regular interaction between students and faculty helps a student to apply theoretical knowledge to real-life situations. Moreover, the faculty members organize special sessions for students, can help the aspirers to become a successful entrepreneur and corporate leaders of the business.

About the Program

Emergency response is Handle emergencies and incidents in the workplace like a Pro! Join Emergency Response and incident investigation course to minimize risks and ensure safety. Incident investigations that focus on identifying and correcting root causes, not on finding fault or blame, also improve workplace morale.

The main objective of the program is Learn the fundamentals of emergency response and Evaluate any Emergency Management Plan/procedure and recommend actions to improve it. At the end of the program students are Know with Brain Storming – Effective meeting management.

PROGRAM REPORT

- Name of the Program** : "A Certificate Program on Emergency response and Incident Investigation for Supervisors and Managers"
- Date/Duration** : 13-11-2017 to 25-11-2017 (Two Week).
- Resource Person** : Dr.P.R.K.Raju, Professor,
Director of DMS
GIET (Autonomous),
Phone: 7799772599
Mail:prkraj@gmail.com
- Name of the Coordinator:** Mr.K.Satyanaraya, Associate Professor, MBA Dept.
- No of the Participants** : 55

Program Objectives

Participants in the Mastering Achieving Customer Service Excellence training course will be able to:

- Learn the fundamentals of emergency response
- Describe the minimum resources required for managing responses to an emergency situation
- Coordinate with other emergency response team members
- Evaluate any Emergency Management Plan/procedure and recommend actions to improve it
- Describe the main components of an Emergency plan
- Explain the Incident Command Structure, ICS
- Describe the roles/responsibilities/competency of key personnel of an ICS
- How to meet regulatory requirements for incident investigations.
- How to develop and implement a structured program
- How to initiate and conduct an investigation

Topics Covered

- Introduction to HSE Management Systems
- Integrating risk assessment within Risk Management
- The task-based approach to risk assessment
- Hazard Identification
- Brain Storming – Effective meeting management
- Occupational Health and Safety
- Accident investigation techniques I: Fault Tree Analysis 'FTA'
- Elements of emergency planning
- Policy and Planning for emergency preparedness and response
- Techniques for improving safety culture

Program Outcomes

At the end of the day students able to

- Understand The task-based approach to risk assessment
- Know Brain Storming – Effective meeting management
- Understand Occupational Health and Safety
- Follow Risk Assessment Techniques
- Understand Accident investigation techniques I: Fault Tree Analysis 'FTA'
- Control of Major Accident Hazards Codes of Practice
- Take Measures for improvements in safety culture
