5th March 2018

Organised

by

DEPARTMENT OF

ELECTRICAL AND ELECTRONICS ENGINEERING

GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

Principal

GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City
RAJAHMUNDRY-533 296

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members, apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

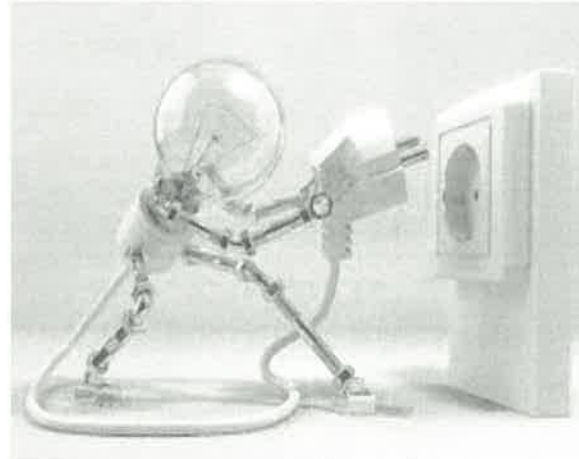

About the Department

Department of ELECTRICAL AND ELECTRONICS Engineering was started in the year 2009. It is offering graduate program B.TECH. Department has well qualified and dedicated faculty members.

The Department provides all resources like laboratories, library, and classrooms to students for improving their knowledge and skills.

The department offers seminars, workshops, conferences and expert lectures on the recent advances and educational technologies related to departmental practices on a regular basis.

The Department has produced a good number of graduates well settled in various types of industries and research organizations. The department is also receiving very good support from its alumni in all aspects.

About the Program

Cyber Security is becoming a severe issue for individuals, enterprises, and governments alike. In a world where everything is on the internet, from cute kitten videos and our travel diaries to our credit card information, ensuring that our data remains safe is one of the biggest challenges of Cyber Security.

This seminar gives the knowledge about cyber security-issues and challenge. The participant have knowledge on cyber crimes and how to stay avoid from those things and how to protect themselves. The participant got knowledge of challenges in cyber security.

PROGRAM REPORT

Program Name : Seminar on "Cyber Security – Issues and challenges"
Date of activity : 05.03.2018
Venue : S-03, C.V .Raman Block
Organized by : Department of Electrical & Electronics Engineering
Resource Person : Mrs.CH. GOURI, Assistant professor, Dr.Paul Raj
Engineering College, Badrachalam, 8297122250, ksgouri487@gmail.com
Number of Participants : 48

Description:

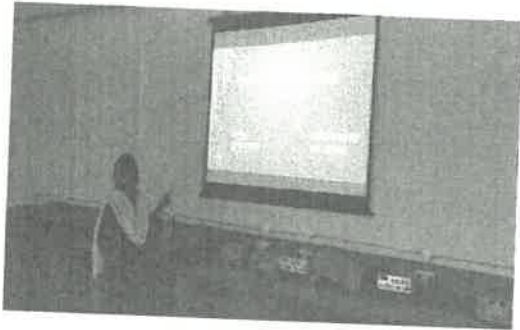

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled Seminar on "Cyber Security – Issues and challenges" on 05.03.2018. Mrs.CH. GOURI, Assistant professor, Dr.Paul Raj Engineering College, Badrachalam acted as a resource person for this Seminar. Students have learnt in detail about Cyber Security – Issues and challenges areas and required parameters to consider while publishing papers in different innovative teaching methods.

The Seminar on "Cyber Security – Issues and challenges" is a program aimed at discussing and analyzing the current and emerging threats to cyber security and exploring ways to address these challenges. The program may cover various aspects of cyber security, including data protection, network security, cloud security, mobile security, and cybercrime.

The seminar may be conducted by experts and scholars in the field of cyber security, and it may be attended by professionals, policymakers, students, and researchers interested in cyber security. The program may include presentations,

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

panel discussions, case studies, and interactive sessions, where participants can engage in discussions and share their experiences and perspectives.

OUTCOMES

1. **Enhancing knowledge:** Participants can gain a deeper understanding of cyber security threats, vulnerabilities, and risks, as well as the latest technologies and best practices to protect against them. They can also learn about the legal and regulatory frameworks related to cyber security and how they can comply with them.
2. **Networking:** The seminar provides an opportunity for participants to network and collaborate with experts and peers in the field of cyber security. They can exchange ideas, share experiences, and build professional relationships.
3. **Policy implications:** The seminar can help policymakers and regulators understand the challenges and opportunities related to cyber security. They can explore ways to improve the legal and institutional framework for cyber security and promote awareness and education among the public and private sectors.
4. **Business implications:** The seminar can benefit businesses by helping them understand the risks and opportunities related to cyber security. They can learn about the latest technologies and best practices to protect their data, networks, and operations from cyber threats, as well as the legal and regulatory requirements they need to comply with.

A handwritten signature in green ink, appearing to be 'Dus' or similar, written over a horizontal line.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

5. **Career advancement:** The seminar can benefit professionals in the field of cyber security by enhancing their skills, knowledge, and professional network. They can leverage the learning and networking opportunities to advance their careers in the field.

Overall, the Seminar on "Cyber Security – Issues and challenges" is a valuable program that can contribute to the growth and development of the field of cyber security. It can help participants gain a comprehensive understanding of cyber security threats and risks, network with experts and peers, and explore ways to protect against cyber threats and promote a secure and resilient cyber ecosystem.

Campus, Rajamahendravaram, AP.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

About the Institute

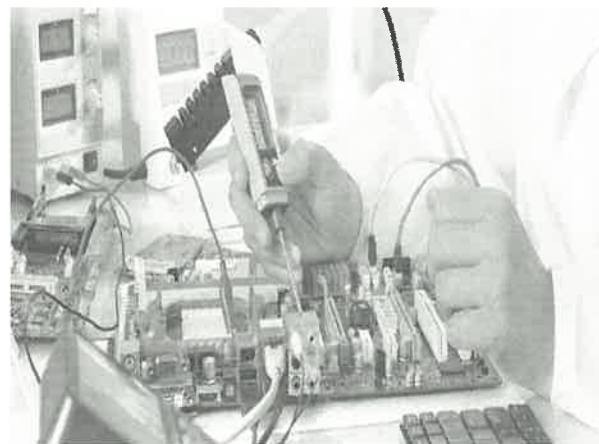

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members, apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

About the Department

The department of Electronics & Communication Engineering was established in the year 2005 with an initial intake of 60 students. The undergraduate program of the department of Electronics and Communication imparts solid technical background and research capabilities among the students which help them to excel in their respective fields. It has an array of courses for students to choose from and study such as electronics, electronic hardware and software, communications, radio and television, solid-state devices, microelectronics, VLSI, and other circuits & systems used in varying applications ranging from simple circuits to sophisticated digital satellite systems, GSM & CDMA technology, speech processing & computer.

About the Program

Entrepreneurship can be considered a national asset, and entrepreneurs are the drivers of that asset for any country. Entrepreneurship plays an important role in changing society, so it makes sense to cultivate, motivate, and remunerate this greatest asset to the greatest extent possible.

This seminar gives the knowledge about how the entrepreneurs helps the society and country economy and how the entrepreneurs supports the society.

PROGRAM REPORT

Program Name : A Seminar On How Entrepreneurs Support to Society
Date of activity : 26.02.2018
Venue : Class Room
Organized by : Dept of ECE
Resource Person : Mrs.K Esther Rajathy, Assistant Professor, Rajamahendri Institute of Engineering and Technology
Number of Participants : 55

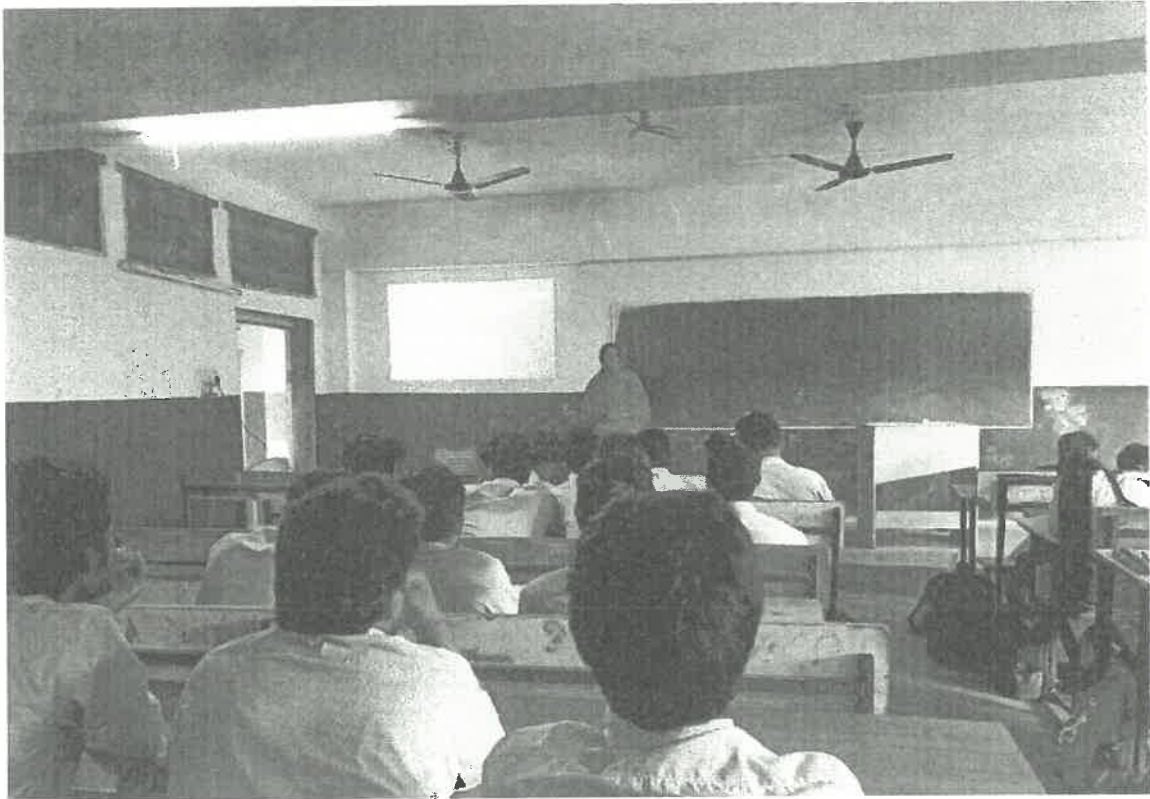

Description about Program

This seminar is useful for B.Tech & MBA students. The resource person: Mrs.K Esther Rajathy, Assistant Professor, Rajamahendri Institute of Engineering and Technology. She is good at motivating the students regarding entrepreneur development and giving a brief insight. She has delivered in a very enthusiastic way. This is a very excellent topic and all the participants had given good feedback.

A seminar on "How Entrepreneurs Support to Society" is an event that aims to explore the role of entrepreneurs in creating a positive impact on society. The seminar can bring together entrepreneurs, social activists, policymakers, and experts to discuss the ways in which entrepreneurs can contribute to social and economic development.

The seminar can cover a range of topics, including social entrepreneurship, corporate social responsibility, sustainable business practices, and community development. Through keynote speeches, panel discussions, and interactive workshops, the seminar can provide a platform for participants to share their experiences, insights, and ideas on how entrepreneurs can contribute to society.

NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Principal
GIET ENGINEERING COLLEGE
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Outcomes of the Event:

1. **Greater awareness and understanding of the role of entrepreneurs in society:** Through discussions and presentations, participants can gain a deeper understanding of the ways in which entrepreneurs can contribute to social and economic development.
2. **Development of strategies for social impact:** Participants can discuss and develop strategies for social impact, including the promotion of sustainable business practices, community development, and corporate social responsibility.
3. **Networking opportunities:** Seminars provide an opportunity for participants to connect with other entrepreneurs, social activists, and policymakers, expanding their network and building new relationships.
4. **Improved understanding of social issues:** Through discussions and presentations, participants can gain a better understanding of social issues and challenges faced by communities, leading to greater empathy and awareness.
5. **Inspiration for entrepreneurship:** The seminar can inspire participants to pursue entrepreneurship as a means of creating positive social impact and contributing to society.
6. **Advocacy for policy change:** The seminar can serve as a platform to advocate for policy change and reforms that promote entrepreneurship and social impact, leading to a more supportive environment for entrepreneurs.

Overall, a seminar on "How Entrepreneurs Support to Society" can provide a valuable opportunity for entrepreneurs, social activists, policymakers, and experts to come together, share ideas, and develop strategies for creating positive social impact.

ABOUT COLLEGE

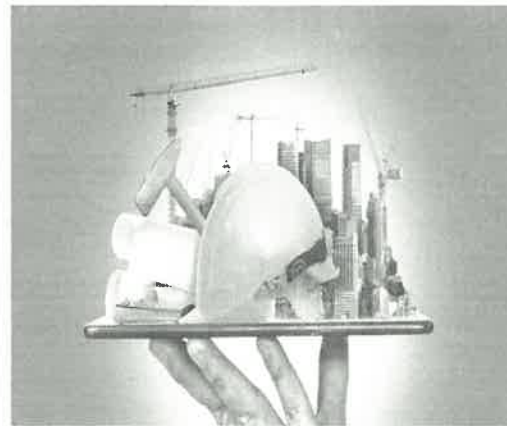

GIET Engineering College is an epitome of excellence in every aspect. Approved by AICTE and Affiliated to JNTU, Kakinada (JNTUK) and accredited by NAAC, the institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculum the institute offers an entire educational experience. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

ABOUT DEPARTMENT

Department of Civil Engineering was started in the year 2007. The Civil Engineering department at GIET Engineering College is committed to providing a high-quality education that prepares students for successful careers in the civil engineering field. The department has a team of experienced and dedicated faculty members who use innovative teaching methods to help students gain a thorough understanding of the subject matter

Graduates from the Civil Engineering department at GIET Engineering College have a wide range of career opportunities, including working in the construction industry, government agencies, consulting firms, and research organizations

ABOUT PROGRAM

Research methodology is a way of explaining how a researcher intends to carry out their research. GIET ENGINEERING COLLEGE conducting this 1-day Workshop Program on “Research Process for Doctoral Research” to demonstrate It’s a logical, systematic plan to resolve a research problem. A methodology details a researcher's approach to the research to ensure reliable, valid results that address their aims and objectives. It encompasses what data they're going to collect and where from, as well as how it's being collected and analyzed.

PROGRAM REPORT

Program Name : A Seminar on "Research Process for Doctoral Research"
Date of activity : 26.02.2018
Venue : Seminar Hall, C.V .Raman Block
Organized by : Department of Civil Engineering
Resource Person : Ms.P.LATHA
Assistant Professor, KIET – WOMENS
9505894116
perabathulalatha@gmail.com
Number of Participants : 45

Description about program:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled "Research Process for Doctoral Research", Ms.P.LATHA, Assistant Professor, and KIET – WOMEN'S acted as a resource person for this Seminar. Faculty and students have learnt in detail about future needs in different research areas and required parameters to consider while publishing papers in reputed journals and also different innovative teaching methods.

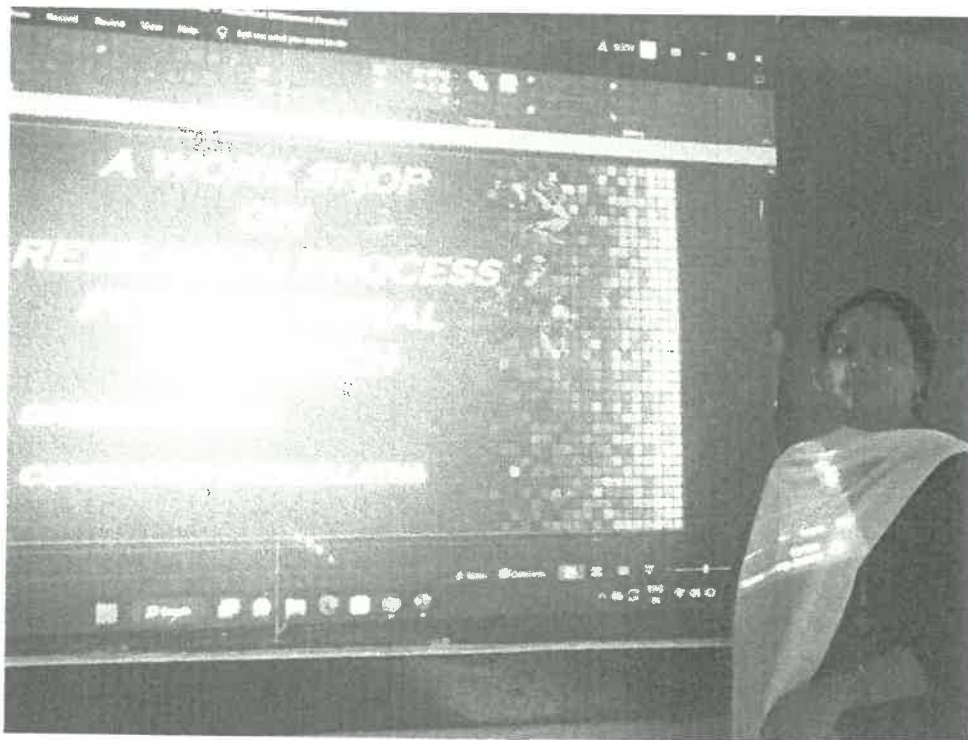

A Seminar on "Research Process for Doctoral Research" is an educational program that is designed to provide participants with an understanding of the research process and how it can be applied to doctoral research. The seminar is aimed at doctoral students, researchers, academics, and anyone interested in understanding the research process.

During the seminar, participants will learn about the different stages of the research process, including research design, data collection, data analysis, and

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

research dissemination. Additionally, they will also learn about the ethical considerations involved in conducting research and how to write a successful doctoral thesis.

The seminar is typically conducted over several days and is led by experienced professionals in the field of research. The program may include lectures, case studies, interactive sessions, and group discussions.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Outcomes of the event

1. Improved understanding of the research process and how it can be applied to doctoral research.
2. Enhanced skills in research design, data collection, data analysis, and research dissemination.
3. Increased knowledge of the ethical considerations involved in conducting research.
4. Improved ability to write a successful doctoral thesis.
5. Increased networking opportunities with other researchers in the field of doctoral research.

Overall, the seminar is designed to provide participants with the knowledge and skills needed to successfully navigate the research process and to complete a successful doctoral thesis.

A One Day Seminar
On
“PATENT DATABASES”

4th Jan 2018

Organised
by
DEPARTMENT OF
COMPUTER SCIENCE AND ENGINEERING
GIET ENGINEERING COLLEGE
(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTU, Kakinada | Accredited by NAAC
NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members. apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

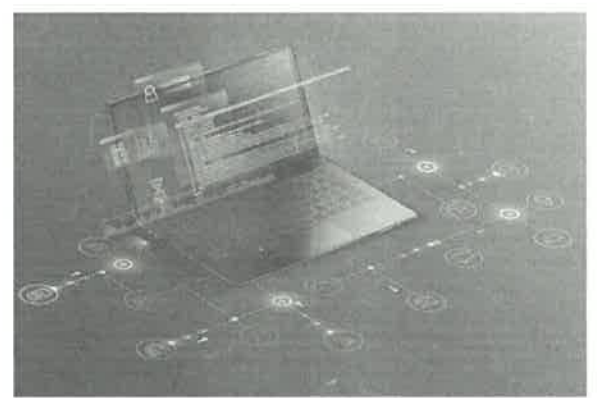

About the Department

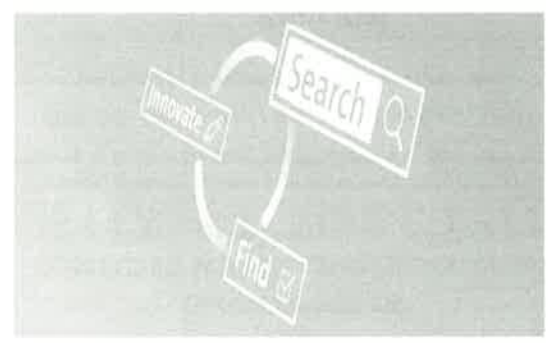

Department of COMPUTER SCIENCE AND ENGINEERING started in the year of 2005. It is offering graduate program B.Tech. Department has well qualified and dedicated faculty members. Department has produced good number of graduates well settled in industry and some are also involved in research activities.

The Department provides all resources like laboratories, library, and classrooms to students for improving their knowledge and skills. The laboratories of the department are well equipped with sophisticated equipment to fully satisfy the training needs of the students as well as the consultancy needs of the department.

Department has produced good number graduates well settled in industry and some are also involved in research activities

About the Program

The goal of the seminar is to foster research and development of the technology for patent data base. This seminar focus on the patent search and retrieval by providing a forum in which researchers and practitioners from relevant communities can share their ideas, approaches, perspectives, and experiences from their work in progress.

The participant of this seminar gets the knowledge about patent data base and how to search for a patent and how to apply for a patent.

PROGRAM REPORT

Program Name : Seminar on "Patent databases"
Date of activity : 04.01.2018
Venue : F-02, C.V .Raman Block
Organized by : Department of Computer Science & Engineering
Resource Person : Mr.B.LENIN BABU, Asst.Prof, BVCR Engineering College, Rajahmundry. 6397122250, leninbabu1204@gmail.com
Number of Participants 99

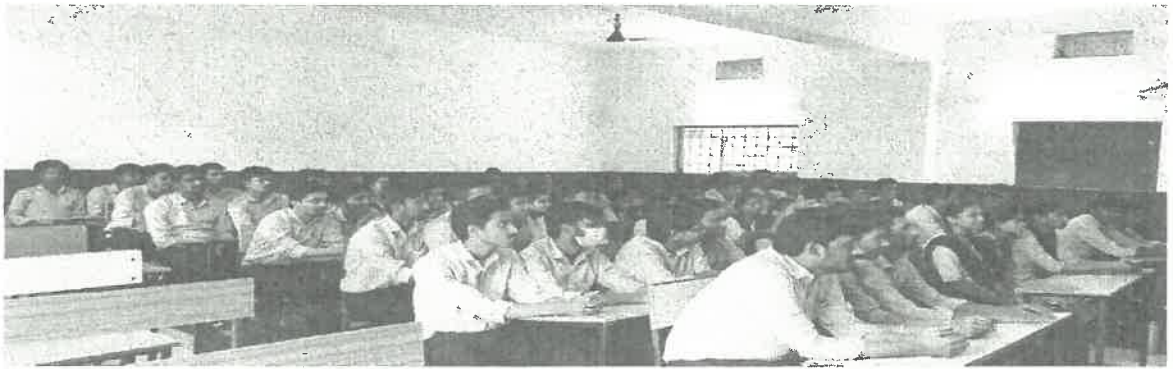

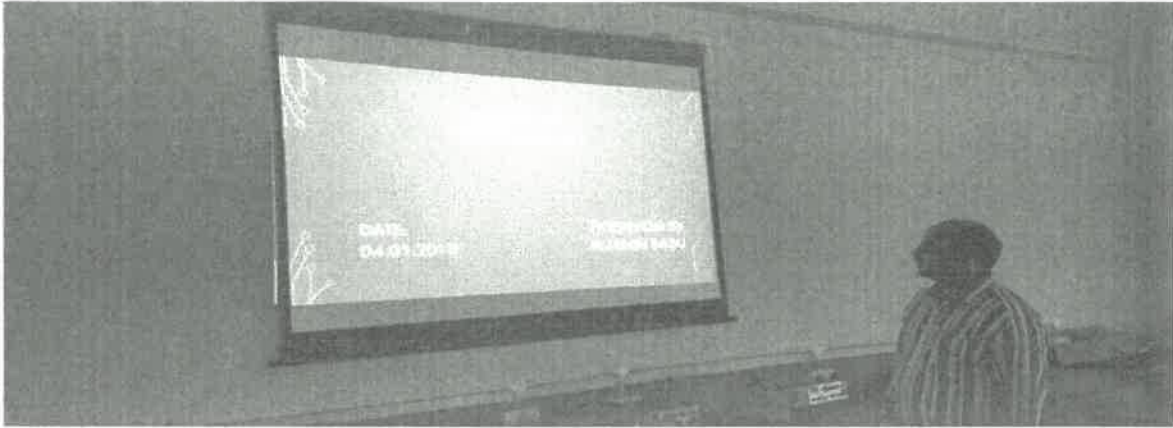

Description:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academic titled "Seminar" "Patent bases" on 04.01.2018. Mr. B. LENIN BABU Asst. Prof, BVCR Engineering College, Rajahmundry, acted as a resource person for this Workshop. Students have learnt in detail about "Patent databases" areas and required parameters to consider while publishing papers in different innovative teaching methods.

The Seminar on "Patent databases" is a program aimed at discussing and analyzing the various patent databases available and exploring their features, functionalities, and applications. The program may cover various aspects related to patent databases, including their structure, content, search capabilities, and data analysis tools.

The seminar may be conducted by experts and scholars in the field of patent databases, and it may be attended by professionals, policymakers, students, and researchers interested in patent databases. The program may include presentations, demonstrations, case studies, and interactive sessions, where participants can engage in discussions and share their experiences and perspectives.

OUTCOMES

Enhancing knowledge: Participants can gain a deeper understanding of the various patent databases available and their features, functionalities, and applications. They can learn about the latest developments and trends in the field of patent databases and how they can use them in their work.

Networking: The seminar provides an opportunity for participants to network and collaborate with experts and peers in the field of patent databases. They can exchange ideas, share experiences, and build professional relationships.

Applications: The seminar can help participants explore the various applications of patent databases, including patentability searches, freedom-to-operate analysis, competitive intelligence, and technology mapping.

Analysis tools: Participants can learn about the various data analysis tools available in patent databases, such as citation analysis, family analysis, and trend analysis, and how they can use them to extract insights and intelligence from patent data.

Career advancement: The seminar can benefit professionals in the field of patent databases by enhancing their skills, knowledge, and professional network. They can leverage the learning and networking opportunities to advance their careers in the field.

Overall, the Seminar on "Patent databases" is a valuable program that can contribute to the growth and development of the field of patent databases. It can help participants gain a comprehensive understanding of patent databases, their features, functionalities, and applications, and how they can use them to extract insights and intelligence from patent data.

PROGRAM REPORT

Program Name : A Seminar on Startups and Entrepreneurship:
Case based Learning Approach
Date of activity : 18.12.2017
Venue : Class Room
Organized by : Department of CSE
Resource Person : Mr.K.Vinod Varma, Assistant Professor, Sri
Venkateswara Institute of Science and Information
Technology
Number of Participants 60

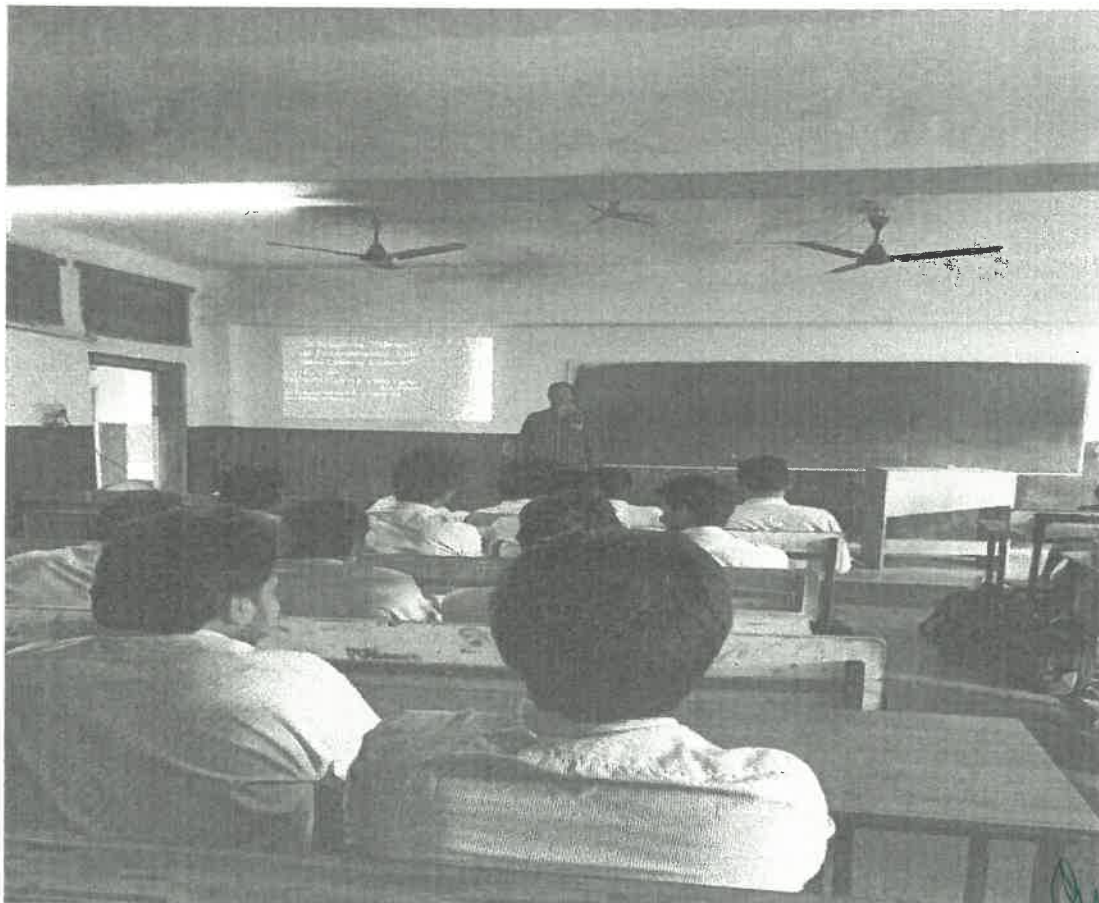

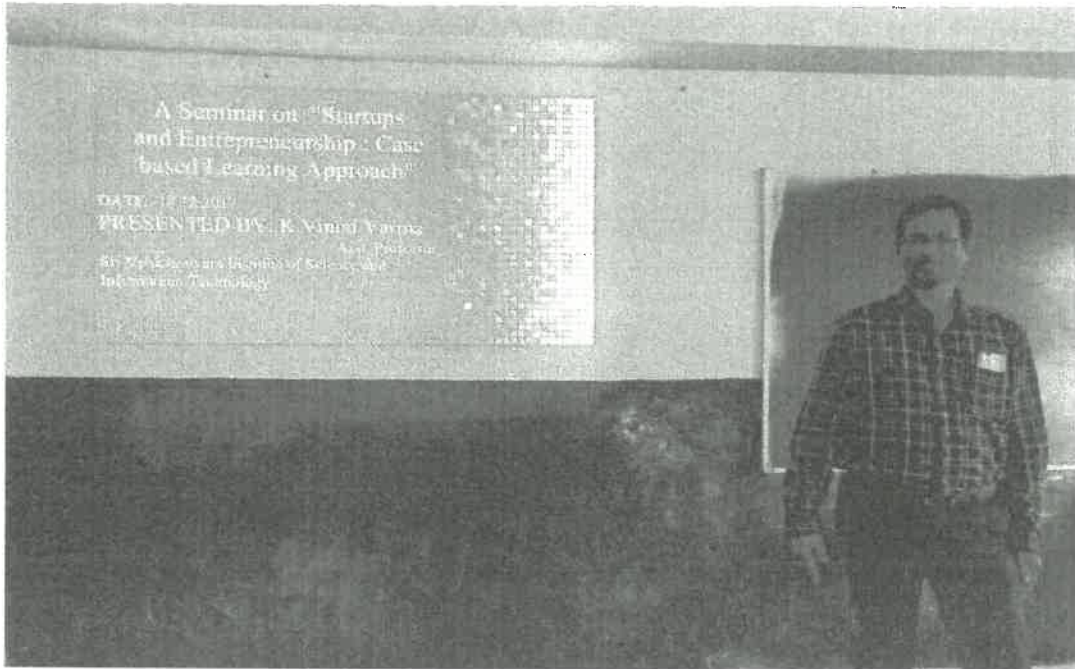

Description About Program

This seminar is useful for B.Tech & MBA students. The resource person: Mr.K.Vinod Varma, Assistant Professor, Sri Venkateswara Institute of Science and Information Technology. He is good at motivating the students regarding entrepreneur development and giving a brief insight. He has delivered in a very enthusiastic way. This is a very excellent topic and all the participants had given good feedback.

A seminar on Startups and Entrepreneurship with a Case-Based Learning Approach is an interactive learning experience that focuses on real-world examples of successful startups and entrepreneurs. The seminar combines case studies, expert speakers, and interactive discussions to explore the challenges and opportunities of starting and growing a successful startup.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Through case-based learning, participants can analyze and discuss real-world scenarios, identify the key factors that contributed to the success or failure of the startup, and apply these insights to their own entrepreneurial journey.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY

Outcomes of the Event:

1. **Practical insights and knowledge:** The seminar provides participants with practical insights and knowledge from successful startup case studies, helping them to develop a deeper understanding of the key factors that contribute to startup success.
2. **Enhanced problem-solving skills:** By analyzing and discussing real-world scenarios, participants can enhance their problem-solving skills and learn how to overcome the challenges of starting and growing a successful startup.
3. **Networking opportunities:** Seminars provide an opportunity for participants to connect with other aspiring entrepreneurs, business leaders, and experts, expanding their network and building new relationships.
4. **Motivation and inspiration:** Through case studies and expert speakers, participants can feel motivated and inspired to pursue their entrepreneurial goals.
5. **Application of learning to their own business:** The case-based learning approach allows participants to apply the insights gained from successful startups to their own entrepreneurial journey, identifying opportunities for growth and improvement.
6. **Improved business acumen:** The seminar can help participants develop a deeper understanding of key business concepts, including marketing, financial management, leadership, and strategy, leading to improved business acumen.

Overall, a seminar on Startups and Entrepreneurship with a Case-Based Learning Approach can provide a valuable learning experience for aspiring entrepreneurs, helping them to develop practical skills and knowledge, enhance their problem-solving skills, and feel motivated and inspired to pursue their entrepreneurial goals.

ABOUT COLLEGE

GIET Engineering College is an epitome of excellence in every aspect. Approved by AICTE and Affiliated to JNTU, Kakinada (JNTUK) and accredited by NAAC, the institute offers under graduate programms diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members. Apart from the prescribed course curriculam the institute offers an entire educational experience. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact..

ABOUT DEPARTMENT

Mechanical Engineering is an evergreen discipline that involved in the application of basic science and mathematical principles to design, analyze, manufacture, and maintenance of mechanical systems. Mechanical engineers work across a huge variety of industries. It is one of the oldest branches of engineering, it is also one that continues to change and grow with the advancements in technology making it a vibrant and exciting career path even to this day. The department is provided with state of are laboratories and software. In addition to the regular curriculum conduct programs like add-on training programs, Industrial visits, Seminars, Hands-on workshops on latest technologies to enhance the skills of the students to meet the demands of the industry.

ABOUT PROGRAM

Research methodology is a way of explaining how a researcher intends to carry out their research. GIET ENGINEERING COLLEGE conducting this 1-day Workshop Program on “Research Data Management” to demonstrate It’s a logical, systematic plan to resolve a research problem. It encompasses what data they're going to collect and where from, as well as how it's being collected and analyzed.

Description:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled "Research Data Management", Mr.K.V.G.PRAVEEN, Assistant Professor, PYDAH College of Engineering, acted as a resource person for this Seminar. Students have learnt in detail about future needs in different research areas and required parameters to consider while publishing papers in reputed journals and also different innovative teaching methods.

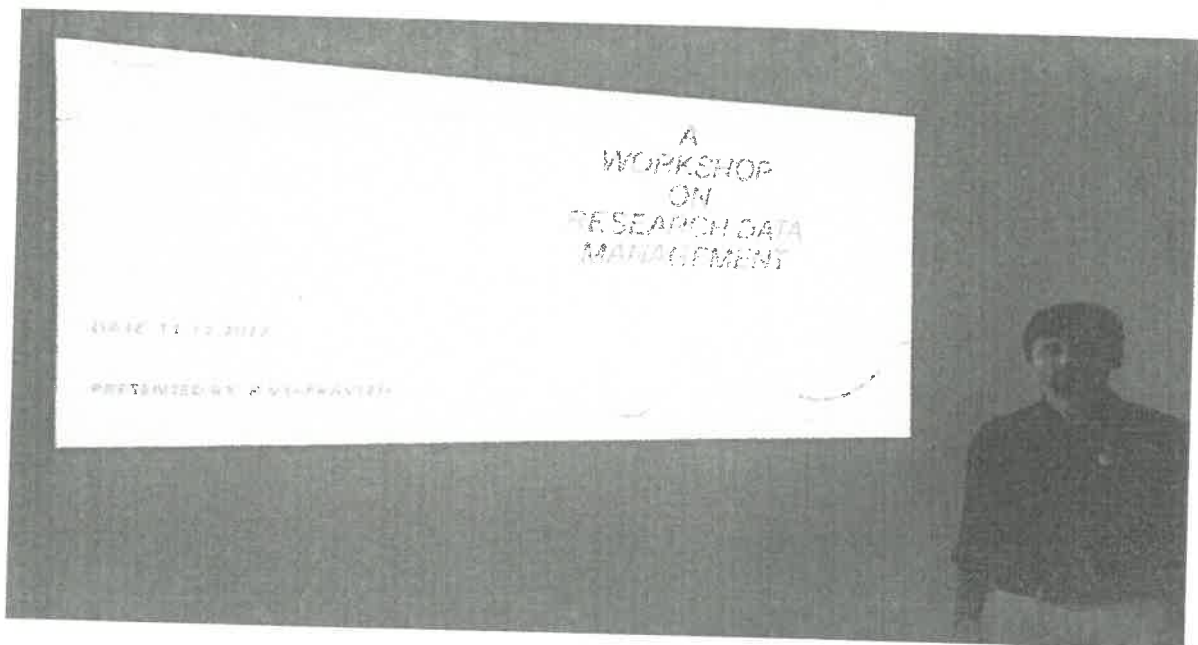

A Seminar on "Research Data Management" is an educational event focused on providing participants with a comprehensive understanding of how to effectively manage research data. The seminar is typically led by experienced researchers and data management professionals who share their knowledge and expertise in various areas of research data management, including data collection, organization, storage, preservation, and sharing.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

The seminar is designed for students who are involved in managing research data. During the seminar, participants will gain insight into the various stages of the research data management process, including data collection, organization, storage, preservation, and sharing.

Some of the key topics that may be covered during the seminar include:

- The importance of planning for data management at the outset of a research project
- Best practices for organizing and documenting research data
- The different types of data storage options and their respective advantages and disadvantages
- Strategies for preserving research data over the long-term
- The various types of data sharing platforms and the factors to consider when selecting one
- Legal and ethical considerations for managing and sharing research data

Outcomes of the event

- A comprehensive understanding of the research data management process, from data collection to sharing
- Insight into the importance of planning for data management at the outset of a research project
- Strategies for organizing and documenting research data effectively
- Knowledge of the various data storage and preservation options and their respective advantages and disadvantages
- An understanding of the legal and ethical considerations surrounding research data management and sharing
- Strategies for selecting and using data sharing platforms

Overall, attending a Seminar on "Research Data Management" can be an excellent way to gain a foundational understanding of research data management and to develop the skills and knowledge necessary to effectively manage research data throughout the research process.

GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

Principal

GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

ABOUT COLLEGE

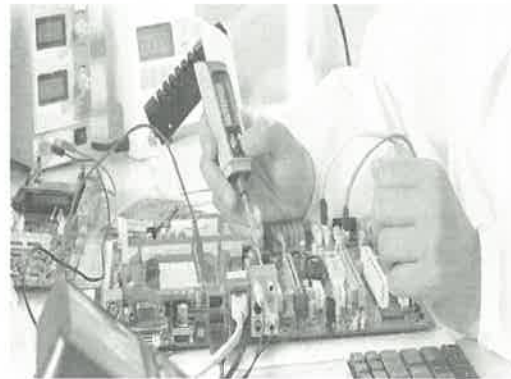

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members. apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

ABOUT DEPARTMENT

The Department of Electronics & Communication Engineering was established in the year 2005 with an initial intake of 60 students. The undergraduate program of the department of Electronics and Communication imparts solid technical background and research capabilities among the students which help them to excel in their respective fields. It has an array of courses for students to choose from and study such as electronics, electronic hardware and software, communications, radio and television, solid-state devices, microelectronics, VLSI, and other circuits & systems used in varying applications ranging from simple circuits to sophisticated digital satellite systems, GSM & CDMA technology, speech processing & computer.

ABOUT PROGRAM

Research methodology is a way of explaining how a researcher intends to carry out their research. GIET ENGINEERING COLLEGE conducting this Seminar Program on “Fundamentals of Peer Review” to demonstrate the system and logical approach for peer review which used to assess the quality of a manuscript before it is published. Independent researchers in the relevant research area assess submitted manuscripts for originality, validity and significance to help editors determine whether a manuscript should be published in their journal.

PROGRAM REPORT

Program Name : A Seminar on "Fundamentals of Peer Review"

Date of activity : 22.11.2017

Venue : Seminar Hall, C.V .Raman Block

Organized by : Department of Electronics and Communication Engineering

Resource Person : Y.K.S. SUBBA RAO, Associate professor, Aditya College of Engineering, Surampalem.

Number of Participants : 41

Description:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled "Fundamentals of Peer Review", Y.K.S. SUBBA RAO, Associate professor, Aditya college of Engineering, Surampalem, acted as a resource person for this Seminar. Students have learnt in detail about future needs in different research areas and required parameters to consider while publishing papers in reputed journals and also different innovative teaching methods.

A Seminar on "Fundamentals of Peer Review" is an educational event focused on providing participants with a comprehensive understanding of the peer review process. The seminar is typically led by experienced researchers, journal editors, and peer review experts who share their knowledge and expertise in various areas of peer review, including the principles of peer review, the different

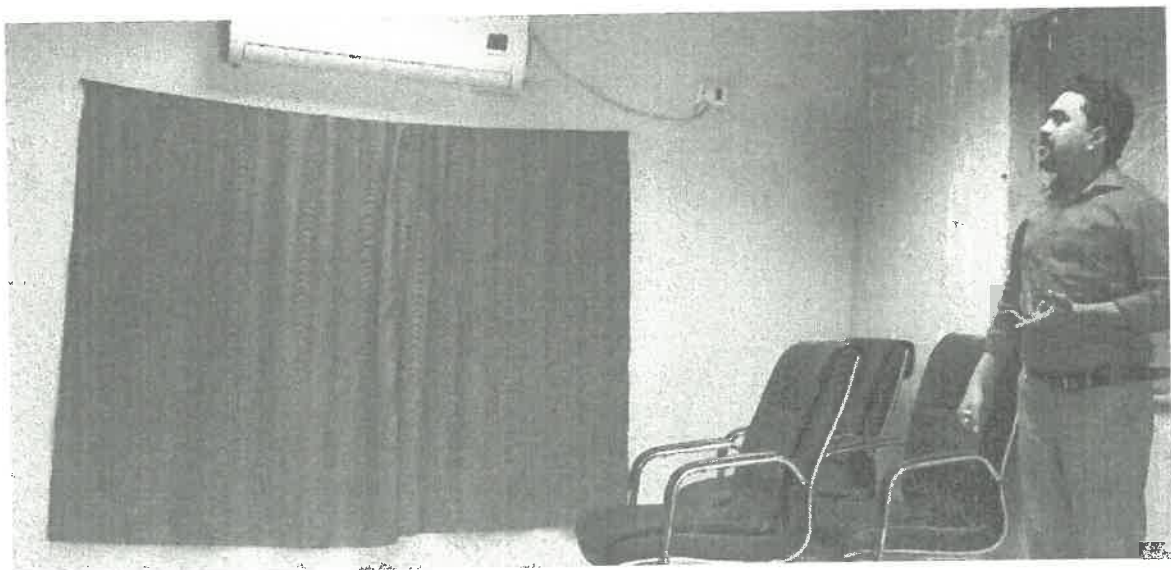

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

types of peer review, and best practices for conducting and participating in peer review.

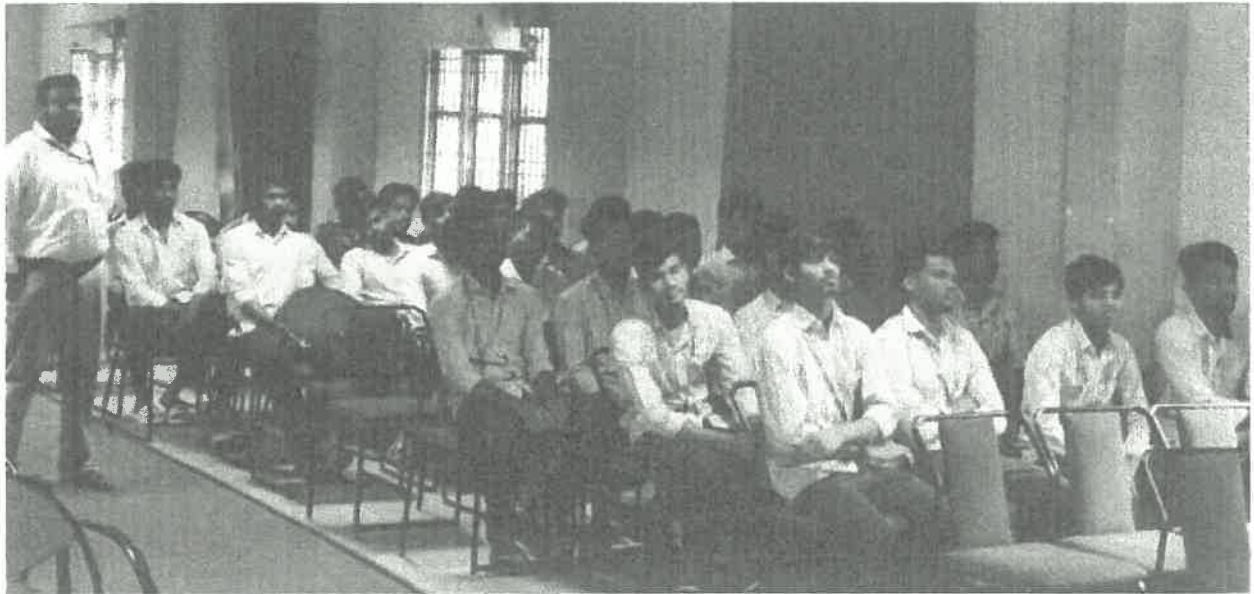

The seminar is designed for academics, researchers, and professionals who are interested in learning about the peer review process. During the seminar, participants will gain insight into the various stages of the peer review process, including the role of the reviewer, the principles of peer review, and best practices for providing constructive feedback to authors.

Some of the key topics that may be covered during the seminar include:

- The different types of peer review, including single-blind, double-blind, and open peer review
- The principles of peer review, including objectivity, transparency, and confidentiality
- Best practices for conducting peer review, including how to evaluate manuscripts and provide constructive feedback to authors
- Strategies for dealing with ethical issues in peer review, such as conflicts of interest and plagiarism
- The benefits and limitations of peer review as a quality control mechanism
- The role of peer review in academic publishing and career advancement

Qut
Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Outcomes of the event

- A comprehensive understanding of the peer review process, from manuscript submission to editorial decision-making
- Insight into the different types of peer review and their respective advantages and disadvantages
- Strategies for providing constructive feedback to authors and evaluating manuscripts objectively
- Knowledge of ethical issues that can arise in peer review and strategies for addressing them
- An understanding of the role of peer review in academic publishing and career advancement
- An ability to participate effectively in the peer review process as a reviewer or author

Overall, attending a Seminar on "Fundamentals of Peer Review" can be an excellent way to gain a foundational understanding of the peer review process and to develop the skills and knowledge necessary to participate effectively in peer review as a reviewer or author.

RAJAMAHENDRAVARAM-533 296.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members. apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

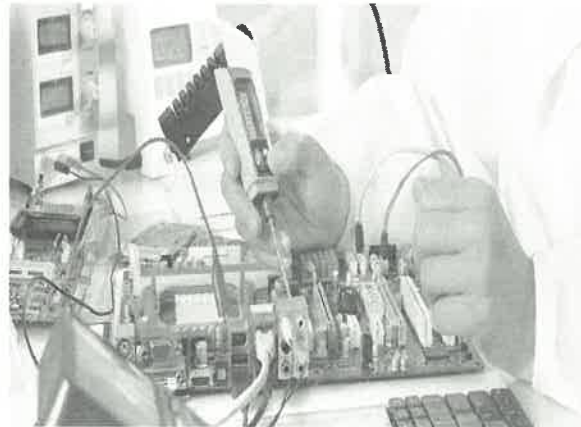

About the Department

Department of ELECTRONICS AND COMMUNICATION Engineering was started in the year 2005. It is offering graduate program B.TECH and postgraduate program M.TECH. Department has well qualified and dedicated faculty members.

The Department provides complete support to the overall development of the students for challenging career ahead. The department offers seminars, workshops, conferences and expert lectures on the recent advances and educational technologies related to departmental practices on a regular basis.

The Department has produced a good number of graduates well settled in various types of industries and research organizations. The department is also receiving very good support from its alumni in all aspects.

About the Program

Women entrepreneurs are also giving a partial role in this field. Now a day, society gives a better socio economic status to women. The State and Central Government has been introduced various schemes and empowerment programs to promote them to sustain in good working conditions of women enterprise.

This seminar helps to find out the various problems faced by women Entrepreneurs in The details are directly collected from women entrepreneurs to observe their problems and also gives the information about how to face that problems.

PROGRAM REPORT

Program Name : A Seminar On Women Entrepreneurship Problems
And Challenges
Date of activity : 04.10.2017
Venue : Class Room
Organized by : Department of ECE
Resource Person : Dr.P.SubbaRao, Professor, Ramachandra college
of Engineering.
Number of Participants 58

Description about Program

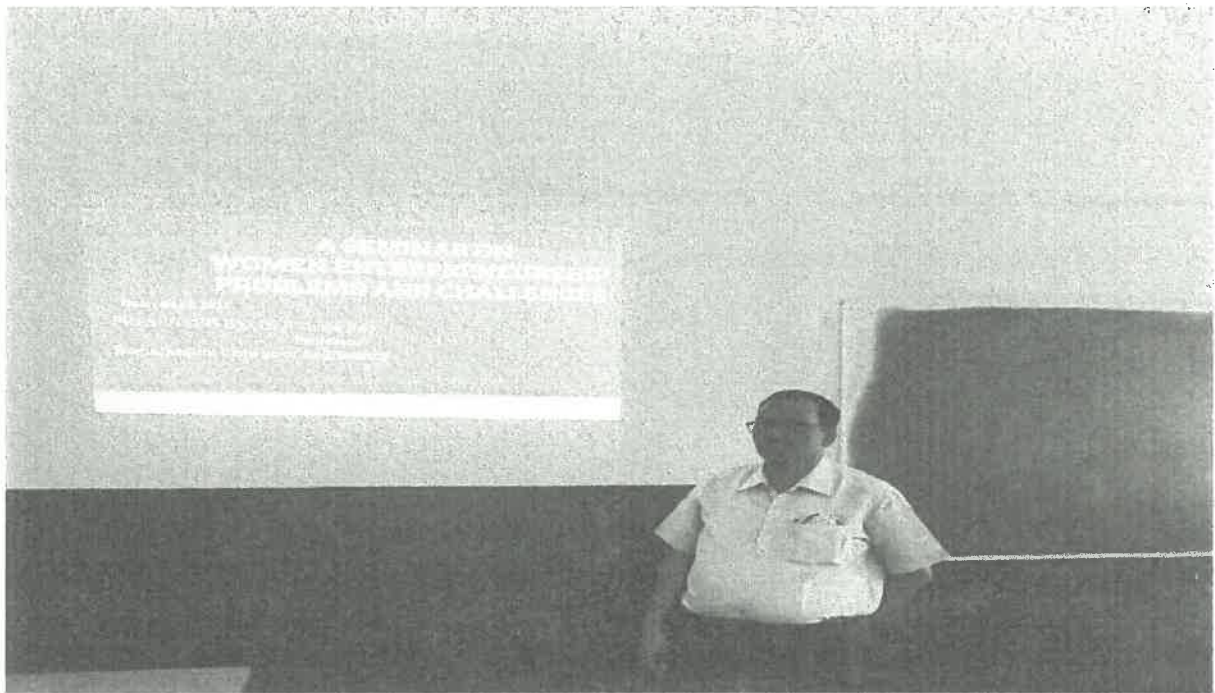

This seminar is useful for B.Tech & MBA students. The resource person: Dr.P.SubbaRao, Professor, Ramachandra college of Engineering. He is good at motivating the students regarding entrepreneur development and giving a brief insight. He has delivered in a very enthusiastic way. This is a very excellent topic and all the participants had given good feedback.

A seminar on Women Entrepreneurship Problems and Challenges is a focused gathering that brings together women entrepreneurs, business leaders, experts, and policymakers to discuss the unique challenges faced by women entrepreneurs in starting and growing their businesses.

The seminar aims to create a platform where participants can share their experiences, insights, and perspectives on the challenges and obstacles that women entrepreneurs face, including access to financing, networking, and business education, discrimination and bias, and balancing work and family responsibilities.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Through interactive sessions, expert speakers, and case studies, the seminar can help participants develop a deeper understanding of the challenges and barriers faced by women entrepreneurs and explore solutions to overcome them.

Outcomes of the Event:

Greater awareness and understanding of the challenges faced by women entrepreneurs: By discussing the unique challenges faced by women entrepreneurs, participants can develop a better understanding of the issues and work towards finding solutions.

1. **Development of strategies and solutions:** Through discussions, participants can develop strategies and solutions to overcome the challenges faced by women entrepreneurs, including access to financing, networking, and business education, discrimination and bias, and balancing work and family responsibilities.
2. **Increased networking opportunities:** Seminars provide an opportunity for participants to connect with other women entrepreneurs, business leaders, and experts, expanding their network and building new relationships.
3. **Enhanced skills and knowledge:** The seminar can provide participants with practical skills and knowledge, including business planning, financial management, marketing, and leadership, to support the growth and success of their businesses.
4. **Empowerment and motivation:** Through discussions and sharing of experiences, participants can feel empowered and motivated to overcome challenges and achieve their entrepreneurial goals.
5. **Advocacy for policy change:** The seminar can serve as a platform to advocate for policy change and reforms that promote and support women entrepreneurship, thereby creating an enabling environment for women entrepreneurs to thrive.

Overall, a seminar on Women Entrepreneurship Problems and Challenges can provide a valuable opportunity for women entrepreneurs to connect, learn, and develop strategies to overcome the challenges they face, leading to greater success and growth of their businesses.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members, apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

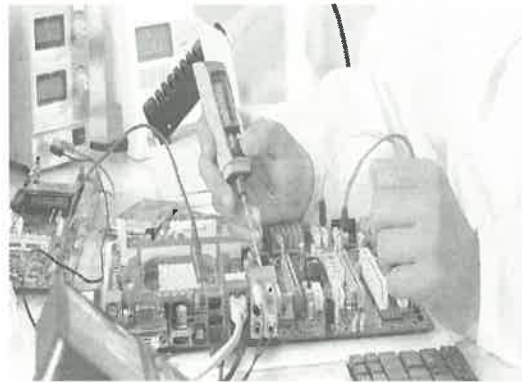

About the Department

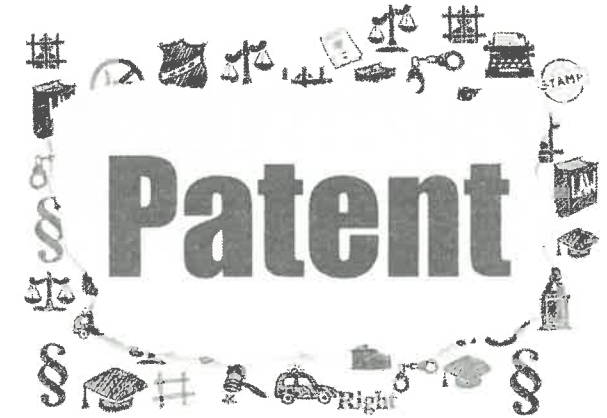

Department of ELECTRONICS AND COMMUNICATION Engineering was started in the year 2005. It is offering graduate program B.TECH and postgraduate program M.TECH. Department has well qualified and dedicated faculty members.

The Department provides complete support to the overall development of the students for challenging career ahead. The department offers seminars, workshops, conferences and expert lectures on the recent advances and educational technologies related to departmental practices on a regular basis.

The Department has produced a good number of graduates well settled in various types of industries and research organizations. The department is also receiving very good support from its alumni in all aspects.

About the Program

The goal of the seminar is to foster research and development of the technology for patent search and retrieval by providing a forum in which researchers and practitioners from relevant communities can share their ideas, approaches, perspectives, and experiences from their work in progress.

The participant of this seminar gets the knowledge about patent data base and how to search for a patent and how to apply for a patent.

PROGRAM REPORT

Program Name : Seminar on "How to Search, Draft & File Patent"
Date of activity : 21.09.2017
Venue : S-02, C.V .Raman Block
Organized by : Department of ECE
Resource Person : Mr.M.N.Saidulla, Assistant Professor,
RAJAHMAHENDRI INSTITUTE OF ENGINEERING & TECHNOLOGY,
Rajahmundry , 9497123350, mn.saidulla@gmail.com
Number of Participants : 61

Description about program:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled "Seminar on PATENT: "How to Search, Draft & File Patent" on 21.09.2017. Mr.M.N.Saidulla, Assistant Professor, RAJAHMAHENDRI INSTITUTE OF ENGINEERING & TECHNOLOGY, Rajahmundry, acted as a resource person for this seminar. Students have learnt in detail about PATENT: "How to Search, Draft & File Patent" areas and required parameters to consider while publishing papers in different innovative teaching methods.

A seminar titled "How to Search, Draft & File Patent" is an educational event that provides attendees with a comprehensive understanding of the process involved in searching, drafting, and filing a patent. The seminar is designed for individuals and businesses seeking to protect their intellectual property rights.

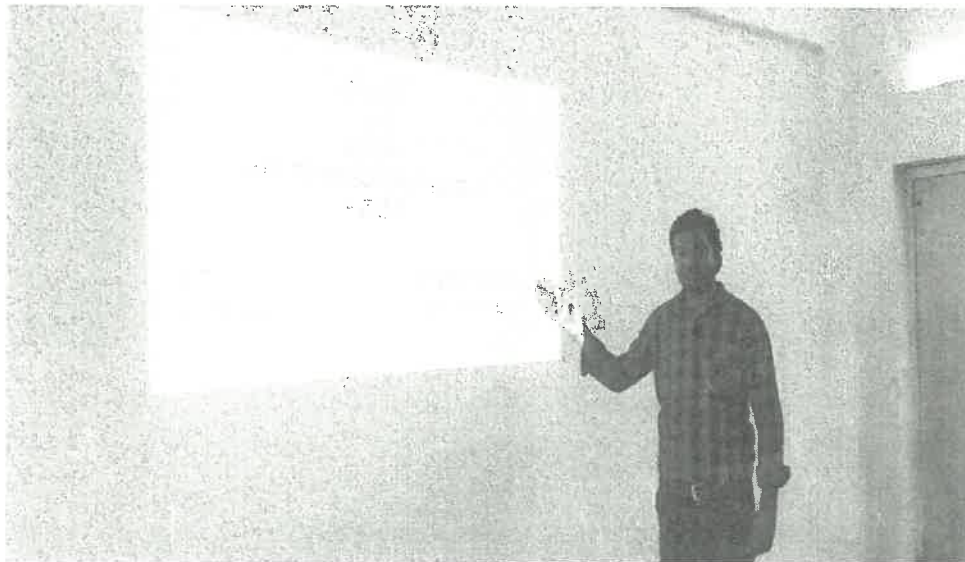

The seminar covers various topics related to patents, including:

1. Introduction to patents and the patenting process
2. How to conduct a patent search and analyze patent data
3. Drafting a patent application and understanding the requirements

Principal
GIET ENGINEERING COLLEGE
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

4. Filing a patent application and responding to office actions
5. Understanding the patent prosecution process and appeals
6. Patent maintenance and enforcement

The seminar is typically led by experienced patent attorneys or agents who provide attendees with practical guidance on how to navigate the patenting process. They also provide attendees with strategies for avoiding common pitfalls and maximizing the value of their patents.

Principal
GIET ENGINEERING COLLEGE
Nr-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

OUTCOMES

1. Increased understanding of the patenting process and the requirements for obtaining a patent.
2. Knowledge of the tools and resources available for conducting a patent search and analyzing patent data.
3. Understanding of the drafting process and the importance of meeting the requirements for a patent application.
4. Strategies for responding to office actions and navigating the patent prosecution process.
5. Understanding of the patent maintenance and enforcement process.

Overall, attending a seminar on patent can be an essential step for individuals or businesses that want to protect their intellectual property rights and gain a competitive advantage in their respective industries.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members, apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

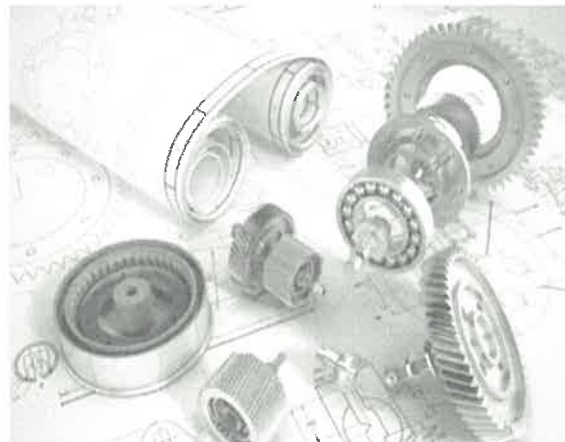

About the Department

Department of MECHANICAL Engineering was started in the year 2009. It is offering graduate program B.TECH. Department has well qualified and dedicated faculty members

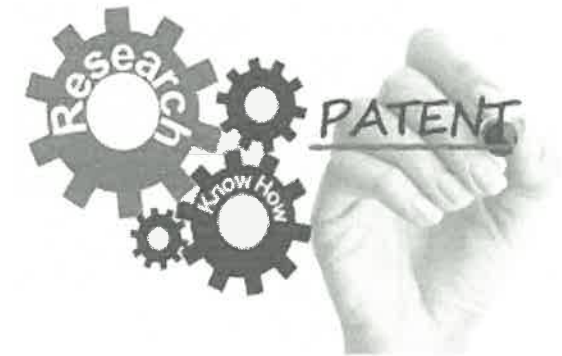

The Department provides all resources like laboratories, library, and classrooms to students for improving their knowledge and skills.

The department offers seminars, workshops, conferences and expert lectures on the recent advances and educational technologies related to departmental practices on a regular basis.

The Department has produced a good number of graduates well settled in various types of industries and research organizations. The department is also receiving very good support from its alumni in all aspects.

About the Program

The main aim of this seminar is to make aware of the participant step by step procedure for obtaining patents in India, different types of forms to be used, fee schedule etc. We are sure that after attaining this seminar participant will be able to formulate patent application themselves with complete specifications and claims. Research Scholars, students will be able to protect his/her idea before start of their work simply by filing a provisional application.

PROGRAM REPORT

Program Name : Seminar on "Procedure for Filing a Patent (National And International)"
Date of activity : 28.08.2017
Venue : S-03, C.V .Raman Block
Organized by : Department of Mechanical Engineering
Resource person : Mrs.K.Rajyalakshmi, Assistant Professor, BVC College of engineering College, Rajahmundry, 8690012891, rajyalakshmi487@gmail.com
Number of Participants : 43

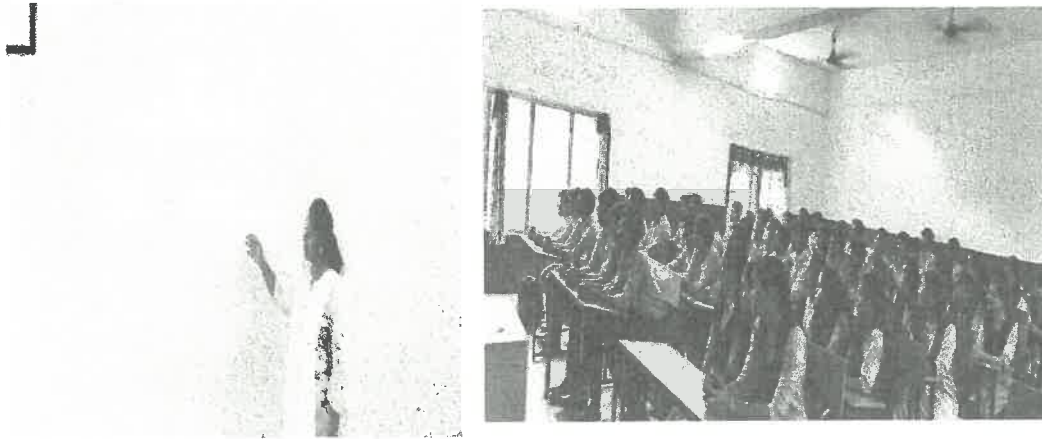

Description about program:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled "Seminar on "Procedure for Filing a Patent (National and & international)" on 28.08.2017. Mrs.K.Rajyalakshmi, Assistant Professor, BVC College of engineering College, Rajahmundry acted as a resource person for this seminar. Students have learnt in detail about Procedure for Filing a Patent (National and International) areas and required parameters to consider while publishing papers in different innovative teaching methods.

The Seminar on "Procedure for Filing a Patent (National and International)" is a program aimed at discussing and analyzing the procedures involved in filing a patent application in national and international jurisdictions. The program may cover various aspects related to patent filing, including patentability criteria, application drafting, prosecution, and maintenance.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

The seminar may be conducted by experts and scholars in the field of patent law, and it may be attended by professionals, policymakers, students, and researchers interested in patent law. The program may include presentations, demonstrations, case studies, and interactive sessions, where participants can engage in discussions and share their experiences and perspectives.

OUTCOMES

1. **Enhancing knowledge:** Participants can gain a deeper understanding of the patent filing process, including the requirements and procedures for filing a patent application in national and international jurisdictions. They can learn about the legal and regulatory frameworks related to patent filing and how to comply with them.
2. **Networking:** The seminar provides an opportunity for participants to network and collaborate with experts and peers in the field of patent law. They can exchange ideas, share experiences, and build professional relationships.
3. **Patentability criteria:** Participants can learn about the patentability criteria and how to assess the novelty, inventive step, and industrial applicability of their inventions.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chattanya Knowledge City,
RAJAHMUNDRY-533 296.

4. **Application drafting:** Participants can learn about the various aspects of patent application drafting, including the structure, format, and content of patent applications, and how to draft claims and specifications.
5. **Prosecution and maintenance:** Participants can learn about the procedures involved in patent prosecution, including responding to office actions, conducting interviews with examiners, and appealing rejections. They can also learn about the procedures involved in maintaining a patent and paying annuities.
6. **Career advancement:** The seminar can benefit professionals in the field of patent law by enhancing their skills, knowledge, and professional network. They can leverage the learning and networking opportunities to advance their careers in the field.

Overall, the Seminar on "Procedure for Filing a Patent (National and International)" is a valuable program that can contribute to the growth and development of the field of patent law. It can help participants gain a comprehensive understanding of the patent filing process, including patentability criteria, application drafting, prosecution, and maintenance, and how to navigate the legal and regulatory frameworks related to patent filing.

DEPARTMENT OF
COMPUTER SCIENCE AND ENGINEERING
GIET ENGINEERING COLLEGE**

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTU, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

Principal
GIET ENGINEERING COLLEGE
NH-16, Chaitanya Knowledge City
RAJAHMUNDY-533 296.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members, apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

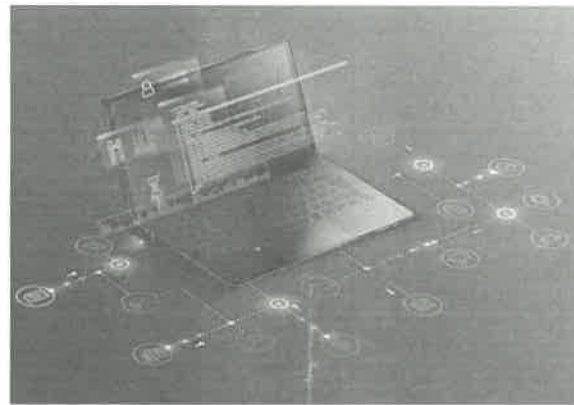

About the Department

Department of COMPUTER SCIENCE AND Engineering was started in the year 2005. It is offering graduate program B.TECH and postgraduate program M.TECH Department has well qualified and dedicated faculty members.

The Department provides all resources like laboratories, library, and classrooms to students for improving their knowledge and skills.

The department offers seminars, workshops, conferences and expert lectures on the recent advances and educational technologies related to departmental practices on a regular basis.

The Department has produced a good number of graduates well settled in various types of industries and research organizations. The department is also receiving very good support from its alumni in all aspects.

About the Program

The seminar helps the participant to get the knowledge about entrepreneurship and also about women entrepreneurship and how to become an entrepreneur in this competitive world.

At the end of this seminar the participant have knowledge about the schemes provided by government for entrepreneurs especially for women entrepreneurs and how to get eligible for those schemes and how to utilise that schemes.

PROGRAM REPORT

Program Name : A Seminar On Effective Schemes And Programs For
The Development Of Women Entrepreneurship
Date of activity : 16.08.2017
Venue : Class Room
Organized by : Department of CSE
Resource Person : Dr.M.Vijay Kumar, Professor
Shri Vishnu Engineering College for Women
Number of Participants : 60

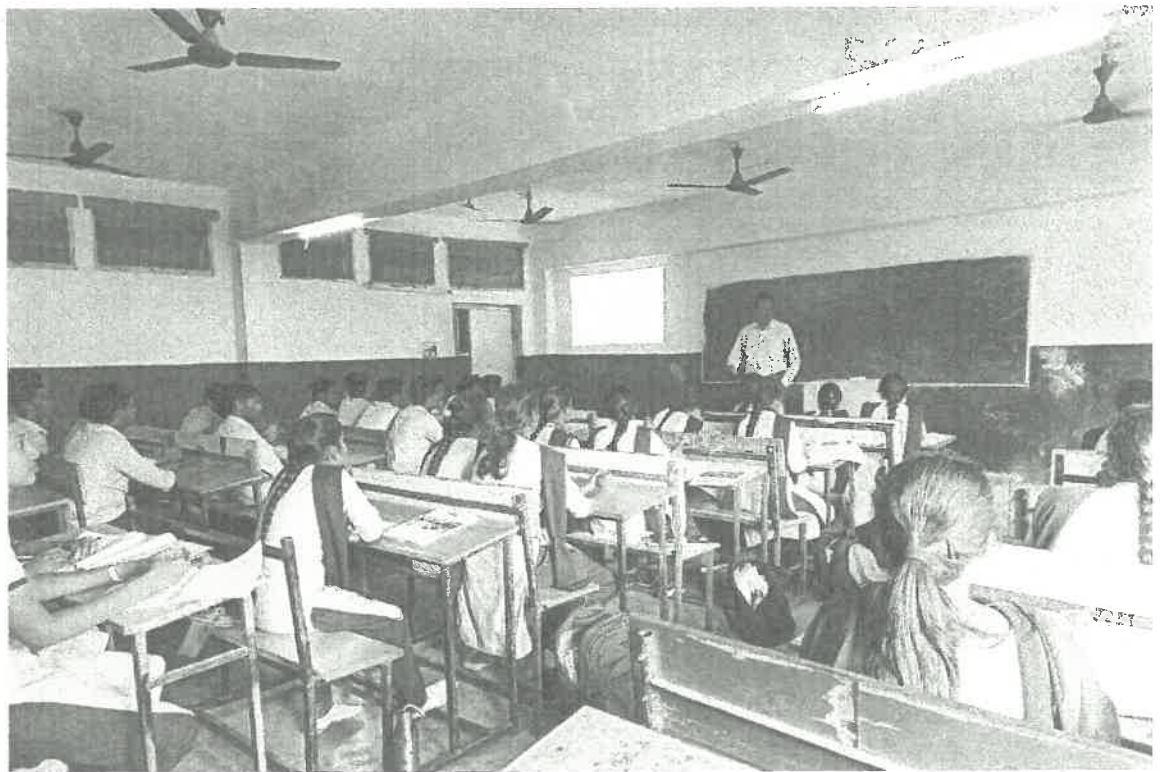

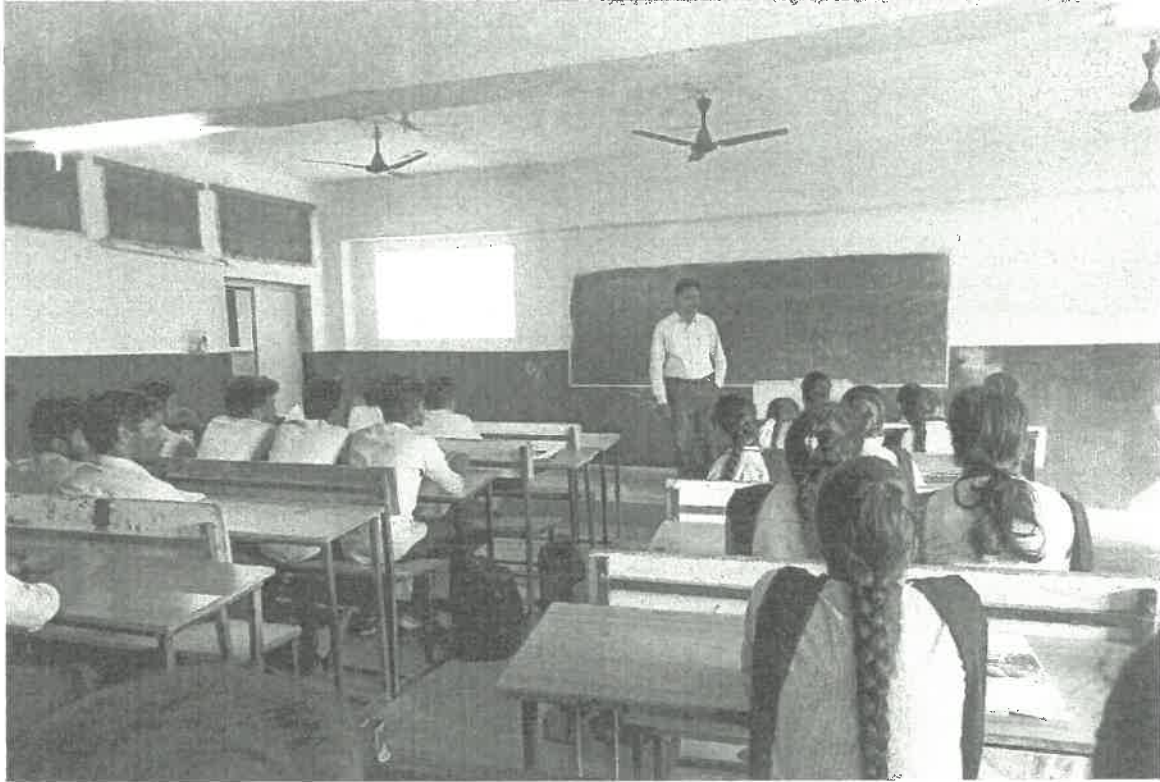

Description about Program

This seminar is useful for B.Tech & MBA students. The resource person: Dr.M.Vijay Kumar, Professor, Shri Vishnu Engineering College for Women. He is good at motivating the students regarding entrepreneur development and giving a brief insight. He has delivered in a very enthusiastic way. This is a very excellent topic and all the participants had given good feedback.

Effective schemes and programs for the development of women entrepreneurship are initiatives designed to support and encourage women entrepreneurs to start and grow successful businesses. Such programs are designed to address the unique challenges faced by women entrepreneurs and provide them with the necessary resources, support, and skills to succeed.

These programs can take various forms, such as training and mentorship programs, access to financing, business incubators and accelerators, networking events, and government policies that promote and support women entrepreneurs.

RAJAHMUNDRY-533 296.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Outcomes of the Event:

1. **Increased economic empowerment:** Programs for women's entrepreneurship can lead to greater economic empowerment for women by providing them with the tools, resources, and networks necessary to start and run successful businesses.
2. **Creation of employment opportunities:** Women's entrepreneurship programs can promote the creation of new businesses and job opportunities, thereby contributing to economic growth and development.
3. **Improved financial inclusion:** Programs that provide access to financing and other financial resources can help women overcome barriers to financial inclusion and access capital to grow their businesses.
4. **Improved business skills:** Training and mentorship programs can help women develop and enhance their business skills, including marketing, financial management, and leadership, leading to the creation of successful businesses.
5. **Increased innovation and creativity:** Women's entrepreneurship programs can promote innovation and creativity by providing support for the development of new ideas and products.
6. **Reduction in gender inequality:** By promoting women's entrepreneurship, these programs can help reduce gender inequality by creating more opportunities for women in business.
7. **Contribution to social and environmental sustainability:** Women's entrepreneurship programs can promote social and environmental sustainability by supporting businesses that have a positive impact on their communities and the environment.

In summary, effective schemes and programs for the development of women entrepreneurship can have numerous positive outcomes, leading to economic empowerment, job creation, financial inclusion, business growth, and social and environmental sustainability.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members, apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

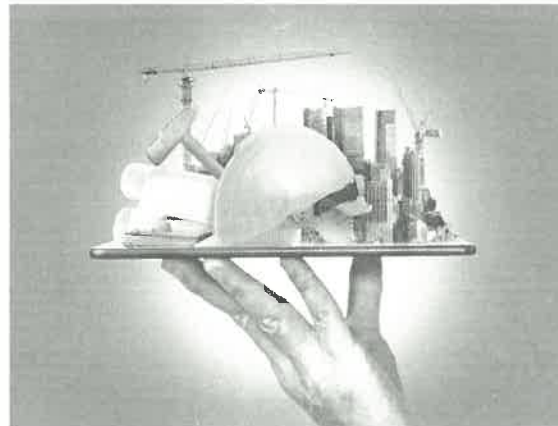

About the Department

The Department of CIVIL Engineering was started in the year 2007. It is offering undergraduate graduate program in B.Tech. in Civil Engineering. It has well qualified, experienced, and dedicated faculty and committed supporting staff.

The Department provides all resources like laboratories, library, and classrooms to students for improving their knowledge and skills.

The department offers seminars, workshops, conferences and expert lectures on the recent advances and educational technologies related to departmental practices on a regular basis.

The Department has produced a good number of graduates well settled in various types of industries and research organizations. The department is also receiving very good support from its alumni in all aspects.

About the Program

Intellectual property rights (IPR) refers to the legal rights given to the inventor or creator to protect his invention or creation for a certain period of time. These legal rights confer an exclusive right to the inventor/creator or his assignee to fully utilize his invention/creation for a given period of time.

An IPR workshop is a class conducted by a government agency or an NGO to help you understand how to protect your creative work and that of others.

PROGRAM REPORT

Program Name : Seminar on "India scenario of Intellectual Property Rights".
Date of activity : 24.07.2017
Venue : F-02 , C.V .Raman Block
Organized by : Department of Civil Engineering.
Resource Person : Mrs.D. SAMEERA, Assistant Professor, BVCR Engineering College, Rajahmundry, 8385593127, d.sameera597@gmail.com
Number of Participants : 95

Description:

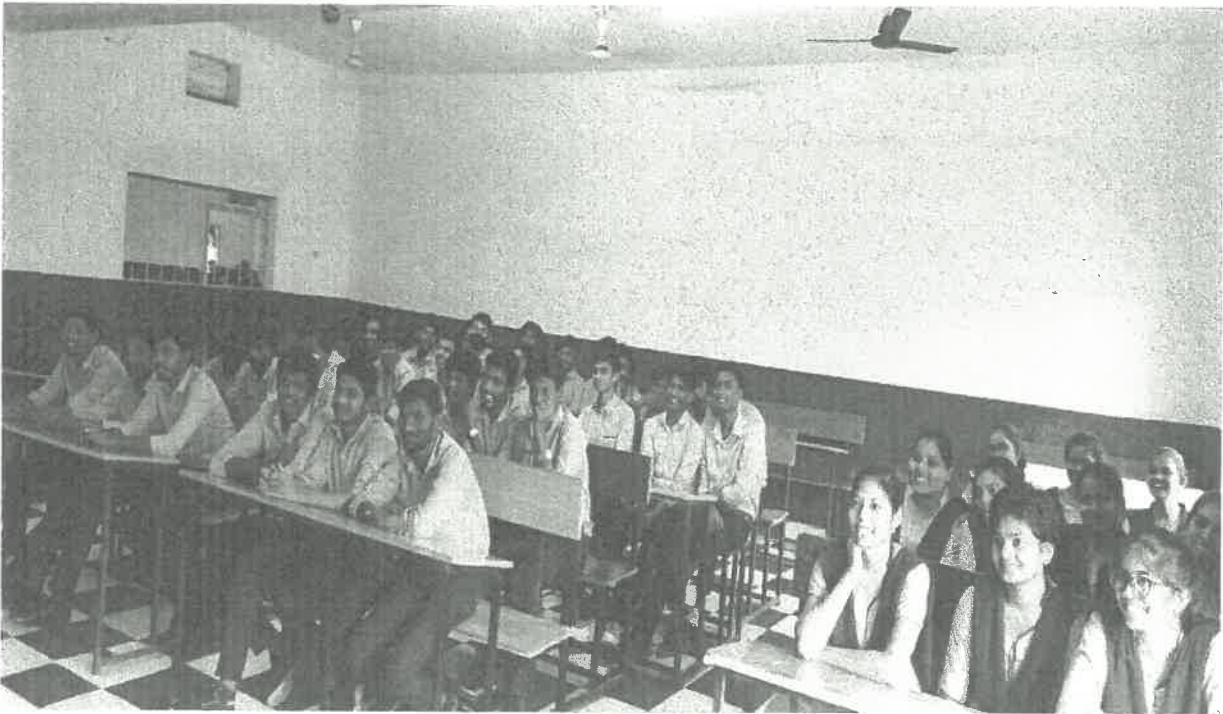

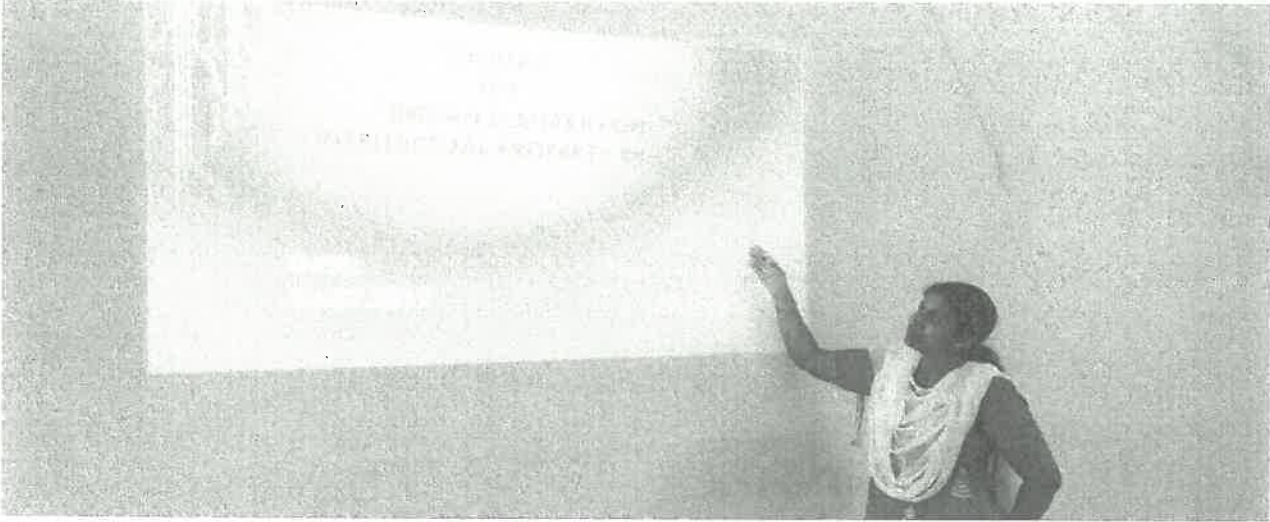

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled Seminar on "Indian Scenario of Intellectual Property Rights" on 24.07.2017. Mrs.D.Sameera, Assistant Professor, BVCR Engineering College, Rajahmundry, acted as a resource person for this Workshop. Students have learnt in detail about Indian Scenario of Intellectual Property Rights areas and required parameters to consider while publishing papers in different innovative teaching methods.

The Seminar on "India scenario of Intellectual Property Rights" is a program aimed at discussing and analyzing the current status and future prospects of Intellectual Property Rights (IPR) in India. The program may cover various aspects related to IPR, including patents, trademarks, copyrights, industrial designs, geographical indications, and trade secrets.

The seminar may be conducted by experts and scholars in the field of IPR, and it may be attended by professionals, policymakers, students, and researchers

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

interested in IPR. The program may include presentations, panel discussions, case studies, and interactive sessions, where participants can engage in discussions and share their experiences and perspectives.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

OUTCOMES

1. **Enhancing knowledge:** Participants can gain a deeper understanding of IPR laws, regulations, and practices in India. They can learn about the latest developments and trends in the field of IPR and how they can apply them in their work.
2. **Networking:** The seminar provides an opportunity for participants to network and collaborate with experts and peers in the field of IPR. They can exchange ideas, share experiences, and build professional relationships.
3. **Policy implications:** The seminar can help policymakers and regulators understand the challenges and opportunities related to IPR in India. They can explore ways to improve the legal and institutional framework for IPR and promote innovation and creativity in the country.
4. **Career advancement:** The seminar can benefit professionals in the field of IPR by enhancing their skills, knowledge, and professional network. They can leverage the learning and networking opportunities to advance their careers in the field.

Overall, the Seminar on "India scenario of Intellectual Property Rights" is a valuable program that can contribute to the growth and development of the field of IPR in India. It can help participants gain a comprehensive understanding of IPR laws and practices, network with experts and peers, and explore ways to promote innovation and creativity in the country.

ABOUT PROGRAM

Research methodology is a way of explaining how a researcher intends to carry out their research. GIET ENGINEERING COLLEGE conducting this 1-day Workshop Program on “Fundamentals of Publishing” to demonstrate It’s a logical, systematic plan to publish a paper. It encompasses what data they're going to collect and where from, as well as how it's being collected and analyzed and write this information in a proper way with proper guidelines to publish a paper.

PROGRAM REPORT

Program Name : A Seminar on "Fundamentals of Publishing"
Date of activity : 07.07.2017
Venue : Seminar Hall, C.V .Raman Block
Organized by : Department of Electrical & Electronics Engineering
Resource Person : Mrs. K.SPANDANA, Assistant Professor,
Dr. Paul Raj Engineering College, Badrachalam.
8297122250, kspandana487@gmail.com
Number of Participants : 51

Description about program:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled "Fundamentals of Publishing" on 07.07.2017. Mrs.K.Spandana, Assistant Professor, Dr. Paul Raj Engineering College, Badrachalam, acted as a resource person for this Seminar. Students have learnt in detail about future needs in different research areas and required parameters to consider while publishing papers in different innovative teaching methods.

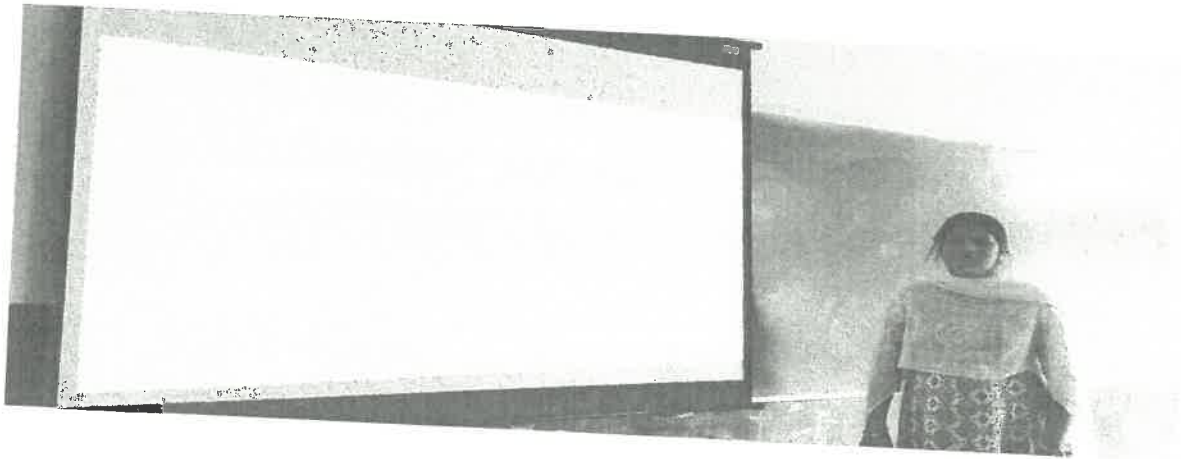

A Seminar on "Fundamentals of Publishing" is an educational event focused on providing participants with a comprehensive understanding of the journal publishing process. The seminar is typically led by experienced journal editors and publishers who share their knowledge and expertise in various areas of journal publishing, including manuscript preparation, peer review, editorial decision-making, production, and dissemination.

The seminar is designed for students who are interested in learning about the fundamentals of publishing a journal. During the seminar, participants will gain insight into the various stages of the journal publishing process, including manuscript preparation, peer review, editing, design, production, and distribution.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533296

Some of the key topics that may be covered during the seminar include:

- The different types of journal publishing models, including open access, hybrid, and traditional
- The importance of selecting a relevant and impactful topic for a journal
- The manuscript submission and peer-review process
- Strategies for building and maintaining a high-quality editorial board
- Best practices for ensuring ethical publication practices
- The role of indexing and metrics in journal dissemination and impact
- The different options for journal funding and revenue generation

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Outcomes of the event

- A comprehensive understanding of the journal publishing process, from manuscript submission to dissemination and impact
- Insight into the importance of selecting a relevant and impactful topic for a journal
- A deeper understanding of ethical publication practices
- Knowledge of the different funding and revenue generation options for journals
- A network of journal editors and publishers who can provide ongoing support and guidance

Overall, attending a Seminar on "Fundamentals of Publishing a Journal" can be an excellent way to gain a foundational understanding of the journal publishing process and to develop the skills and knowledge necessary to succeed as a journal editor, reviewer, or publisher.

DEPARTMENT OF
ELECTRICAL AND ELECTRONICS ENGINEERING
GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City

RAJAMAHENDRAVARAM-533 030

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members, apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

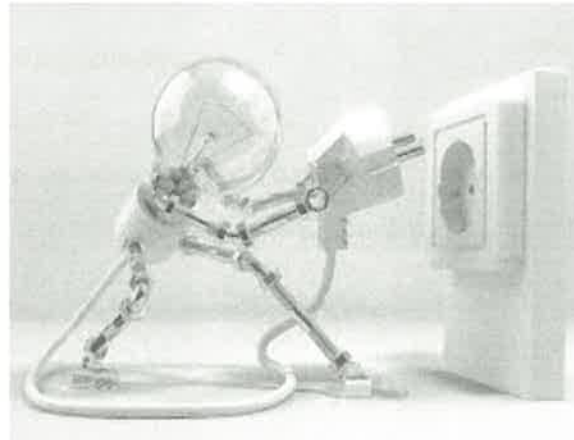

About the Department

Department of ELECTRICAL AND ELECTRONICS Engineering was started in the year 2009. It is offering graduate program B.TECH. Department has well qualified and dedicated faculty members.

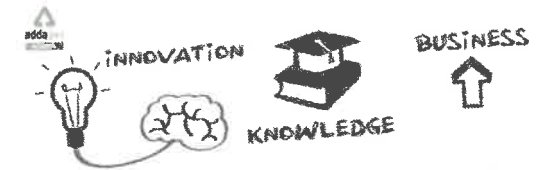

The Department provides all resources like laboratories, library, and classrooms to students for improving their knowledge and skills. and consultancy needs of the department.

The department offers seminars, workshops, conferences and expert lectures on the recent advances and educational technologies related to departmental practices on a regular basis.

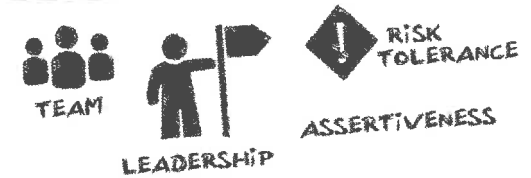

The Department has produced a good number of graduates well settled in various types of industries and research organizations. The department is also receiving very good support from its alumni in all aspects.

About the Program

Entrepreneur

The seminar is specially designed for the students, who are still pursuing their studies in Schools/Colleges/Institutions and do not have any idea about Entrepreneurship.

This seminar makes participants familiar about role and importance of MSMEs in Indian Economy, process of setting up of Enterprise, preparing Project Reports, Identifying marketing possibilities as well as with the issues regarding various statutory requirements such as Income Tax, VAT etc.

PROGRAM REPORT

Program Name : A Seminar on Entrepreneurship Orientation Program
Date of activity : 27.06.2017
Venue : Class Room
Organized by : Department of EEE
Resource Person : Mr.P.M.Srinivas, Assistant Professor
Rajamahendri Institute of Engineering and Technology
Number of Participants : 55

Description about Program

This seminar is useful for B.Tech & MBA students. The resource person is Mr.P.M.Srinivas, Assistant Professor, Rajamahendri Institute of Engineering and Technology. He is good at motivating the students regarding entrepreneur development and giving a brief insight. He has delivered in a very enthusiastic way. This is a very excellent topic and all the participants had given good feedback.

An Entrepreneurship Orientation Program (EOP) is a specialized training program designed to equip individuals with the skills and knowledge necessary to start and run their own businesses successfully. The program typically involves a series of workshops, seminars, and coaching sessions, covering topics such as business planning, marketing, financial management, operations, and legal considerations.

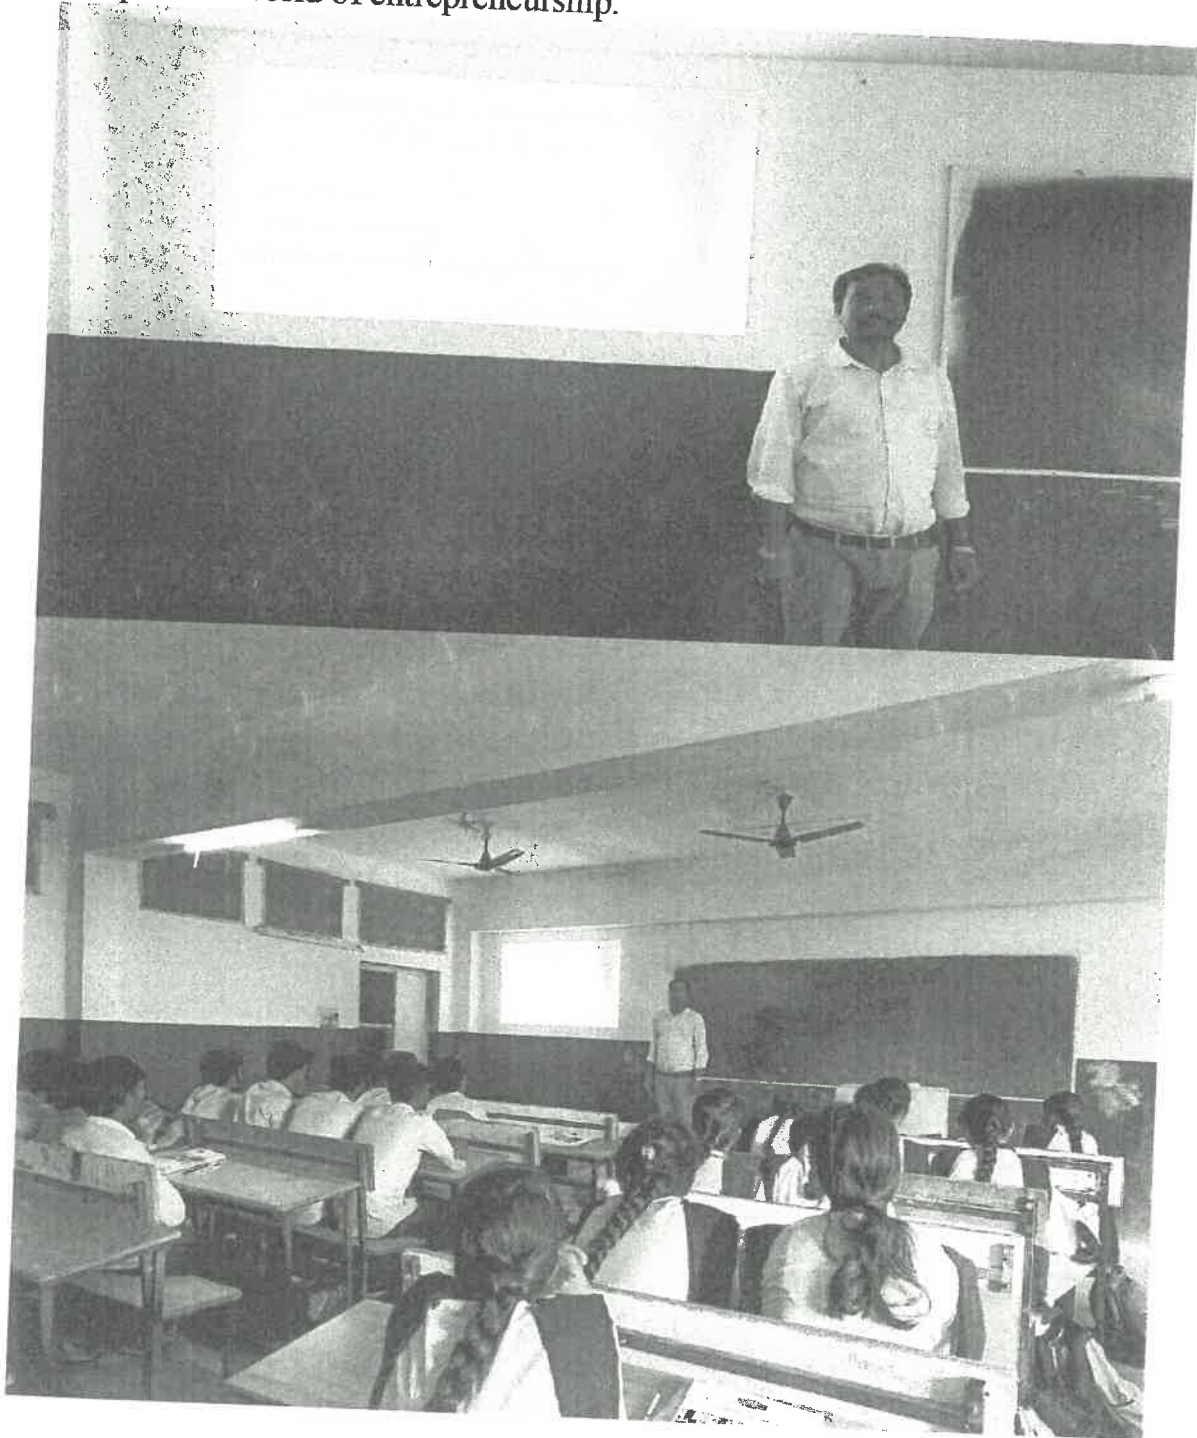

The goal of an EOP is to provide aspiring entrepreneurs with the tools and resources needed to transform their innovative ideas into successful and sustainable businesses. The program may be offered by academic institutions, government agencies, non-profit organizations, or private entities, and may range in duration from a few weeks to several months.

An EOP may also provide participants with access to a network of mentors, investors, and industry experts, who can offer guidance and

NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Outcomes of the Event

The outcomes of an Entrepreneurship Orientation Program can be numerous and varied, depending on the specific program and the goals of the participants. Here are some common outcomes that participants can expect from an EOP:

1. **Increased knowledge and understanding of entrepreneurship:** Participants can gain a better understanding of what it takes to start and run a successful business, including key concepts like market research, business planning, financial management, and marketing.
2. **Improved entrepreneurial mindset:** An EOP can help participants develop a growth mindset, become more resilient in the face of challenges, and embrace failure as a learning opportunity.
3. **Enhanced business skills:** Participants can acquire practical skills in areas like financial management, marketing, sales, customer service, and operations, which can be applied to their businesses.
4. **Access to resources:** An EOP can provide participants with access to a network of mentors, investors, and other resources to help them launch and grow their businesses.
5. **Confidence to start a business:** Through the program's training and support, participants can gain the confidence to pursue their entrepreneurial dreams and turn their ideas into successful businesses.
6. **Creation of a business plan:** Participants can develop a detailed business plan that outlines their vision, goals, strategies, and tactics for launching and growing their businesses.
7. **Connection with a community of entrepreneurs:** Participants can connect with like-minded individuals who share their passion for entrepreneurship, which can provide ongoing support, inspiration, and networking opportunities.

Overall, an Entrepreneurship Orientation Program can provide participants with the knowledge, skills, and resources needed to turn their entrepreneurial dreams into reality, setting them up for success in the competitive world of business.

13th June 2017

OrganisedBy

DEPARTMENT OF

COMPUTER SCIENCE AND ENGINEERING

GIET ENGINEERING COLLEGE

(Formerly Known as Chaitanya Institute of Engineering & Technology)
Approved by AICTE | Affiliated to JNTUK, Kakinada | Accredited by NAAC

NH-16, Chaitanya Knowledge City, GIET
Campus, Rajamahendravaram, AP.

Principal

GIET ENGINEERING COLLEGE,

NH-16, Chaitanya Knowledge City,

Rajahmundry, AP.

About the Institute

The college is located at Chaitanya Nagar on NH-16 on the outskirts of Rajamahendravaram, in GIET campus. GIET Engineering College is an epitome of excellence in every aspect. Institute is Approved by AICTE and affiliated to JNTUK, Kakinada, Andhra Pradesh.

The Institute got accredited by NAAC. The institute offers undergraduate programs in diverse engineering streams. It features state of the art facilities and highly qualified and knowledgeable pool of staff members. apart from the prescribed course curriculum, the institute offers an entire educational experience with greater exposure of students advanced skill learning via skill development centres. It has been a pioneer in adopting several pedagogic innovations for the benefit of students. The achievements of the students of this institution in academics as well as placements stand testimony to the fact.

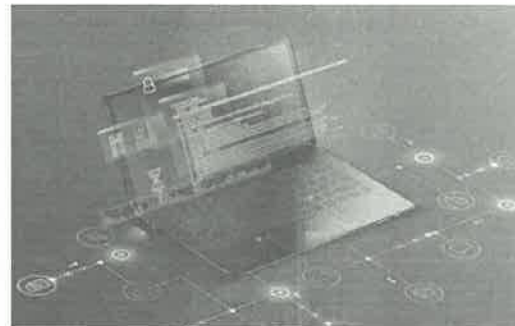

About the Department

Department of COMPUTER SCIENCE AND ENGINEERING started in the year of 2005. It is offering graduate program B.Tech. Department has well qualified and dedicated faculty members. Department has produced good number of graduates well settled in industry and some are also involved in research activities.

The Department provides all resources like laboratories, library, and classrooms to students for improving their knowledge and skills. The laboratories of the department are well equipped with sophisticated equipment to fully satisfy the training needs of the students as well as the consultancy needs of the department.

Department has produced good number graduates well settled in industry and some are also involved in research activities

ABOUT PROGRAM

Research methodology is a way of explaining how a researcher intends to carry out their research. GIET ENGINEERING COLLEGE conducting this 1-day Workshop Program on "Research Management & Accreditation Analysis" demonstrate It's a logical, systematic plan to resolve a research problem. It encompasses what data they're going to collect and where from, as well as how it's being collected and analyzed.

PROGRAM REPORT

Program Name : A Seminar on "Research Management & Accreditation Analysis"
Date of activity : 13.06.2017
Venue : Seminar Hall, C.V .Raman Block
Organized by : Department of Computer Science & Engineering
Resource Person : Mr.D.Siva Babu, Asst.Prof,
Dr.Paul Raj Engineering college
8978782485, kalyanrower555@gmail.com
Number of Participants : 48

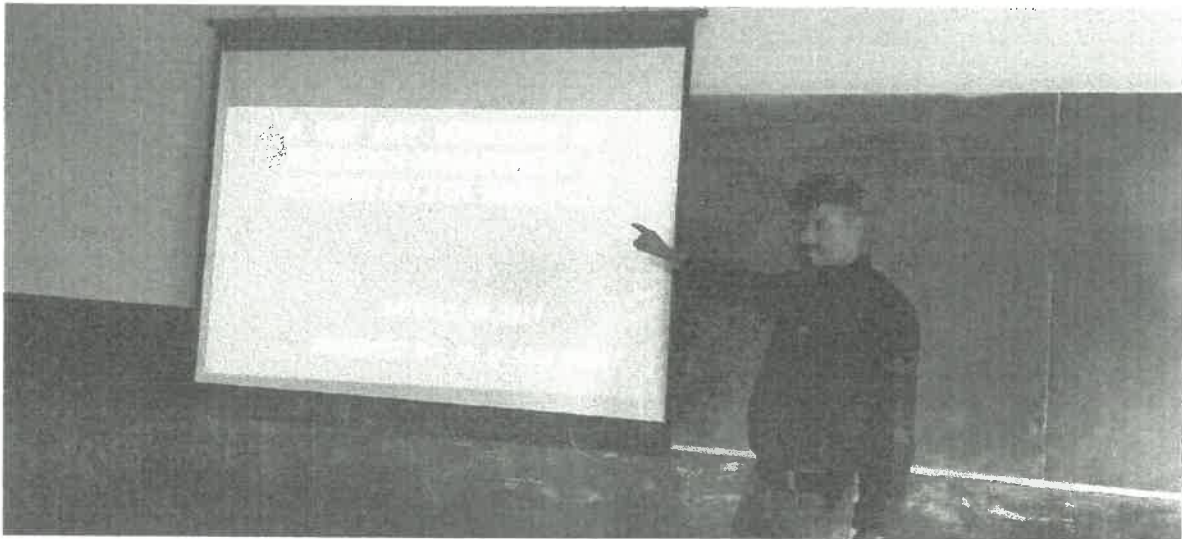

Description:

The Program designed for students of GIET ENGINEERING COLLEGE in the part of academics titled "Research Management & Accreditation Analysis", Mr.D.Siva Babu, Assistant Professor, Dr.Paul Raj Engineering College, acted as a resource person for this Seminar. Students have learnt in detail about future needs in different research areas and required parameters to consider while publishing papers in reputed journals and also different innovative teaching methods.

A Seminar on "Research Management & Accreditation Analysis" is an educational program that is designed to provide participants with an in-depth understanding of the principles and practices of research management and accreditation analysis. The seminar is aimed at researchers, academics, research managers, and anyone interested in research management and accreditation analysis.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

During the seminar, participants will learn about the different aspects of research management, including research planning, project management, funding acquisition, research ethics, and data management. Additionally, they will also learn about the accreditation analysis process and how it can be used to evaluate research programs and institutions.

Principal
GIET ENGINEERING COLLEGE,
NH-16, Chaitanya Knowledge City,
RAJAHMUNDRY-533 296.

Outcomes of the event

1. Improved understanding of the principles and practices of research management and accreditation analysis.
2. Enhanced skills in research planning, project management, funding acquisition, research ethics, and data management.
3. Increased knowledge of the accreditation analysis process and how it can be used to evaluate research programs and institutions.
4. Improved ability to develop and implement effective research management strategies.
5. Increased networking opportunities with other professionals in the field of research management and accreditation analysis.

Overall, the seminar is designed to provide participants with the knowledge and skills needed to effectively manage research programs and institutions and to successfully navigate the accreditation analysis process.
